ADVICE TO MOTORISTS

The Ontario Minister of Highways, Mr. Macaulay, has addressed an open letter to motorists, which applies equally to New Brunswick and other provinces. The Ontario minister says: "More and more the considerate motorists of Ontario are realizing how much depends upon them, in the campaign for safety driving on our roads. It is a matter of deep gratification to know that fatalities in which automobiles are concerned are decreasing in this province. From January 1st to October 31st, 1933, there were 71 less fatalities of that character than in the same period last year.

"For this marked improvement in safety-driving the Government of Ontario offers its thanks and congratulations to the motorists of the province. It is a definite indication that the majority of drivers of automobiles in Ontario are cooperating in a real endeavor to reduce the death-toll of the open road.

"To ensure that this gratifying improvement is maintained during the dangerous days of winter, as well as throughout the coming year, will YOU not make this resolution: to protect life and health by driving with care and caution, by observing simple rules of the road, and by making safety your motto as you drive along the highways and the by-ways of the Province?"

Mr. Justice Byrne, who died at Bathurst this week was the first Attorney-General of the province in modern times to discharge the duties of his office without the substantial prerequisites that came from the collection of succession duties. During his term of office the Act which allowed the Attorney-General a commission of five percent for collecting succession duties was repealed and the duty was taken over by the Deputy Attorney General, an office created at the same time. Succession duty collections have been heavy in recent years, on one occasion the receipts from this source exceeding \$300,000. As the salary of the Deputy Attorney General was fixed at \$1800 per year the change in the law meant a considerable saving to the provincial treasury.

The output of central electric stations in Canada during December amounted to 1,707,885,000 kilowatt hours. This was the largest monthly output yet produced in Canada and on a daily basis was second only to last November's output, which averaged 56,745,000 kilowatt hours as against 55,093,000 in December. Exports to the United States decreased from 106,457,000 to 99,347,000 kilowatt hours and the consumption by electric boilers increased from 374,396,000 to 389,940,000.

The County of Northumberland, which for many years was the largest contributor to the revenue of the province in the form of stumpage and millage dues, is in hard financial straits. A delegation is coming here this week to present the case to the government and should have a sympathetic hearing. Northumberland's troubles date back to the decline of the long lumbering industry, which began before the depression set in. The problem that confronts the people of Northumberland is a serious one, but surely a solution can be found for it.

The New Brunswick Liberal representation in the Federal Parliament has increased by one hundred per cent as the result of the return of J. E. Michaud for the constituency of Restigouche-Madawaska during the recess. It is reported on good authority that Right Hon. Mackenzie King has honored Mr. Michaud by appointing him leader of the New Brunswick contingent.

THROUGH OUR SIEVE

It's getting time for somebody to see the first Robin.

Some dodge responsibility and some dodge work, and some dodge both.

A medicine closet may look desolate, but it ought to be thoroughly cleared out periodically.

We can go everywhere by our means of transportation, and thus find that the world is very much alike.

The honeymoon is over when life has settled down to a daily routine of breakfast spats—and [there's not a] kick in a carload of coffee-kisses.

It is the oldest girl at the party who goes into the kitchen to find why the refreshments are delayed and sympathizes with the hostess.

Smoking is a major cause of crime, says a learned Washington physician. So, too, is eating the wrong things.

A pessimist is a person who keeps on paying the fiddler, from force of habit, after he has stopped sending bills.

Here's the trouble, though: Too many self-styled "rugged individualists" have been succeeding by virtue of qualities other than ruggedness.

Every new bridegroom has to master the domestic sign manual during the first year of marriage: otherwise he may drive his wife to first degree murder by his "What have I done now?" look, every time she kicks him under the table.

BACK TO FARM DRIVE STARTED IN GERMANY

Berlin, Jan. 24—A nation-wide plan for depopulation of Germany's big cities in an unprecedented "back to the farm" movement was announced by officials in the Department of Labor today.

The department has evolved an elaborate scheme envisaging a radical re-planning of Germany's population. The residents of the cities would be resettled on the countryside and instructed in farming methods to make them almost completely self-sufficient as far as foodstuffs are concerned.

A COURT FARCE IN THREE ACTS

Pittsburgh, Jan. 24—Mrs. Joseph F. Fernandez, 35, scheduled to stand trial in criminal court on a charge of passing \$400 worth of bad checks, decided to plead guilty.

She changed her mind and resolved to stand trial. A jury was selected and the case was ready to start when Mrs. Fernandez reversed her decision; said she guessed she's plead guilty.

Back she went again announced she wasn't guilty; a trial was the thing. Again the jury was assembled. But it never heard the case for the defendant had changed her mind again.

She went back for the third time, pleaded guilty and was sentenced to from three to six months in jail.

IN CHEERFUL MOOD

Chicago, Jan. 24—Dr. Alice Wynkoop, held on a murder charge, looked like a new woman today. She slept well and seemed to be quite cheerful. Her son, Earle Wynkoop, is missing and cannot be located.

STORMY WEATHER

The capital city and vicinity was in the midst of another snow and wind storm today with prospects of another deep layer of snow before it finishes. The storm commenced early and lasted most of the day. The soft spell yesterday has resulted in sad conditions of the roads and sidewalks. In the latter particularly havoc has been wrought and deep fissures have occurred in the roads holding up cars and making motor travel almost impossible. A number of cars became stuck in the snow and slush and had to be towed out. The wise car owner left his auto in the garage.

STOCK MARKET CONTINUES ON THE UP-GRADE

Industrials Show Activity Both in New York and Montreal Market, When New High Levels For the Year Were Reached.

New York, Jan. 24—The stock market continued buoyant this morning, with industrial and rails leading in the upward movement. The pound sterling opened at \$500% and the dollar was at a slight premium and Chrysler Motors sold at 55%, General Motors at 38%, Union Pacific at 124, and U. S. Steel at 57.
