CANADA'S GOLD MINES

Production of new gold during 1933 from all sources in Canada amounted to 2,949,309 fine ounces valued at \$60,967,626 as compared with an output of 3,044,387 worth \$62,933,063 in 1932 and 2,693,892 at \$55,687,688 in 1931. (Gold valued at \$20.67 per fine ounce.) The quantity of metal produced in 1933 represents a decrease of 3.1 per cent from 1932. The value, however estimated to include the exchange equalization, and with gold valued at \$28.60 per ounce (the estimated average price for 1933) realized an increase of 18 per cent above the corresponding value for the preceding year.

Th 1933 output originated as follows: gold contained in crude bullion made by gold mines, 2,354,766 fine ounces, alluvial gold 58,692, gold in blister and anode copper and in base bullion made at Canadian smelters 440,040, and the estimated recovery of gold in gres, matte, slags, residues and concentrates exported to foreign metallurgical plants 97,811.

Of the total Dominion output, Nova Scotia contributed 1,382 fine ounces, Quebec 382,886, Ontario 1,155,519, Manitoba 125,310, Saskatchewan 5,400, Alberta 324, British Columbia 238,995, and the Yukon Territory 39,493. Practically all of Canada's gold bullion is shipped by the mines to the Royal Canadian Mint at Ottawa.

Sherbrooke Record:— After thirty years in the wilderness the Ontario Liberals are finding a harvest of opportunities for hungry partisans. A guillotine has been erected at Toronto, and the new government will do everything but Hitlerize the Tories who have had possession of the pork barrel for thirty years, less a brief Drury term. Mr. Sauve's basket of postal heads will sink into a raspberry size beside the bushel baskets which are already being filled by Mr. Hepburn. This vindictive type of partisanship will do considerable injury to the party if it be allowed to go below those who have only their partizan activities as a recommendation for the duties and salaries given. For the office-holders who have not been objectionable or incompetent in office there can be no excuse for dismissal except barbaric cruelty.

Commenting on the recent meeting of Maritime Province premiers, The Winnipeg Tribune says editorially:—"The Charlottetown conference may be considered as a spectacular method to remind the Ottawa authorities that the Duncan report, now eight years old, specified prompt final settlement of per capita subsidies. The probable outcome will likely be a general conference at Ottawa between the nine provinces and the central government. Such a conference is overdue and inevitable. And as a result of the Charlottetown conference the Maritime unit would be better fortified, and in the form roosed less subjected to partisan political maneuvering".

The town of Truro has been getting some praise of late because of its splendid record in collecting civic taxes. Recently the Toronto Globe said:

"It appears that Truro, N. S., with but \$4.79 per capita of unpaid taxes, only though it had established a record in this respect. Along comes Harrison, Ont., with the gleeful announcement that its tax arrears amount to only \$1.41 per head of the population. Where is the municipality that can show a better record than this?"

Tenders for sixty-six and a half miles of hard surfaced roads closed yesterday with the Minister of Public Works. The provincial government will meet here on Monday evening when the tenders will be opened and the contracts awarded. It is expected that the construction work will begin with the least possible delay.

Fredericton is entertaining some distinguished visitors today in the persons of E. W. Beatty, K. C., president of the Canadian Pacific Railway Company, Sir Charles Gordon, president of the Bank of Montreal, Major General Hon. S. C. Mewburn, former minister of national defence, and vice president of Bank of Montreal. Others in the party are J. W. Hobbs, and W. A. Black, C.P.R. directors, and F. E. Meredith, K. C., a director of the C. P. R. steamships. The only matter for regret is that the visit of the party is of such short duration.

The historic Kolapore Challenge Cup donated many years ago by the Rajah of Kolapore was won yesterday by the Canadian team at Bisley. The margin over the Mother Country team was twelve points. Well done, Canadians.

THROUGH OUR SIEVE

 Optimists are what sometimes make other people pessimists.

 Maybe the age of discretion really only makes one more timid.

 If one is a strict party man he may believe too much that isn't so.

 Some men laugh because others do; they see little reason for it.

 If one is on earth but seventy or eighty years, he may think he hasn't time to try to be perfect.

 The young man who at 20 has saved \$1000 and thinks he is a success, is one. Greater rewards will come later.

 A hick town is a place where a good day for the beauty parlor means somebody is giving a party.

 Sherman's definition of war seems a little mild, but he hadn't yet seen the depression nit makes.

 Having gleaned from the public prints that girls are winning honors in oratorical classes in our schools, and realizing that the schoolgirls of today are the wives of tomorrow, the staff cynic questions the wisdom of such courses. The average wife, he explains, can "orate" proficiently enough without having had any training in that art.

ROOSTER DAYS ARE PANNED IN WEST U.S.

Urbana, Ill., July 21—A survey of more than 350 Illinois farms this summer revealed that about 80 per cent of poultry raisers were producing fertile eggs the year round, resulting in an estimated loss of \$5,000,000 through their quick deterioration in hot weather.

A movement has been launched to separate the roosters from the flocks except during hatching season, as unfertile eggs possess far more lasting qualities. Rooster days are contemplated, on which farmers will compete for prizes on roosters brought to market for slaughter.

A LARGE MARKET

A large market assembled at Phoenix Square this morning where brisk trading took place. A wide variety of produce including a good assortment of berries found a ready sale. Garden truck was much in evidence prices being fairly strong. Produce and current prices were as follows:—

Peas per qt 15 cts.

Drought Hits Burglars

Shreveport, Louisiana, July 20—The hot weather is playing havoc with burglars, a jail inmate says, explaining it thus:

"The best time to rob a house is in the early morning hours when people usually sleep the soundest. In weather like this people don't sleep. They roll and toss and walk around the house until it gets plumb unhealthy for us".

CANADIAN SHOTS WON KOLAPORE CUP AT BISLEY

Bisley Camp, England, July 20 — Sharpshooting Canadians today added the historic Kolapore Challenge Cup to the MacKinnon up, making a clean sweep in the two great team trophies of the Imperial meeting of the National Rifle Association.

The Canadians, sweeping irresistibly towards the climax of the big meet, recovered the Rajah of Kolapore's Imperial Challenge Cup from the Mother Country, which had taken it from Canada last year. It was 15th win for the Canadians since the match was first fired back in 1871.

Ten points over the Mother Country in Bisley's greatest team shoot came on the heels of a Canadian challenge in the second stage of the King's Prize, fired earlier today, that brought Private P. J. Martinsen of La Tuque, Quebec, within a point of the silver medalist, Sergeant-Major W. R. Clarke, of Bombay, Canada has eight, perhaps ten men, in the King's final tomorrow.
