CANADA LEADS THE WORLD

In the production of printing paper, nickel and asbestos in 1933 Canada led the world; occupied second place in the production of gold; in output of copper and zinc she occupied third place; fourth place in the production of lead; fifth place in the production of automobiles; and eighth in the production of wheat.

In the production of wheat, Canada in 1933 was in eighth position with 269,723,000 bushels, being exceeded by Russia with 1,019,000 bushels, (this figure appears high in the view of competent observers); China (production not available for 1933); the United States with 527,000,000 bushels; British India with 345,000,000 bushels; France with 338,663,000 bushels; Italy with 297,631,000 bushels and Argentina with 283,000,000.

In export trade, the Dominion led the world in 1933 in the exports of wheat, printing paper, nickel, and asbestos, occupied second place in the exports of wheat flour, Australia being in first place, and the United States in third place. She occupied fourth place in the exports of automobiles by the United States, the United Kingdom and France, and in the exports of wood pulp by Sweden, Norway and Finland. She occupied sixth place in the exports of rubber tires, being exceeded by the United States, the United Kingdom, France, Belgium and Italy.

The exports of these staple products from Canada make up about fifty per cent of the Dominion's total domestic exports. Canada also ranks high in the world's exports of many other staple products such as lumber and timber, fish, copper, barley, cheese, raw furs, whiskey, meats, farm implements pulp wood, cattle, raw gold, silver, rye, oats, rubber footwear, leather and hides.

Amateur gardeners who complain of the ravages of cut worms, potato bugs, squash bugs and other pests, should have a keener appreciation of what the average farmer has to contend with. He has to keep up a steady fight against insect enemies, otherwise he would have no crop. Practically every plant that grows on a farm has something to love it, and there are no wall flowers. An enormous sum is expended by the farmers of this province each year in combating insects and plant diseases, even though we have no grasshopper plague as in the west.

It was announced at Ottawa yesterday by Sir George Perley, acting premier that the government will assist direct relief in the several provinces for another month to the extent of twenty five per cent. It was also stated that a Dominion-Provincial conference would be held at Ottawa on July 30th to consider ways and means of dealing with the problem in future.

The Toronto Telegram has a story to the effect that Mr. Frank O'Connor stanch Toronto Liberal, is Mr. Hepburn's choice for the Lieutenant-Governorship of Ontario. It's a good story except that Mr. Hepburn hasn't the power to appoint the Lieutenant-Governor of Ontario. That happens to belong to the Government here at Ottawa, comments the Ottawa Journal.

The Liberal government of Ontario has only been in office three days, but long enough to have a photograph taken and published in the newspapers. Apparently one of the reforms that Premier Hepburn forgot to promise was the abolition of the practice of having photos taken of politicians at the public expense.

Barber's price war in Missouri town has got the scale for shaves and haircuts down to the point where five-and-dime stores can afford to open ton-sorial departments.

A sign of better times is the matrimonial boom, which this section of the province has experienced during recent weeks. There are more weddings yet to come. The Dominion Bureau of Statistics does not appear to keep tab on weddings.

The advent of the Hepburn Government to power in Ontario is likely to be followed by a shaking up of dry bones.

THROUGH OUR SIEVE

Like father, like son—always; in politics.

Pessimism is contagious, but some have it worse.

An "intellectual" is one who is certain to have several queer opinions.

One can't be gallant all the time if being gallant means taking the worst of it.

Tight shoes will make a man absent minded, no matter who is talking to him.

After a man has abandoned his own enthusiasms, he thinks very lightly of those of others.

The chief fault of the voice of the people is that it seldom says anything but "Ouch!"

Fire hydrants are not noted for their speed but somehow they always get to the parking places first.

You'd be surprised at the number of "things" that "come to him who waits," that he doesn't want.

The greatest blessing of marriage is that it puts an end, forever, to a bachelor's fear-complex. The fear that some woman will get him!

Use of the radio to cure toothache is predicted. Why not? A crooner can increase the blood pressure of some men.

The average man picks a wife from the stimulating girls he likes to go out with on Saturday nights—and then wonders why she doesn't turn into the soothing kind he'd like to come home to after a hard Monday at the office.

CAR TURNS OVER

Early last evening a New York car with three occupants, two of whom are resident in Devon, turned over at Brizley, two miles below Geary on the Broad Road. The car was proceeding towards Fredericton at a fair rate of speed when a blow-out occurred in the rear right tire, the net result of which found the car lying on its side pointing towards Saint John. The fender and roof of the car, an Essex Coupe, were badly damaged. The occupants, apart from the shaking up were little the worse of the adventure. Oil was procured from a near-by service station and the car was able to proceed under its own power to its destination here.

SECOND HOLE-IN-ONE

The feat of making a hole-in-one is privileged to only a few. It is quite phenomenal when someone performs the feat twice and this is just what Mrs. Bernard Sisam, nee Miss Betty Neill, did on the Fredericton golf course this week. Playing a friendly match with Mrs. C. W. Argue of this city. Two years ago she did exactly the same thing and on the identical hole. Mrs. Sisam who is now a resident of Ottawa, is here on vacation visiting her parents, Mr. and Mrs. J. Stewart Neill.

IS MUCH IMPROVED

The friends of Lieut.-Col. E. J. Lounsbury, who is a patient at the Fraser Memorial Hospital, will be glad to learn that he is steadily improving. He was admitted to the hospital a week ago, suffering from an attack of pneumonia.

ON MOTOR TRIP

Mr. and Mrs. James Strang, of Brooklyn, New York, and Miss Annie Martin of this city, left yesterday on a motor trip to Grand Falls, where they will remain over the weekend.

Peace gains in one sector, anyway; China and Persia have resumed diplomatic relations after 1300 years.

STOCK MARKET WAS IRREGULAR THIS MORNING

Industrials and Bonds Held Up Fairly Well; The Pound Sterling a Little Weaker.

New York, July 14—The stock market after displaying some activity yesterday was easier this morning. Industrials and bonds held up fairly well but rails and utilities had fractional declines. The pound sterling was quoted at \$5.04 (Montreal, \$4.98%) and the American dollar was at a discount of one and one sixteenth of one percent.

One for the Judge

Philadelphia, July 14—After finishing his charge to the jury in a numbers racket case, Judge James Gay Gordon Jr., asked the jurors if they had any questions.

The foreman frowned, ran his fingers through his hair and rose. "Well, your Honor, what do you want us to do: Find this man guilty or not guilty?"

GAITY NOW PLAYING

HAD GOOD SPORT

Moncton Times: — Col. the Hon. Murray MacLaren, M.D., C.M.G., minister of pensions and national health, arrived in Moncton yesterday in official car 101 attached to the Maritime Express. The minister was on his way to join Mrs. MacLaren at their home in Saint John, after having spent a few days fishing salmon on the Bonaventure river in Quebec. He reported a successful trip, landing some fine Atlantic silver salmon. The minister plans spending a few days in Saint John before returning to Ottawa.

Moncton Times: — Mr. J. Stanley Scott, well known lumberman, of Fredericton was a business visitor to the city yesterday.

COMPLETE COST
