The Integrity of Provincial Credit Will be Maintained

But the Government Believes the Time Has Arrived When There Should be a Measure of Federal Supervision Over Expenditures — The Case of British Columbia Is Cited.

OTTAWA, May 9—The Government's refusal to make a loan to British Columbia is not regarded as a barrier to the other Western provinces in respect to seeking and securing Federal aid. Rather it is considered to have laid down at long last the limit to which the Government here is prepared to go to maintain the integrity of provincial credit. The principle adopted is that the provinces will only be helped on condition that they accept a certain measure of Federal supervision over their expenditures. Liberal, as well as Conservative members of the House, are disposed to accept this basis as wholly reasonable.

The charges against Mr. Pattullo in Federal circles is that he proceeded on the assumption that the Bennett Ministry's desire to uphold provincial credit could be exploited to the unlimited advantage of British Columbia. Accordingly, he increased his expenditures on the principle that a spending ministry is generally popular, after which he reduced taxation, for like motive. Then he billed Ottawa for the amount required to keep his province solvent and himself in the voter's favor.

MRS. E. N. RHODES LAID TO REST AT THE CAPITAL

Public Men From All Over Canada Attended Obsequies of Esteemed Wife of Finance Minister Rhodes.

OTTAWA, May 8—Christ Church Cathedral, that stately edifice of the Anglican Church in the Capital, was filled with sorrowing men and women today drawn from every part of Canada. They attended the funeral of Mrs. Edgar N. Rhodes, wife of the Minister of Finance, who died suddenly on Sunday.

The service began at 2 o'clock and practically every senator and member of Parliament attending the sessions were present to extend sympathy to the griefstricken minister and other members of his family. A. F. Lascelles, secretary to the Governor-General, represented His Excellency.

The honorary pallbearers were: Prime Minister R. B. Bennett, Sir George Perley, Rt. Hon. W L. Mackenzie King, Hon. Hugh Guthrie, A. F. Sladen, R. L. Blackburn, J. Robert Allen and Russell Blackburn.

Many Attended

Members of the Supreme Court of Canada, members of Government commissions, and most of the Departmental officials attended. James S. Woodsworth, leader of the C.C.F., and most of the members of his group were present. The government of Ontario was represented by Hon. W. H. Price.

The group of senators was headed by Rt. Hon. Arthur Meighen, Government leader in the Upper House. Mayor P. J. Nolan and many members of the City Council were present.

The chief mourners were Mr. Rhodes, his son-in-law and daughter, Mr. and Mrs. James C. H. Bonbright and son, Edgar N. Rhodes, Jr. Relatives from out of town included A. S. Currie, Amherst, N. S.; Dr. E. B. Chandler, Montreal; C. B. Smith, Carl Bethune, Harry McKeen and J. McG. Stewart, of Halifax.

The services were conducted by Rev. E. F. Salmon, dean of the Cathedral, Archbishop J. C. Roper and Archdeacon J. M. Snowden. Following the service most of the senators and members of Parliament accompanied the remains to Beechwood Cemetery, where interment took place.

THE PREMIER WAS HEARD BY ROTARIANS

Says Peace Will Come To World Only When Nations Disarm

Ottawa, May 8—Rotary clubs now found in 72 countries of the world were invited tonight, by Prime Minister R. B. Bennett, to unite in the struggle for universal peace—a peace that could come only through world disarmament. He was guest of honor at the annual banquet of the 28th District conference of Rotary International, composed of clubs in Ontario, Quebec and New York State.

"Democracy can flourish only in a world of peace," said the prime minister. "We have now to learn that freedom means restraint, liberty means discipline." He had no fault to find with that patriotism that took pride in the character of a people but that form of patriotism which rejoiced in material achievements, size of territory and volume riches, was dangerous.

"Jingoism is not patriotism," said Mr. Bennett. "Love of country means more than pride in its size and wealth. The smallest nation may leave to the world a priceless herotage. Think of Athens!"

Rotary was one of the great forces helping to mould public opinion in these days of change and development, the prime minister continued. It should choose the path along which it would direct its efforts. Was it to be peace, the reign of law and the rule of reason?

Many people do not like perfumery. Be careful, if one seeks to please.

D. LEO DOLAN GIVES VIEWS ON TOURIST TRADE

N. B. Director of Publicity Heard by a Committee of the Senate at the Federal Capital.

Ottawa, May 8—A $200,000 federal advertising and publicity campaign in support of the tourist industry throughout the Dominion, to start immediately, was advocated today before the Senate tourist committee by Theodore G. Morgan, Montreal chairman of the executive committee of the Canadian Association of Tourist and Publicity Bureaus.

The Senate committee, under the chairmanship of Senator W. H. Dennis, Halifax, is engaged in formulating a plan for national consideration of the tourist industry, supplementing the present activities of the provinces transportation companies, automobile clubs and various individual organizations.

For Early Start

The campaign for this year should be pushed immediately, said Mr. Morgan. The summer tourist traffic only commences in May and builds up throughout June, July and August. An immediate campaign would not only be effective this year, but would stimulate fall and winter business, and should be continued into 1935.

Based upon financial returns to Montreal from the expenditures of the Montreal tourist bureau, Mr. Morgan advanced $200,000 as a minimum amount that should be appropriated for a 1934 campaign. He further suggested that $500,000 be expended annually by the Dominion in newspaper and magazine advertising for tourist trade expansion would be more than justified by the increased business that would follow.

Mr. Dolan Heard

D. Leo Dolan, direct of the New Brunswick bureau of information and tourist travel, laid a comprehensive brief before the committee, emphasizing the need of federal direction to the activities of the various organizations now functioning.

In the past the efforts to attract tourists to this country had not been properly co-ordinated, Mr. Dolan thought. There should be a Dominion department supervising the business as a great national undertaking.

"As over 90 per cent of tourist revenue comes from citizens of the United States, it is only natural that first consideration should be given to the development of business from this source," Mr. Dolan said. "We are fortunate that at this time, when the necessity is so great, there is a strong likelihood of the seed falling on fertile ground."

The chief reasons for this are:

1. There is no doubt that the low numbers and meagre purchases of tourists in 1933 were largely due to psychological causes. The temper and outlook of the American people are vostly different today from what they were 12 months ago. The removal of acute economic fear is certain to revive that "wanderlust" which was formerly so conspicuous a trait of the United States citizen.

2. Unsettled conditions in Europe are likely to deter many Americans from crossing the ocean this year.

3. The fall in the exchange values of the dollar will prevent many in the middle income brackets from venturing to those countries still on the gold standard or ever where exchange

LARGE HOTELS IN MONTREAL GET CLUB LICENSES

Will Be Able To Sell All Brands of Liquor In Hostelry

WILL COST $410

Hotels To Be On Same Footing As Private Clubs

Montreal, Quebec, May 9—The four big hotels in Montreal will, in the course of a new days, blossom forth as containing within their organization a fully licensed club in the quarters of which duly qualified members will be able to be supplied with their whiskey and soda, their gin and ginger ale, liquors, wines and anything that they wish for in just the same mann eras any other club licensed by the Liquor Comimssion.

Pay License Fees

Each hotel club will have to pay the Liquor Commission the sum of $410 as a license fee, and to prepare its by-laws regarding membership and obtain a separate charter for the club, but the management of it may be the same as that operating the hotel. As in other clubs now operating their liquor supply of the members may be pooled, and supplies drawn from the general supply.

The hotels that have already secured these club licenses are the Mount Royal, the Queen's the Ritz Carlton and the Windsor Hotel, and while there will be no bar in them, they are each preparing a spacious room which will be the headquarters of the club. The operation of this license will be confined solely to the club room quarters that will be described in it, and will not in any way be in conjunction with the tavern licenses that are operated in the hotels.

BODY OF LOCAL MAN STILL BEING LOOKED FOR

The search for the body of Gordon G. Scott, who was drowned from a canoe on the Miramichi on Sunday continues unabated under the direction of the R.C.M.P.. The river has fallen considerably since the accident occurred and this is regarded as a hopeful sign. The landing net, which Mr. Scott's companion Thomas Hunter, had used just before he had abandoned the canoe, has been recovered, but there is no trace of the fishing rod. Mr. Scott had hold of the rod when the canoe sank, and it is thought that he may have retained his hold upon it. just how far the body was carried by the strong current there is of course no way of determining. The river has been given a thorough combing for a space of several miles below the spot where the accident occured. Experienced river men say that if the body sank to the bottom of the river, it will certainly come to the surface in the course of a few days, when it will no doubt be seen and recovered.

Inspector Bird of the local detachment of the R.C.M.P., is now lending a hand and the search for the body.

Charles Fleet of this city who went to Blissfield on Monday to assist in the search returned home last evening. He had a set of grappling irons with him but they could not be made to work satisfactorily.

VIENNA—The Catholic newspaper Reichspost, in a dispatch from Rome asserted today that the papal nuncio at Berlin would protest to the foreign office against a speech in which Theodore Habiicht, German leader of Austrian Nazis, denounced the Austrian-Vatican treaty.

Mrs. John Toner of Westmorland Street is spending a few days with Mr. and Mrs. McClarey, Springhill.

The Banking Act Will Not Undergo Many Changes

Hope Is Entertained That the Committee Will Report the Bill in the Course of a Few Days; No Further Evidence To Be Taken.

OTTAWA, May 9—Fewer than forty clauses out of more than 200 in the bill revising the Bank Act remained to be disposed of by the Banking and Commerce Committee when it resumed work and there are hopes that by this week-end the bill may be reported. All of the contentious clauses have been dealt with and all but one of the amendments. No change has been made and it is not likely that any more evidence will be taken.

Consideration for the banking bill has been delayed greatly by inquiry into various subjects including banking relations with the C.P.R. loan, the wheat pool, interlocking directorates and what the banks have done in the depression. This inquiry has been productive of no disturbing disclosures, but is regarded as helpful in clearing the air.

In the last analysis it is predicted that except for a few minor changes the Bank Act will pass in the form that it was sent to the committee.

BRIGHT OUTLOOK FOR CANADIAN LONG LUMBER

Ten-Year Building Program Anticipated and British Buyers Most Favorable.

A decided increase in the demand for Canadian Spruce in building projects being carried on in Great Britain is indicated in a message received today by Hon. W. H. Harrison, acting premier from Hon. L. P. D. Tilley, Premier and Minister of Lands and Mines, who is at present in England.

The Premier advises that he has interviewed the Chief Architect of the London County Council and that contracts now i neffect specify empire grown timbers and that Canadian Spruce is specificially mentioned.

The leaders in the timber trade in London have been interviewed by Mr. Tilley and a number of importers are now on their way to Canada and more will leave in the near future to close contracts for Eastern Canada Spruce, a commodity of which the British market is short at the present time.

A building program which has been started and which will extend over a period of 10 yrs. gives promise of an excellent steady market for Canadian lumber, as English buyers are most favorable up empire purchases.

The premier visited the London County Council yesterday and was presented to the Council while in session. This morning Premier Tilley had a private audience with His Majesty and will attend the Canadian Club Dinner tomorrow. He sails for home on Friday.

APPOINTMENTS GAZETTED

At the conclusion of the Provincial Government meeting here last evening, the following appointments were announced: To be coroner, Dr. G. T. Ervine, Plaster Rock, succeeding A. W. Ridgwell; to be justices of the peace, S. D. Heckbert, Chatham; Akerley Holmes, Doaktown; P. L. Dube, Edmundston A. Harold Porter, Fredericton; Harold Tomlinson, Stanley; Harry L. Ingraham, Queensbury; R. H Miller, Moncton, and George M. Hughson, W. R. Rogers, Harry D. Hopkins and Raymond M. Tobias, Saint John to be provincial constables; John Jefries, Salmon Beach; James T. Evans, Rothwell, and Frank A. Saunders, Prince William.

LIBERALS ARE FIGHTING THE MARKETING BILL

The Blockade Seems To Be Strong Enough To Last Several Days.

OTTAWA, May 8—For the information of the House of Commons, Prime Minister R. B. Bennett today read a statement made in the British House yesterday by Hon. Walter Runciman, president of the Board of Trade, on the United Kingdom-Japan trade situation.

The Prme Minister had acted wisely in giving the House the statement, said Rt. Hon. W. L. Mackenzie King, Opposition Leader. Despatches continued to come across from Great Britain intimating that the dominions would be asked to take similar action to that of Great Britain. The statement which the Prime Minister had read indicated that nothing had been said in the British House of Commons to justify such a conclusion.

A Blockade

A blockade developed in the House today when Liberals swung their strength against the compulsory features of the Government Marketing Bill. After a long day of debate, not one clause passed through committee and the blockade seemed strong enough to last several days.

"Have we reached the time in Canada when we Canadians, who have boasted of our freedom are going to go around with a number on our backs?" asked Ross Gray, Liberal member for Lambton West. He said there were 23 clauses in the bill that meant compulsion, from forcing a farmer or producer to take out a license to telling him when and how he should market his goods, in what quantities and the quality.

"I think this House will agree," replied Hon. Robert Weir, Minister of Agriculture, "that no controlled marketing can be effected without control or compulsion in a degree." At the same time, the Minister said he believed marketing schemes could be established that would not entail compulsion.

When Liberals insisted the bill would result in restricted production, the agriculture minister issued a complete denial, declaring there was no power given to the marketing boards to limit production.

The House will not sft on Thursday, Ascension Day. Mr. Bennett made this announcement before the House rose at 11 o'clock aonight.
