Old Times Recalled

The Daily Mail at the request of a number of its readers has published a series of historical sketches dealing with local subjects and of big hills (he-wid-ge-wak) written by local historical authors. These have been read before the York and Sunbury Historical Society at various times.

A SHORT HISTORY OF THE TOWN OF DEVON, YORK COUNTY, NEW BRUNSWICK.

(By Mrs. Whitman A. Haines)

(Continued from Yesterday)

I now pass on quickly to the year 1692. A French gentleman by the name of Villebon returned from the French Court with a commission from the King of France as commander of Acadia. He was in favor with the Indians who regarded him somewhat as a chief. He was a large, fine appearing man, and very energetic. He had spent a number of years in Acadia, in fact from at least 1686, and so was better able to cope with the special difficulties arising in this new land. He had had to do with English enemies and pirates during his residence at Port Royal which he abandoned in favor of the Fort at Jemseg, which in turn was abandoned for a more secure and favorable position at the confluence of the Nashwaak and Saint John Rivers, in the territory now included in the Town of Devon site. Accordingly he sailed up the river from Jemseg, in his vessels, in the summer of 1692, over two hundred and forty years ago, it might be noted, and after planting the flag of France, near Waterloo Row, Fredericton, naming it St. Anns, crossed the river and began the building of a Fort on the upper angle of land formed by the junction of the said rivers which he called Fort Saint Joseph—though in old French docu-

EXHIBITION HAS NUMBER OF NEW FEATURES

The Secretary Says:

"Call that an Exhibition; why it's nothing but a Flower Show."

"The best Exhibition I've been to yet."

Take your choice of these remarks made by two of our Patrons last year, you've got to line up with one of them.

It looks to us as if the first man saw the Flowers anyway, and the second took a more general survey and saw the whole show.

Well we, who run Exhibitions must take these remarks seriously for we have to face the facts and sell the people what they want and in as much as we do, or do not meet your wishes we make success or failure.

The things we want to urge on you, our Patrons, is to give us your ideas and suggestions; we will not ridicule them or treat them with contempt but will welcome the most co-operation on your part in an endeavor to build a better show.

Well "that's" all and that's that "Flemings of course"

Now we will get down to business.

There is going to be an Exhibition in Fredericton this year.

The dates are September 8th to 15th.

Saturday is the opening night and there will be a program of speeches and music beginning at 8 p.m. Everybody welcome and there will be no admission charged on the opening night.

Monday is Children's Day—bring your own or your neighbor's children from any place you like—all children up to and including Grade 8 admitted free. We are asking the Fredericton School Board for a half holiday on Monday and we hope that the surrounding School Districts will grant a holiday in the schools in order that the children may have an opportunity to see the Exhibition on their free day.

Tuesday, Wednesday and Thursday there will be Harness Racing in addition to the regular program and we remind you that it costs nothing extra to see the Races; the Gates are open between the Exhibition Grounds and the Track and 40 cents admits you to both Exhibition and Races.

Friday is Farmer's Day with special demonstrations of Live-stock and a full program of entertainment as well.

Saturday is Citizens' Day and Grand Finale and what a day it always is.

There is so much to write about that we have not mentioned a number of new Exhibits, Fireworks, The splendid list of Grandstand Attractions, Music by our two City Bands and as always, one of the most popular features in connection with any Exhibition, The Midway, attracting thousands of people with its glitter and glamor of lights, music and laughter; The Winfield Amusements inc. of New York City will provide the major attractions for the "Lane of Laughter" this year and will be presented in a clean showmanlike manner with diversified attractions many of which have never appeared in Fredericton before.

Our space is all sold; our Buildings will be filled with attractive Exhibits. Everything points to another successful year.

Come and see a Big Show at a Small Price—we can only keep the Price where it is through your co-operation.

BUSINESS LEVEL HIGHER IN THE DOMINION

Montreal, Aug. 24—Business in Canada is on a higher general level than a year ago and all indices of trade reveal improvement over 1933, and some improvement over conditions two years ago, it is noted in the Bank of Montreal monthly business summary issued here today.

The general scale of production has been well maintained, the report continues. Hope of a bountiful harvest is not to be realized, but taking the Dominion as a whole, crops promise to equal, perhaps exceed, those of last year, though prolonged drought over large areas in the Western and Central Provinces has retarded growth and reduced the production.

Fundamentally the situation for Canadian wheat has improved markedly during recent weeks. The carry-over announced by the Dominion Bureau of Statistics Aug. 11 is 193,000,000 bushels in Canada alone, compared with 212,000,000 bushels a year ago, or 203,000,000 bushels (if Canadian wheat in the United States is included) as compared with 219,000,000 last year.
