

PREMIER TILLEY PRESENTS THE CASE OF THE MARITIMES PROVINCES AT MONTREAL

Presents Strong Arguments In Favor of Better Terms—Property of Dominion Partnership Given Away To Other Provinces With No Compensation for the Maritimes.

Had the Maritime Provinces refused Government to be used for the purpose of entering Confederation, the rest of the Dominion—part of our Canada would only have had one way of direct access to the sea via the Pacific coast. Their winter trade to the Atlantic would have to go through the territory of another Dominion, with their own customs and excise laws.

Hon. L.P.D. Tilley, Prime Minister of New Brunswick pointed out today, in an address to the members of the Canadian Club in Windsor Hotel.

The fathers of Confederation all thought it was essential to the success of the move that the Maritime provinces should take part in it. Today the Maritimes are an integral part of the Dominion, and intend remaining such, but they ask from the rest of the Dominion their hearty support in efforts to bring to the Maritimes the prosperity which the fathers of Confederation promised them as a reward for their joining the union. He considered that the Maritimes had not been given adequate compensation for their sacrifice of customs duties, and their willing acquiescence to the handing over of Crown lands to the prairie provinces.

No Dissenting Voice

"At the Dominion and Inter-Provincial Conference held in Ottawa in 1926," he said, "there was no dissenting voice from the Eastern provinces to the handing over by the Dominion of all Crown lands, mines, minerals and royalties to Saskatchewan, Alberta and Manitoba. In fact the conference passed the following resolution:

"That this conference expresses its sympathy with those Provinces which by reason of conditions peculiar to them have not progressed as participated and urges upon the Federal Government that it should favourably consider affording relief to each of such provinces in a form that will ameliorate these conditions.

"The Maritime Provinces representatives agreed because it was distinctly understood that the Western Governments would favourably consider a quid pro quo with the Maritimes under recommendations of the Duncan Commission.

"Permit me to set out what the Maritimes consider as their just and equitable claims. The Maritime Provinces have not prospered or benefited by Confederation to an extent approaching that to which other provinces of Canada have, and the policies of national development of ocean borne international trade of Canada through the Maritime ports has in a large measure been ignored.

"The Maritime Provinces have received no adequate return for the following free gifts to other provinces of the Dominion, namely: In 1889 the Dominion Government gave to the Province of Ontario, from her unorganized territories, an additional area of 22 million acres. In 1912 the Dominion Government gave Ontario another increase to her provincial bounds, namely, 93 million acres or in all 115 million acres.

"In 1898 the Dominion Government passed over to Quebec from its Dominion lands 100 million acres and in 1912 another 227 million acres. In 1912 the Dominion Government increased the bounds of the Province of Manitoba by 114 million acres from the unorganized territory lands purchased from the Hudson Bay Company.

Received Award

"But you may say to me—Why should not British Columbia, Alberta, Saskatchewan have the same claim as the Maritime Provinces for thus giving away the property of our Dominion partnership to Ontario, Quebec and Manitoba. The answer is—they did, but they received their award.

"British Columbia received the railway belt lands and the 'Peace River Block.' Alberta, Saskatchewan and Manitoba received millions of dollars worth of property both real and personal when the Dominion Government passed over to them in 1930 all Crown lands, minerals, mines and royalties formerly owned by the Dominion.

UNDERFED ANIMALS LIVE LONGER

Cambridge, Mass., Jan. 16—Full feeding means shorter life. If you would have many days upon the earth, be abstemious.

This would seem to be the conclusion to be drawn from experiments on laboratory animals, reported here today before the meeting of the American Association for the Advancement of Science by Dr. Clive M. McCay and Miss Mary F. Crowell of Cornell University. Rats were used in their research, divided into approximately equal groups. All were fed diets qualitatively complete.

"Two groups were retarded in growth by inadequate calories only, while the third group matured rapidly with ample calories," the experimenters reported. This experiment is conclusive in showing that the animals that mature slowly have a much greater life span than the rapidly growing ones.

It seems a little discouraging that 4589 motion picture theaters in the United States are closed until you learn that 3314 of these are not wired for talking pictures.

TOWN IN NORTH SEES FIRST MOVIE

Ottawa, Jan. 15—December brought to Coppermine, a tiny settlement in the far Canadian North, on the fringe of the Arctic circle, its first moving picture.

Eleven persons, comprising the entire white population, joined with Eskimos at an improvised cinema, furnished by an amateur projector, which arrived unexpectedly by dog sled.

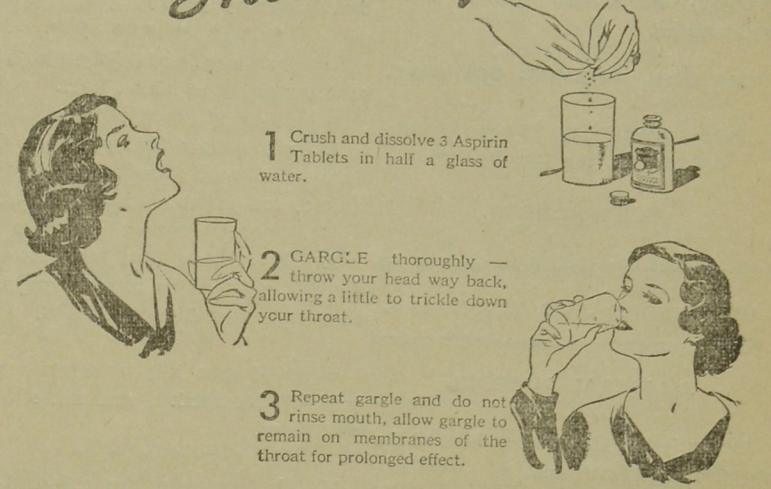

NOTICE

NOTICE IS HEREBY GIVEN that application will be made at the forthcoming session of the Legislature of the Province of New Brunswick for the passage of a Bill authorizing the St. George Pulp & Paper Company Limited, to erect new and additional and to keep and maintain present existing storage dams at or near the outlets of McDougall Lake, Digdeguash Lake, Lake Utopia in the County of Charlotte, and Magaguadavic Lake and Second Kedron Lake in the County of York, and Kedron Lake in the Counties of Charlotte and York, to be used in connection with its properties and plant at St. George in the County of Charlotte.

Dated this Fifth day of January, A.D. 1934.

ST. GEORGE PULP & PAPER COMPANY LIMITED.

Now! Ease Sore Throat Instantly!

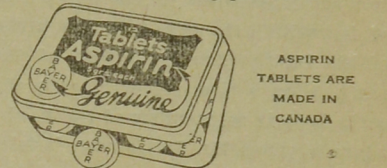

Remember: Only Medicine Helps Sore Throat

Modern medical science now throws an entirely new light on sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes!

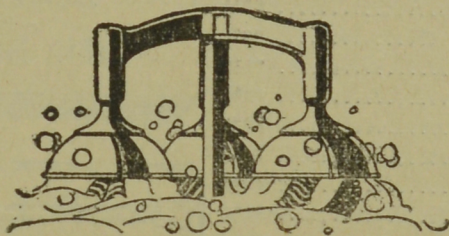

It requires medicine—like ASPIRIN—to do these things! That is why throat specialists throughout the world are prescribing this ASPIRIN gargle in place of old-time ways.

Be careful, however, that you get Aspirin Tablets for this purpose.

Aspirin is the trademark of The Bayer Company, Limited, and the name Bayer in the form of a cross is on each tablet. They dissolve completely enough to gargle without leaving irritating particles.

A New Perfected VACUUM CUP WASHER

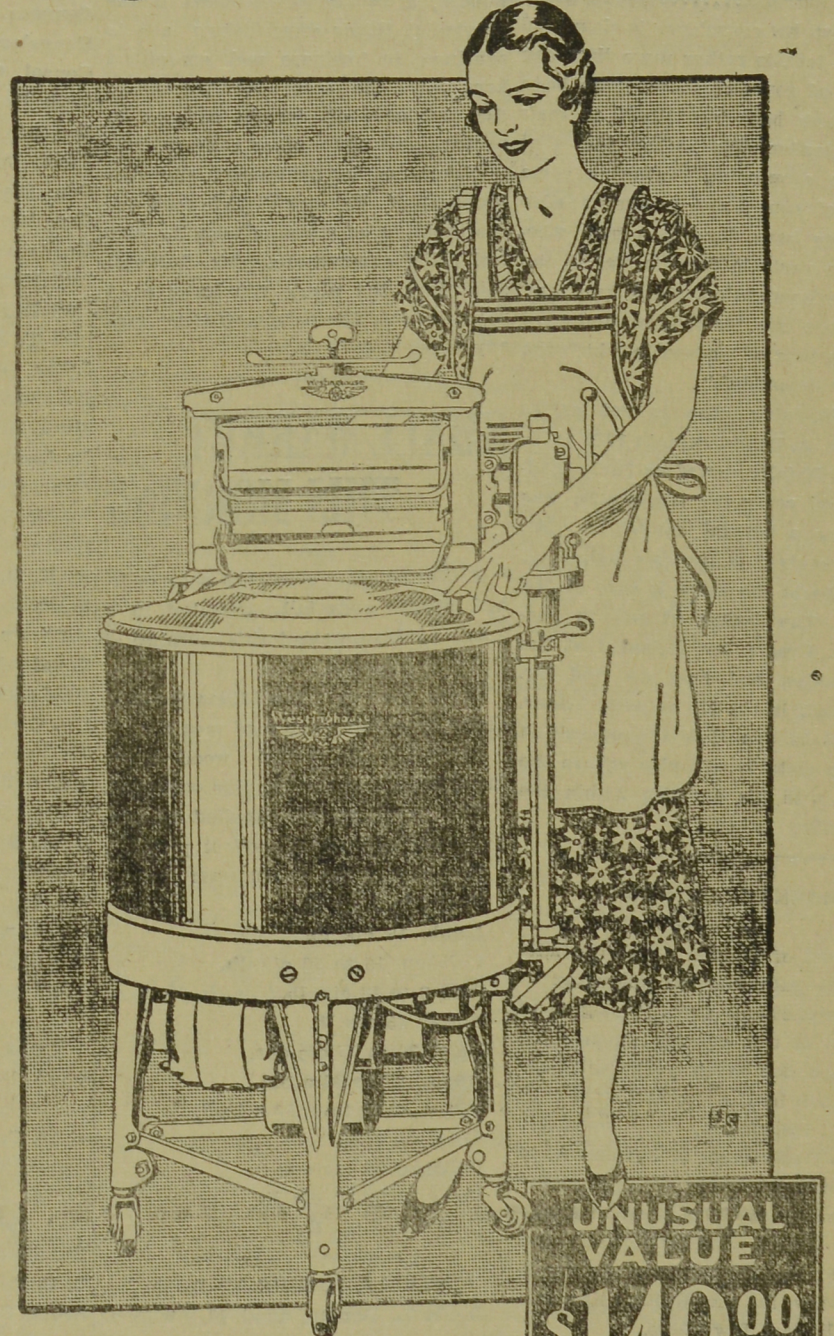

TO the women of Canada, Westinghouse presents a new, advanced Vacuum Cup Washer . . . a washer that looks different, is different, and employs the Vacuum Cup Principle which has for years stood supreme in the regard of careful housewives.

Gently as human hands, yet irresistibly, the three powerful vacuum-cups force air and cleansing suds through every mesh and fibre of the fabric . . . without friction, without the slightest injury to the most delicate weaves.

Even deeply imbedded dirt cannot withstand the searching, thorough "Vacuum Cup" action.

Beautifully finished in smart, modern color combinations . . . Crystal Black, Coral and Silver . . . or Nile Green, Light Green and Silver . . . the new Westinghouse-Easy Vacuum Cup Washer presents a combination of important refinements found on no other machine, including hand height control lever, all enclosed oil-bath main gears, instant accessibility, single point oiling system and the wonderful Lowndes clutch (an exclusive feature on the new Westinghouse-Easy Vacuum Cup Washer) which removes forever the old risk of accidental damage through overload to motor or wringer.

And here is more good news! Now, for the first time you can have this perfected Vacuum Cup Washer for no more than the price of an ordinary washer . . . the lowest price ever offered in Canada on a vacuum cup electric washer.

See this wonderful new Vacuum-Cup Washer . . . and learn how easily it can be purchased on the Westinghouse Budget Plan!
