THE LUMBER INDUSTRY

The cut of lumber made in Canada during 1932 was considerably less than it had been since 1908, when accurate annual statistics of the lumber industry were first collected. The total of all the products of the industry decreased from \$62,927,750 in 1931 to \$38,506,647 in 1932, a decrease of 39 per cent. There were decreases in both quantity and total value of all principal products except shingles, and all but a few of the secondary products.

The production of sawn lumber in Canada reached its maximum in 1911 with a reported cut of 4,918,202 M. feet board measure, followed by considerable decrease in 1921 with a cut of 4,298,804 F feet board measure, followed by a considerable decrease in 1921. Increases in quantity production took place annually from 1921 to 1926. In 1927 there was a slight reduction followed by further increases in 1928 and 1929, and a decrease in 1930. Sawn lumber production amounted to only 1,908,884 M. feet board measure valued at \$26,881,924 in 1932 as compared with 2,497,553 M feet board measure valued at \$46,136,340 in 1931. The average value of all kinds of lumber decreased from \$18.47 in 1931 to \$14.85 in 1932. The preparation of pulpwood, including cutting up and barking, or roasting, is carried on as a side line in many Canadian saw-mills and is therefore included as part of the saw-milling industry. Prepared pulpwood comes second in importance with 414,037 cords valued at \$4,202,761 in 1932, as compared to 615,853 cords valued at \$6,968,413 in 1931.

There were more mills in operation in 1932 than in 1931, but the average production of lumber per mill was lower. The total number of employees in all mills on salaries and wages decreased from 22,361 in 1931 to 18,285 in 1932. The total pay-roll decreased from \$16,409,674 to \$10,761,090.

British Columbia heads the list in the production of sawn lumber and shingles. Quebec comes first in lath production and in the preparation of pulpwood. The production of lumber increased in Alberta and Prince Edward Island, but decreased in all other provinces.

IN PARLIAMENT

There are two amendments to the address before the Federal Parliament. A straight want of confidence motion was moved by Right Hon. Mackenzie King, the Liberal leader, and Robert Gardiner, the U. F. A. leader, moved a subamendment, which declares that the country has lost confidence in both the government and the official opposition. There was some discussion yesterday on a proposal to take up consideration of the estimates and the Liberals took the ground that it could not be done until the want of confidence motion had been disposed of. Consideration of the estimates was finally deferred. During the debate Speaker Black in referring to the U. F. A. amendment, remarked that the very fact that the official opposition was in opposition indicated that it did not possess the confidence of the country. In this the Speaker is undoubtedly right.

Tammany Hall of New York, long the world's greatest political organization, has been getting some hard knocks of late and is now threatened with bankruptcy. John F. Currie, its leader is blamed for its troubles and lesser lights if the organization are now said to be on the lookout for a new leader. It will be recalled that it was not with the aid of Tammany Hall that President Roosevelt received the Democratic nomination at the Chicago Convention in 1932, but in spite of it, and it is scarcely like that the president has any great amount of sympathy for the organization in its present difficulties.

A radio debate on the status of the pioneer and modern women was debated over the radio last evening. Two students from the U. N. B. took the affirmative side and an equal number from McGill University championed the negative. Both sides of the question were well presented and the judge, who is a Montreal lawyer, will give his decision this evening. Those who conceived the idea of holding college debates over the radio rendered a valuable service. Travelling expenses are thus eliminated and the students have a much larger audience than was possible under the old system.

Peterboro Examiner: The top price for hogs at Chicago last week was \$3.65 per cwt., and the average was \$3.40. Contrasting that with the \$9 per cwt. paid in Peterborough yesterday for porkers, Ontario farmers will probably agree that there are worse places to live in than this banner province. In Canada "pigs is pigs".

One railroad has perceived a great light. It has determined to feed everybody on the train instead of expecting as many as possible to go into the diner. For those who will buy only a sandwich and coffee, a sandwich and coffee is provided. Every 10 cents counts.

Students at the University of Vermont last year spent \$18,800 for text books and \$5,640 on supplies, and only \$7,564 for food, proving that Vermont College students do not live by bread alone.

Judging from the diots in Paris, some of those fifty million Frenchmen must be wrong.

It'll be a shame, though, of Hollywood actors are paid what they're worth and no more.

Nothing to worry about perhaps, but Jack Warwick, Toledo Blade, wonders why the call on the home phone is seldom, if ever, for dad.

The return of curves gives a woman a chance to be in fashion and at the same time amiable. A starvation diet is hard on the nerves—particularly the husband's nerves.

The only sure thing about money theories is that the more plausible they sound the dumber they are.

REVISORS RE-APPOINTED

The City Council at its regular February meeting last evening reappointed for the ensuing year the two revisors, Abner B. Belyea and Walter B. Burden, and the assistant assessors, Howard H. Blair and J. Arthur Thompson. The tax collectors for January, 1934, as shown in the report presented by Ald. Warren Maxwell, were \$7,177.48. The collections for January, 1933, were \$8,091.12. The total expenditures for the month as shown in the auditor's report was \$37,817.43. The meeting was mostly taken up with the hearing of delegations from the Children's Aid and the matter of relief depot here. Mayor Clark presided.

TOO MUCH OSCULATION

Milwaukee, Feb. 7.—The complaint Sheriff Adolph Dueschener or Ontario made was that he got too many kisses! He told about it in court and as a result Adolph Behnke, his wife and his son, Marvin, were held for trial on charges of "resisting an officer." The sheriff said when he went to arrest Marvin his father patted him on the back and that Marvin's mother caressed and kissed him to the point where he couldn't get his breath.
