THE PREMIER'S SPEECH

In one of the ablest speeches of his long public career, delivered in Parliament yesterday in the debate on the address, Premier Bennett made a most effective reply to the opposition leader, Right Hon. Mackenzie King. The Premier made an admirable defence of the record of his government and there was a strong note of optimism all through his speech, which is bound to lend encouragement to those who are carrying on in the face of the worst period of depression the country has ever known. The ground was fully covered, and the Premier challenged refutation of his claim that Canada is emerging from the depression in better shape than any other country in the world. The Premier made an able defence of the world wheat agreement, the empire trade treaties, the Central Bank proposal, the unemployment and trade policies of the government and well as the action of the administration in guaranteeing a loan to the C. P. R. His speech was masterly and aroused the enthusiasm of his parliamentary following to a high pitch.

In referring to reciprocity with the United States the Premier declared emphatically that he would never sign a lopsided agreement, that would open the Canadian market to lower priced farm products from across the international boundary. There is no doubt that in this respect he correctly voiced the sentiment in this country. Closer trade relations with the United States are desirable but Canada cannot afford to enter into a jug handled arrangement or one that could be terminated whenever American politicians consider it advisable to do so.

Premier Bennett is now on his fourth year as leader of the government and it will be conceded even by his political opponents that he has labored faithfully and unceasingly to bring about a betterment of conditions. No Premier since Confederation has carried on his shoulders such a tremendous load of responsibility, and the right thinking people of the country are not going to deny him a full measure of credit for what he has achieved.

THE PRESIDENT'S BIRTHDAY

Never before has a living president of the United States been accorded so much honor by the people of the nation on the occasion of his birthday, as was extended to President Franklin D. Roosevelt yesterday. The president was born in 1882 and yesterday rounded off fifty two years of an active and useful life. He was the recipient of many thousands of telegrams and letters of congratulation from all parts of the country, in addition to many gifts, one of which was a birthday cake weighing 250 pounds. The wholesale and very hearty manifestations of esteem and good will shows in the opinion of the people the president is making good as chief executive. The president's birthday was put to practical use, as last evening no less than six thousand balls and dances were held throughout the country the proceeds of which are to go to the Georgia Warm Springs Foundation an institution of which the president is the founder.

According to the Social Service Council of Fredericton it is alleged the time has come for getting all the children under fourteen years of age off the streets by nine o'clock at night. It will be interesting to find out how it can be done—with even a few minor obstacles such as visitors, tourists and youngsters who rule the domicile. Age experts will be required with extra police and incidentally, more criminals as a result. So, go easy, good folk. Some grown ups may come under the age limit. Why not put this question upon an intelligent basis?

THROUGH OUR SIEVE

It is the pelican that carries his own pantry with him.

A real aristocrat is one who simply can't be common.

If you can't tell whether or not your pulse is beating too fast you haven't got any fever.

If you try to treat life as a joke, life will treat you as a "scream".

All a man asks for, when he has a photograph taken, is justice—but a woman prays for mercy!

"Give me liberty or give me love" is a song popular with the crooners on the radio, and Hi Sloum says that he would like to give some of them thirty days.

No great thought was ever expressed in bad grammar. Ambitious young man, get an education.

Pains, as one grows older, are merely nature's way of making the machinery creak when it isn't new.

It isn't the fear of criticism that bothers most of us; it's the fear that our critics may be right.

A girl's indignation at a man's impertinent attempts at love-making, when he has a few drinks aboard, is exceeded only by her disappointment at his failure to remember all the ardent things he said when he sobers up.

FRANCES EDNA STEEVES

Frances Edna Steeves, aged 18 years, passed away at the Victoria Public Hospital this morning after a short illness. Born at Hillsboro, N. B., the daughter of Mr. and Mrs. Hartley Steeves, she lived with her sister, Mrs. John E. Forbes, at Fredericton and Devon for the past six years. She is survived by her father and mother, Mr. and Mrs. Hartley Steeves; one sister, Mrs. John E. Forbes of Devon with whom she resided; and two brothers Albert and Allison of Hillsboro, N. B. The remains will rest at the home of Mrs. John E. Forbes for the funeral service to be conducted by Rev. George Telford tomorrow evening at 7:30 o'clock and the remains will then be taken to Salem, Albert County by train at 9:30 o'clock on Friday morning for interment.

RADIO DEBATE

The second of a series of radio debates took place last night when Dalhousie met U.N.B. over the waves. U. N. B. upheld the negative of the resolution "That the Canadian Farmer is of More Benefit to Canada than the Manufacturer. Dalhousie representatives were John Fisher and Leonard Hawco, while Lloyd Machum and H. C. Creighton spoke for U.N.B. Much interest has been evidenced in these debates and the decision in the above tilt will be rendered tomorrow night by His Lordship Rt. Rev. J. A. Richardson, Bishop of Fredericton, who acted as judge.

SECOND COLDEST DAY

Central New Brunswick set up a record today of the second coldest day of a record-breaking winter. Thermometers here today fell as low as 35 degrees below zero. The official temperature was somewhat between 26 and 28 below zero. Citizens scurried about today hoping against hope that the temperature would finally moderate. In the face of such a winter even the traditional pronouncements of Old King Groundhog can now have no great significance. The damage has already been done.

BACK TO WORK

Charles N. McCarthy, C. P. R. station agent, who has been recuperating from injuries inflicted to his head when he was attacked by one, Joseph Biofore, while at his duties, has recovered sufficiently to be back at his work. Friends will be glad to learn that Mr. McCarthy suffered few ill effects from the nasty incident.

COLIC Stomach Ache DIARRHOEA

One of the greatest discoveries for stomach and bowel troubles is NERVILINE, a remedy whose fame extends far and wide. Ten or fifteen drops of Nerviline taken internally with water is an instant relief to cramps and colic—stops the pain immediately. Nerviline possesses a marvellous influence over pain, especially pain that is caused by some derangement of the stomach and bowels.

"Last summer my children ate green apples and were seized with violent cramps. My youngest child was in dreadful pain. I knew just what to do, and gave them Nerviline. This had an immediate effect. One minute my poor children were doubled up in agony, and almost in the next they were better. I can't say just how much I value Nerviline. I use it for many different sicknesses in the family and always get good results."—Mrs. O. D. Kiker, Portland.

Every mother should keep Nerviline on hand—it protects the entire household in case of sudden illness. Reliable for relieving pain, internal or external.

MEN ARE MAROONED

Bay of Whales, Jan. 31—Forty men of Admiral Byrd's crew have become marooned and are struggling with dog teams to get back to the flagship. Their mishap was due to the disruption of the ice field. In the meantime the Jacob Ruppert is seeking a landing place.

Everybody is useful. The poorest football team helps some rival coach to be a wonder.
