Important Meeting Of the Cabinet is Being Held Today

Organization of the Central Bank and the Marketing Board Among the Matters To Engage Attention—The Deputy Minister of Finance May Be High Official of the Bank.

OTTAWA, July 18—Cabinet Ministers, of whom many have been on brief vacations, have returned to Ottawa in readiness for today's cabinet meeting following the return of Premier R. B. Bennett from his western trip. Questions to be discussed include the organization of the Central Bank, the Marketing Board and the operation of the law for the composition of farmer's debts.

In each of these subjects some preliminary progress has been made in the past fortnight during Mr. Bennett's absence, but questions of personnel are in abeyance. In its initial stage the Central Bank will likely be quartered in the Finance Department close to the Treasury. The nucleus of the staff will be treasury officials. Though lacking any confirmation, the rumor that W. C. Clark, Deputy Minister of Finance may be one of the high officials of the bank is prevalent. He had much to do with the legislation, both as regards the Central Bank and the chartered banks.

The Marketing Board, at this stage may not be recruited to any large extent outside of the agriculture department for two reasons — one, the economy of this plan and the other that departmental officials are as well qualified as any for the functions to be exercised by the board.

ENJOYING THEIR VISIT TO DALHOUSIE

Officers and Men of the H.M.S. Dragon Having a Good Time at Bay Chaleur Port.

Dalhousie, July 17—With fishing, golf tennis, dancing and football taking up most of their time since their arrival last Friday, the officers and crew of H.M.S. Dragon are greatly enjoying their stay in Dalhousie.

Arrangements have been made to have most of the officers visit the Restigouche and Matapedia rivers, and several fishing parties have been trying their luck with others to follow. Among the officers who must stay on board and can get away only at intervals during the day, some have their daily round of golf at the Restigouche Club and others indulge in a few sets of tennis during the afternoon and evening. There was a dance this evening, sponsored by the fire brigade, and the affair was one of the greatest attractions since the warship's arrival. There will be another dance tomorrow evening, when the ship's band will furnish the music, and on Thursday afternoon Commander F. T. Roy and Captain Wake-Walker will be hosts at a social hour for guests from Dalhousie.

Football has also had prominence since the arrival of the Dragon and games have been arranged for practically every evening during the ship's stay. Last night, local soccerites were beaten, 7 to 1 by the visitors on the D. A. A. grounds. Showers this evening caused cancellation of a match between two teams from the ship.

HYDRO PROBE UNDERWAY IN ONTARIO

Ex-Premier Henry and Senator Meighen Want the Government to Pay Counsel.

Toronto, Ont., July 17—Declaring the Ontario government should pay for counsel to represent them before the Royal Commission investigating the transactions whereby the Ontario Hydro Commission took over the Ontario Power Service Corporation, former premier George S. Henry and Senator Arthur Meighen today started a lengthy argument when the commission opened its probe.

Finally it was intimated by Arthur G. Slaght, K. C., commission counsel, and Chief Justice F. R. Latchford, commissioner the matter would be placed before Premier Mitchell F. Hepburn, for consideration.

Mr. Meighen was called as a witness today and for several hours documented after document was placed in evidence, outlining the history of the Abitibi Canyon development from the first application for power rights by the Hudson Bay Power Company to the payment of a check for \$20,000 for the lease by the Hydro Commission this year.

SOVIET GLIDER FLIES 35 HOURS

Koktebel, Crimea, U.S.S.R. July 18—M. Simono, who commanded the aerial train of plane and gliders which recently flew from Moscow to this city, set a Soviet gliding record by remaining in the air thirty-five hours and eleven minutes in a motorless plane.

BOBBY CONNOR WAS FOUND IN THE WOODS

Child Believed To Have Been Kednapped and Then Abandoned.

Hartford, New York, July 17—Baby Bobby Connor, found scratched, but smiling in nearby woods after he had been missing for five days, lay seriously ill of exposure and starvation to night while police expressed the belief he had been abducted and then freed.

"I am forced to the conclusion that it must have been a kidnapping", said Captain Phillip J. McQuillan, head of the Greenburgh police.

"I feel that the baby was placed in the woods (which had been searched frequently) in the last twenty four hours. I don't think he could have crawled or walked that far back into the woods."

Twenty one months old Bobby was discovered in a bramble thicket, a half mile back of the home of his parents, Mr. and Mrs. Charles Connor in mid-afternoon by Sergeant Jerome Hogan accompanied by Officer Rosalee Dunskeil of Greenburgh.

From the Connor home, where the mother was placed under a physician's care, Bobby was taken to Grasslands Hospital at Eastview.

Dr. C. W. Minger, head of the institution, reported he was suffering from exposure, lack of food and water. It appeared, he said, the child had received no water in four days.

"The baby is in a very precarious condition, but has a fair chance to recover", Dr. Minger added after completing his examination.

"There is evidence of starvation. I do not think the bruises, cuts and scratches on the baby's body could have caused any serious infection."

Reich's Revenue From Customs Has Been Blocked

Trustees of the Dawes Loan Take Action at Berlin—The Payment Was Made in Reichmarks Instead of Valid Foreign Exchange—Germany Said To Have Made Defensive Measure.

BERLIN, July 18—The three trustees of the Dawes Loan, including Gates W. McGarrah of the United States, have blocked at the Reichsbank the Reich's revenue from customs taxes on beer, tobacco, sugar and brandy.

The action was taken on the ground that the Reichsbank made the July 15th payment due on the Dawes Loan in Reichmarks instead of valid foreign exchange, as stipulated.

The Reichsbank paid in Reichmarks in consequence of Germany's recent moratorium on the Dawes and Young Plan loans.

It was announced the Government had taken "defensive measures" although their nature was not revealed.

In 1930 the Dawes trustees made an agreement under which customs taxes on the commodities mentioned, which were pledged as payment on the Dawes Loan, should be paid entirely to the Reichsbank as a guarantee of payment of services on the loan. Germany's abrogation of the arrangement caused yesterday's blocking.

The Government was expected today to end summarily the enforced July vacation of the Storm Troops and permit them to wear their uniforms at once.

CONSERVATION PROBLEMS ON THE BORDER

Representatives of New Brunswick and Maine Fish and Game Developments Meet at Houlton.

Houlton, Maine, July 17—Representatives of Maine and Canadian fish and game departments met here today, for the first time, to discuss conservation problems affecting the lakes and rivers along the international boundary.

Proposals that Maine and New Brunswick each stock Grand Lake with 100,000 three inch salmon annually and adopt similar fishing regulations for the international waters were brought before the meeting.

Action on a long-suggested project to screen the outlet of Grand Lake, to prevent game fish from escaping, was deferred until the federal, and Dominion governments shall have made a projected survey of the Saint Croix River area, separating Maine and New Brunswick.

Those attending the conference were Commissioner George B. Stobie, of the Maine department of fish and game; Dr. W. A. Found, Ottawa, deputy minister of fisheries; H. H. Ritchie, Fredericton, chief game warden of the province, and D. H. Sutherland, of Halifax, Maritime Supervisor of fisheries.

ONLY A FEW BRIDES BLUSH

Quincy, Mass., July 18—It's the bridegroom who blushes, not the bride, says Emery L. Crane, city clerk. Very few brides-to-be blush nowadays when they apply for their marriage intentions, Crane reports. He has observed much blushing and stuttering by prospective bridegrooms.

PROBLEMS OF FISHERMEN CONSIDERED

Premier Tilley Suggests That They Be Placed Before the Stevens Commission.

Saint John, N. B., July 18—The problems of the New Brunswick fishermen should be placed before the Royal Commission on mass-buying formed to probe commercial practices and business ethics throughout the Dominion, in the opinion of Premier L. P. D. Tilley, who yesterday met with the New Brunswick Marketing Board at a special conference in St. John.

In the event of the province's fishermen forming a small committee to present their problems before the Stevens commission, the New Brunswick government will defray their expenses for the Ottawa trip, the premier told the Marketing Board.

Evidence gleaned by the board during its visit Monday to Welchpool, when it interviewed fishermen in that district, was presented to the premier at yesterday's meeting.

Considerable discussion also took place regarding the potato situation in this province and the question of better methods of marketing the crop.

The board was authorized by the premier to conduct an inventory of all vacant farms in the province with the idea of having them classified as to soil and likelihood of rejuvenating them into active producers.

The Marketing Board will arrange for a small committee to launch this project at once.

BUCHAREST—Three soldiers were killed today in an explosion which destroyed ammunition stores of the army garrison at Tunari. The explosion set off 100,000 grenades and 50,000 shells.
