R. F. C. is Anxious to Build up Export Trade of Republic

Bill Approved by U. S. Lending Agency Is Ready For Submission To Committees of the House and Senate—May Exchange Commodities With Other Nations.

WASHINGTON, D.C., 27—The Reconstruction Finance Corporation has decided to ask Congress to broaden its powers, primarily for the purpose of building up the nation's export trade, it was learned yesterday.

The legislation would enable financing of exchanges of commodities with foreign nations, authorize establishment or use of export or import trading agencies and permit RFC loans "to facilitate exports and imports."

In addition, the bill would authorize the RFC to advance up to \$50,000,000 in additional funds for irrigation, drainage or self liquidating project loans. The purpose of the new advances would be to protect present RFC loans of the type.

No Loans To Cities

The proposed measure does not carry provisions for direct loans to cities or to small industry, types of advances which have been strongly urged at Congressional hearings.

A NATIVE OF BURNT CHURCH IN PLANE CRASH

Lloyd Anderson, Former Northumberland Boy, Met Death In Tragedy Near Salt Lake City.

Salt Lake City, February 26 — A mountain snow storm, which investigators believe caused the crash of the United Air Lines plane near here Friday with a loss of eight lives, hampered a probe of the tragedy and the recovery of one body today.

The smashed plane had to be thrown upon its side before the eighth body, that of co-pilot Eric G. Danielson, could be extricated.

H. P. Lewis, chief pilot of the lines, expressed the belief that Pilot Lloyd Anderson, a native of Burnt Church, N. B., Canada, was attempting to rise above a storm when he crashed shortly after taking off at Salt Lake City for Cheyenne.

"He probably was trying to lift out of a storm and saw the trees looming before him", said Lewis. "Fearing a crash, he probably tried to lift the ship too rapidly. The wreckage looks as if the ship did a chandelle (a half back turn) and nosed into the ground".

The crash also brought to light the 1933 marriage of the 24 year old stewardess, Miss Mary Carter, to John Wheeler, 25 Chicago hotel manager. Wheeler said the marriage was not announced because of a regulation that stewardesses of the line be unmarried. He said he was working day and night in an effort to "raise enough money so Mary could stay home with me".

A SAD CASE

Hanover, N. H., Feb. 27—The bodies of eight of the nine students, who met death from monoxide poisoning, were taken to their homes yesterday for burial. The remaining one, E. W. Wentworth, Jr., will be kept here pending the arrival of his father from Los Angeles, Calif.

G. L. FENETY PASSED AWAY IN VANCOUVER

His Death Followed a Paralytic Stroke—Was a Native of This City and a Pioneer of the Yukon.

Word has been received here of the death yesterday at Vancouver, B.C., of G. Linden Fenety, a former resident of this city. He passed away suddenly following a paralytic stroke. The news of his demise came as a shock to many old friends and acquaintances here.

The deceased was a son of the late George E. Fenety, a former Saint John newspaper publisher, who on removing to Fredericton, served for many years as King's printer and for several terms was mayor of the city. Linden Fenety went west at the time of the Klondike gold rush and remained in the Yukon for some time, afterwards removing to Vancouver. For the past twenty-five years he has been in the employ of the C. P. R.

The deceased was sixty-five years of age and a bachelor. He is survived by one brother Walter P. Fenety of this city and two sisters Mrs. E. S. Carter of Fair Vale, Kings County and Miss Fenety of this city. Messrs. W. W. O. Fenety, Jack Fenety and Mrs. Fred P. Colter of this city are nephews and niece. The late H. G. Fenety, Judge of Probate was a brother.

Although a decision has not yet been reached by the family it is likely that the body will be brought to this city for burial.

STORM WAS SEVERE

Boston, Feb. 27—The severe storm which has swept over New England has resulted in the closing of many schools in country districts. The damage to shipping is of a very serious nature. At Danforth the roof of the church of the Nazarine collapsed from the weight of snow. In some districts hard hit by the storm the people had not succeeded in digging themselves out from the last blizzard.

ARRESTS MADE IN THE NEEDHAM BANK ROBBERY

Three Men Held by the Police Will Be Charged With Robbery and Murder.

Boston, Feb. 26—Four murders, three bank and two theatre robberies and the theft of about \$55,000 may be charged to two "ordinary youth fellows" and their youthful boss by the police as six Massachusetts communities.

While Merton and Irving Millen, 24, and 21, respectively, faced New York police inquirers today, and Abraham Faber, 24, their employer, sat in a cell at the Dedham Jail, police of Lynn, Worcester, Quincy, Brookline, Fitchburg and Needham mustered evidence which may link the Millens, at least, in criminal outrages in their cities.

Merton, his bride of a few months who is a native of Des Moines, Iowa, and the daughter of a Natick clergyman, and his brother were arrested in New York yesterday charged with slaying two Needham policemen during a bank robbery. A few hours earlier state police here arrested Faber on a similar charge.

Surprised Neighbors

Merton and Irving, whose arrests surprised their neighbors in the Dorchester district of Boston, who had looked upon them as "ordinary young fellows", tonight awaited extradition from New York, and Faber was held after pleading not guilty to a murder warrant.

The arrests halted the trial of two Boston taxicab drivers in Salem superior court on charges of slaying a Lynn theatre employee during a robbery. This, police said, was but one of the charges which may face the brothers, when they are returned to Massachusetts.

The Quincy police have in mind the \$15,000 robbery at the Wollaston branch of the Granite Trust Co., the Brookline police, the \$20,000 theft at the branch of a bank there, the Worcester police, the \$3,500 robbery of a theatre manager and his assistant and the Fitchburg police, the ruthless slaying of a citizen.

MAY EXCHANGE NOTES ABOUT LITTLE AMERICA

Washington, Feb. 26—Rear Admiral Richard E. Byrd and "Little America" may again be the subject of an exchange of notes between Great Britain and the United States.

Great Britain was reported today in unofficial but unusually reliable quarters to be thinking of "reminding" the United States again that the Crown has claimed three large sectors around the South Pole, including the ice and snow of "Little America".

Indications were that Great Britain would assert her claims "by right of discovery" should Byrd "discover" and lay United States claims to any land over which the Union Jack flies.

MADE THINGS LIVELY

New York, Feb. 27—Joseph Silver, a former barber ran amuck with a razor in the Harlem prison yesterday and slashed three guards before he could be overpowered. Keepers with a machine gun finally rounded him up.

HIGH SALARIES THE SUBJECT OF SENATE PROBE

Executives of Big U. S. Corporations Were Well Paid

A CUT MADE AFTER 1929

Several Executives Paid Salaries of a Million a Year

Washington, D. C., Feb. 27— High salaries paid by big corporations were the subject of an enquiry of a committee of the senate yesterday. It was disclosed that E. D. Grace, president of the Bethlehem Steel Corporation had a salary of a million and a half in 1929 but since that has been struggling along on \$185,000 a year. George Hill, president of the American Tobacco Company pulled down a round million a year up to 1929, but has since been carrying on for \$130,000. Sears Roebuck & Co. also paid its president a salary of \$1,000,000 a year up to 1930. Walter S. Teagle, president of the Standard Oil of New Jersey, was paid a salary of \$450,000 and two vice-presidents of the company received a quarter of a million each. Other concerns that paid large salaries previous to the 1929 slump included the Eastman Kodak Company, The Texas Corporation, American Can, The General Motors Corporation failed to submit a report yesterday on salaries.

WANTS MERGER OF THE WESTERN PROVINCES

Regina, Feb. 26—Proposal to merge the Legislatures of the three Prairie Provinces in the interests of economy will be debated in the Saskatchewan House at its present session.

A resolution to this effect has been placed on the order paper by Dr. S. W. Arthur (Cons., Camington) and may be taken up some time this week. The resolution does not call for actual merging of the Prairie Provinces into one administrative unit but proposed the assemblies of Manitoba, Saskatchewan and Alberta be fused in one Legislature.

FOUR KILLED IN TRAIN WRECK

Pittsburgh, Feb. 26—Five were killed and about 40 injured in the derailment of a section of a Pennsylvania east-bound passenger train here tonight. The engine and a tank car rolled from a viaduct and plunged down into a street, fortunately deserted owing to the lateness of the hour. Several of the coaches left the rails.

Emergency crews worked desperately in the snow-strewn wreckage searching for other bodies while a first aid station was established on the scene.

The accident occurred shortly before 10 p.m., as the train, made up at Akron, O., was approaching the local station. The cause of the derailment is unknown, railroad officials said. It was reported, however, the engine struck a "frozen" switch.

SINGING IN BATH UPHELD

Chicago, Feb. 27— Judge Rudolph Desort likes to sing in the bathroom.

Therefore he lent an attentive ear to the complaint of Lillian Boettcher, who said that her husband, among other things, banged her head against a bath tub in protest against her bathroom songs. She won a divorce decree.

France Willing To Purchase Cars From Dominion

List of Concessions To Be Submitted To Hon. Philippe Roy Following Ottawa's Diplomatic Protests—Against Quota Restrictions—May Buy Eighty Automobiles a Month.

PARIS, Feb. 27—The French Government today will submit to Hon. Philippe Roy a list of the concessions which the French are prepared to grant Canada, following Ottawa's recent diplomatic protests against French quota restrictions.

It is learned that France is prepared to give Canada an automobile quota of 80 cars a month—at the present time Canada has no automobile quota in France—other concessions including fruit and vacuum cleaners. In return France demands certain technical concessions concerning the import of gummed cigarette paper and other items.

The present negotiations will have an important bearing on further conversations which are due to begin in March for the renewal of the Franco-Canadian temporary commercial treaty, which Hon. C. H. Cahan concluded last spring.

The treaty left unsolved the question of preferential treatment on French wines, which, if possible, Ottawa will grant.

FIVE OFFENDERS CONVICTED ON GAME VIOLATION

Men Caught With Game Meat in Their Possession Given Option of a Jail Term or Fine, Prefer Jail.

Upper Blackville will be minus a record number of citizens for the next twenty days. Mounties in the discharge of their duty were compelled to gather the boys on an infraction of game regulations. All were caught with game meat in their possession. The offenders were Perley Peterson, Lloyd Peterson, Sterling Peterson, Russel Arbeau and Everett Arbeau. The charge against each of the five was the same namely being in possession of game meat, and the sentence in each case was ten dollars and costs or twenty days in jail. All are serving the twenty days. The quintet appeared before Police Magistrate Barrie, of Upper Blackville and, in the language of the classics, they are now "languishing in the New-castle coop".

TURKS WOULD ADD X TO THEIR ALPHABET

Angora, Turkey, Feb. 27—Turkish lexicographers are engaged in a wordy war over the use of the letter X.

Some would like to add X to the present list of 29 letters in the Turkish alphabet. The advocates of its use assert that without the letter it is proving impossible to translate such foreign names as Xerxes, Xenophon, and Rex accurately. They point out that is used by Turks in algebra, so why not in the language?

Washington, Feb. 27—President F. D. Roosevelt has asked for the appointment of a Federal Commission to have control of all communications such as telephone, telegraph and radio.

DEATH LIST FROM STORM TOTALS SIXTY

Great Havoc Wrought by a Blizzard in Eastern United States.

New York, Feb. 26—The weather death totals throughout the United States climbed to 60 today as a blizzard swirled through the eastern states, adding at least six names to the list of victims written by a weekend of snow, hail, rain, tornadoes and cold.

Eastern cities battled to prevent another tie-up such as was brought about last week as more snow threatened to block traffic and shipping. The forecasters promised all sections relief tomorrow. They said the East's snow—eight inches in New York—would let up, and said warmer weather was moving in to the Midwest, West, and South.

"Dirty weather", sleet and snow, grounded United States Army fliers in the eastern bases and kept the air mail from movement there. Planes went through on schedule west out of Chicago; and air traffic was opening at Denver.

In New York, city and private agencies put 35,700 men and all available apparatus to work in an effort to keep the main streets and transportation lines open. Between 400 and 500 National Guardsmen were recruited as foremen.

Widespread suffering accompanied the storm, the second onslaught without a week to recall the "Great Blizzard of '88". Long Island communities still snowbound by last Tuesday's pileup dug in for a prolonged siege.

Typical of these were Northport and Fire Island, cut off from food deliveries for days.

MAY RESTORE MONARCHY

Vienna, Austria, Feb. 27—A move by monarchists to restore the Hapsburg dynasty to the throne has taken root in Austria and may have important results. Archduke Otto is a claimant to the throne and appears to have strong support.
