AUTO ACCIDENTS

The Dominion Bureau of Statistics reports 954 deaths from automobile accidents throughout Canada in 1933 as against 1,120 in 1932 and 1,315 in 1931. The death rate from this cause was 8.9 per 100,000 population as compared with 10.7 in 1932 and 12.7 in 1931. To find a rate lower than that for 1933 we must go back to 1926.

All provinces with the exception of Alberta and Prince Edward Island showed a smaller number of automobile fatalities in 1933 than in the preceding year. In Alberta the number increased from 49 to 64. Prince Edward Island had two deaths as against one in the preceding year.

Ontario had the heaviest death rate from this cause of any province in 1933, 11.8 per 100,000. British Columbia stood second with a rate of 11.0. The next highest rates were 8.8 in Nova Scotia, 8.6 in Quebec and 8.5 in Alberta.

In the City of Montreal 104 deaths took place in 1933 as compared with 121 in 1932. In Toronto the number was 65 as against 88, in Vancouver 29 as against 41, in Ottawa 25 as against the same number in the preceding year, in Hamilton 22, as against 20, in London 20 as against 12, in Winnipeg 18 as against 22. Deaths occurring in cities due to automobile accidents are not in every case the result of accidents which have taken place within the city limits, as those injured in accidents outside the cities are frequently hurried to city hospitals.

Sherbrooke Record:—The tragedy which took the life of Mr. Paul Munro, K. C., member-elect of the Ontario House, was at least connected with the dangerous practice of crowding the driver. He had a child on his knee, and his hands were on the wheel. Often three are crowded into a seat, two besides the driver. A few bad accidents will bring the law of other places into effect in this province. The motto for every driver is: "One thing I do".

The export of planks and boards from Canada in May was of the value of \$2,221,000 compared with \$1,243,000 a year ago. The United Kingdom was the leading purchaser with \$1,215,000, the United States next with \$560,000. The value of the spruce was \$766,000 and of the Douglas Fir \$753,000. Australia got hemlock to the value of \$62,790 and Douglas Fir \$18,817. The Douglas Fir consignment to China was worth \$144,920, British Guiana \$30,557, Japan \$22,825, Panama \$12,936.

Imports of lumber and timber to Canada have been much heavier of late than they were, and May was no exception. The quantity was 4,726,000 ft. valued at \$197,119 compared with \$2,613,000 at \$101,072 a year ago. The largest item was \$1,989,000 ft. of oak from the United States at \$83,882. There was a supply of 225,000 of walnut at \$17,406 from the same country.

Statistics recently given out show that the Conservatives actually polled more votes in the recent Ontario election, than they did in the contest of 1929. The total vote in the June election was 573,133 and in 1929, 593,133, a difference of 6887. The Liberals on the other hand increased their vote from 232,509 in 1929 to 717,055 in 1934.

SOCCER NEWS

Saint John, N. B., July 9—Fredericton eleven's split in their two Saint John River Valley Soccer League games Saturday, the City team blanking Maple Leafs in Saint John 4 to 0, while the R. C. M. P. team lost at Fredericton to the Saint John Rovers, 2 to 1. Hampstead Rangers visited Saint John to play St. Andrew's, but the latter had to forfeit, being unable to muster a full side. Dry Docks, too, failed to journey to Burton and will lose the two points by default.

Fair, Ayres, and Stewart tallied the City goals, the latter outside left scoring twice in the second half. The first named's marker made it 1-0 for the interval. The Saints and Docks combined to beat the Rangers, 3 to 1, a friendly match.

All scores at the capital were made in the second half. Taylor, for the Rovers, scored first, and was followed by Salt for the R. C. M. P., after which Taylor registered again on a penalty.

OWLS FLY AMUCK

St. Charles, Montana, July 8—Police blame the heat for the town's latest menace—screaming owls.

The ordinarily harmless birds have been on a rampage during the extreme warm weather, swooping down and scratching unwary evening strollers.

Police shock troops have bagged thirteen owls, so now the citizenry is breathing easier.

Brantford, Ontario, July 8—Betty Norma and Margaret, triplet daughters of Mr. and Mrs. Charles E. Mars of this city, were recovering today from a triple operation for the removal of their tonsils.

The three seven year old girls Brantford's only triplets, submitted to the operation with no concern and were less interested in the removal of their tonsils than in the beautiful flowers they received while in hospital.

Most of the philosophies of resignation are based on mere "don't care". The man who loves you finds out whether you like to be slapped on the back before he does it.

Three-quarters of a man's reason for marrying a girl is to prevent any other man from getting her; but no sophisticated gal would kid herself into believing that just by putting a man on a real leash, she is preventing any other woman from getting him.
