PUBLIC WORKS PROGRAM

During the recent session, a program of public works was brought down by the government providing for an expenditure of forty million dollars in the different provinces. During the debate that ensued, R. B. Hanson, member for York Sunbury, while expressing approval of the bill, made a strong plea on behalf of local labor and urged the use of local materials. Hanson reports his remarks as follows:

"The first thing I should say is a word of congratulation to the government for having had the courage to embark on a very substantial program of public works in Canada for the relief of unemployment. I take it that the spirit behind this bill is the relief of unemployment in Canada, and to that extent I think we are all in agreement. I agree with what the ex-Minister of Public Works (Mr. Elliott) has said with respect to this system being an improvement over the dole system, and as far as I am concerned I hope the dole system is behind us forever, and that the people of this country will do something else than resort to the dole system.

"With respect to what my hon. friend has said with regard to public tender, I do not understand that there is any departure being made from the principle that has been in existence for a good many years save and except with respect to those projects which may cost less than \$25,000. I think ample justification can be found for the departure from the principle to which he has alluded. I am not defending or criticizing that. What I desire to place upon the records of the house—I ask the minister in charge of the bill to give attention to this—is that consideration should be given to several factors. First of all, provision should be made in the contracts that wherever available and other things being equal, local labour should be employed. Second, wherever available and other things being equal, local materials should be employed. I have in mind the erection of public buildings in New Brunswick! our free stone should be used rather than materials imported from other communities. Provision should be made to take care of these two matters. There is a third consideration which I desire to impress upon the government. One, two or three large contracting firms, such as I could name, should not be allowed to come in and get a monopoly of these contracts, even under the tender system. I think hon. members will agree that I am not approaching this matter in a narrow, parochial spirit; I do not want to be accused of that. I submit that the large contracting firms if given twelve or fifteen or more contracts under this program will be able to spread the overhead over all the projects and be in position to underbid the smaller contracting firms. I am anxious to see this work distributed, not only to local labour but to the local contracting firms. I believe such firms would give more sympathetic consideration to the local employment needs. I feel that they would give more consideration than the large, highly capitalized contracting firms, so many of which may turn out to be just subsidiary companies of American firms."

The work to be carried on in New Brunswick involving an expenditure of upwards of two million dollars should be given to contracting concerns within the province and as far as possible local labor should be employed and local material utilized. Mr. Hanson certainly put the matter plainly.

THROUGH OUR SIEVE

Cultivate good-nature. It improves your face.

Whoever maps out a "career" thinks he hears applause in the distance.

First, four years of college, and then an education that goes on for a life-time.

Stinginess is disagreeable and that is why so few people have the real thing.

Bad luck with it, is the best eradicator of a bad habit. Simple resolutions can't do much.

A lawless element is probably the element that even in boyhood can't obey anything or anybody.

Happiest persons are those who have all they need and can't get all they want.

Reading character by handwriting seems to us as untenable an idea as reading it by phrenology was in its day.

This earth constantly has nervous fits caused by weather, say scientists. So do some of its inhabitants.

Religion has done evil at times, but it never made a whole generation careless with other people's money.

County Council To Appoint Collect. Justice

(Continued from Page One)

make a motion along the lines he had suggested.

Coun. Manuel was satisfied that the Municipal Home Committee had made a good arrangement with the doctors. He agreed with Coun. Robertson that it was hardly right to fix a flat rate for confinement cases. Often in the county great doctors responded to calls at a great sacrifice.

Coun. Manzer said that it was not a case of a few dollars when a human life was at stake. Often during winter weather it was difficult to get the services of a doctor, and it was not right to barter with them over a few dollars. In his opinion there was nothing in the argument that the fee should be fixed at a flat rate of \$15.

Coun. Robertson again urged the appointment of a committee to confer with the doctors.

Coun. Wetmore agreed that each parish should make the best arrangement it could for medical service.

After some further discussion the amendment by Coun. Estey that each parish make its own arrangements for medical service was adopted.

Collecting Justice

Coun. Barry for the committee appointed to devise a method for the better collection of delinquent taxes submitted a report, which recommended that a collecting justice be appointed forthwith. The committee's report was adopted.

On motion of Coun. Gaynor it was resolved that a committee be appointed to confer with the medical men of the county with a view of preparing a schedule to cover treatment in maternity cases.

The motion was adopted and the warden named as the committee. Couns. B. Briggs, Cameron and Estey.

Coun. Doherty said he thought the committee should be composed of five councillors.

The warden added the names of Couns. W. E. Nason, and Dunphy to the committee.

Coun. Estey was told that the committee's report would be subject to the approval of the council.

Adjourned until two o'clock.

Thursday Afternoon

The council had a brief session on Thursday afternoon and after adjournment, paid a visit to the Municipal Home. There was a brief discussion on direct relief and a motion to discontinue it until the next meeting of the council was unanimously adopted.

ON FISHING TRIP

Ex-Mayor John A. Reid, and his two sons, Winston and Jack left this afternoon on a fishing trip to the Miramichi River. They will proceed by car to Ludlow, where they will be joined by their guide, Alex. Price, and will continue by train to Deersdale and embark by canoe on a trip down the river. They will be gone about four days.

STOCK MARKET

QUITE STEADY

THIS MORNING

A Slight Upward Movement In Utilities Sales and Industrials—Little Change In Montreal List.

New York, July 6—The stock market held fairly steady this morning on a moderate volume of trading. The trend of industrials, rails and utilities was upward. The pound sterling was quoted at \$5.06½ and U. S. Funds were at a discount of one and one sixteenths of one per cent.

Vegetables Fail Him

Chicago, Ills., July 5—William Sinkins, tavern proprietor, cashed pay checks as an accommodation for employees of a nearby steel mill, but thoughts of a hold-up worried him. So he carried a market basket to the bank and beneath meat, vegetables, and other edibles hid \$3,000 in currency. Three robbers took basket and all.

"BELOVED"

DIRECTOR SAYS

MALE DEADLIER

New York, July 6—Kipling was all wrong, in the opinion of Dr. W. Reid Blair, when he observed that the female of the species is more deadly than the male.

Dr. Blair is in a position to know a lot about animals, both sexes. He is director of the New York zoological park—Branx zoo to the nature-loving, bear-feeding and lawn-littering public. The male of the species, Dr. Blair declared today, is more dangerous, more powerful and more courageous than its mate.

FOREIGN NEWS AT A GLANCE

TOKIO—The Japanese cabinet, feeling itself involved in a financial scandal, resigned. Emperor Hirohito considered appointment of a new premier while army and navy circles clamored for a more militaristic government.

SHANGHAI—The Chinese government applied new import duties heavily affecting goods from the United States. Duties on Japanese products, however, remained the same in most instances or were reduced.

ASUNCION—An official announcement said today that fighting in the Chaco was confined to patrol clashes. This and lack of news from Bolivian sources indicate the belligerents are pausing to reorganize lines severely battered in recent major battles along several sectors.

SOFIA—Torrential rains caused floods in various sections of Bulgaria today with 10 known drownings. Property loss was heavy. A hailstorm sweeping the Plevna district destroyed crops over a wide territory.

Still Unconscious After 91 Days

Alanta, July 5—Miss Neil Bullard, twenty two year old victim of an automobile accident, entered her ninety second day of unconsciousness today. Brain tissues were injured in the accident last March and physicians say there has been no apparent change in her condition since then.
