FREDERICTON, N. B., FRIDAY, JANUARY 5, 1934

Two Cents Per Copy

The Municipality Of York Will Issue Bonds for \$100,000

The Recommendation of a Special Committee Was Adopted Unanimously at This Morning's Session of the Council—Further Details To Be Arranged Today—Several T. B. Patients May Be Transferred to the Municipal Home.

The Municipality of York, which has been without a bonded indebtedness for a number of years, will have one in the near future for the substantial sum of \$100,000, if a recommendation of a committee of the York Municipal Council adopted at this morning's session is carried out. While the committee reported that an issue of \$100,000 should be made, only \$75,000 will be issued forthwith and the balance disposed of later as the money may be required. The necessary legislative authority to make the issue has been promised by Premier Tilley. The last issue of bonds made by the municipality was disposed of fourteen years ago to provide funds for the establishment of a Municipal Home, and it was wiped out in 1926. The proceeds of the issue will be used to wipe out an overdraft at the Royal Bank of Canada.

Today's Proceedings

The Council resumed at ten o'clock with Warden Morrison in the chair. Roll call showed all the members present except Coun. Sanford Pond. The minutes of the last meeting were read and approved.

Coun. Ebbett for the Committee to whom was referred the question of a bond issue, submitted a report. The committee recommended that steps be taken to make a bond issue of \$100,000 of which \$75,000 be issued forthwith and the balance at such time as the proceeds may be needed. A motion to adopt the report was carried.

Coun. Fisher moved that the town of Marysville be assessed the usual amount for County purposes, according to law.

Coun. Grant and Dunphy called attention to an amendment to the coroner's act and were informed by the solicitor that the assessment would be made according to law.

On motion of Coun. Nason the Councilors for New Maryland were authorized to sell the Hudson property in their parish, held by the county in trust for the parish.

T. B. Patients

Coun. Dunphy brought up the matter of the removal of patients from the T. B. Hospital to the Municipal Home. He said that there were two in hospital from his parish and he thought the secretary-treasurer should be authorized to have them transferred from the institution.

The matter was briefly discussed by Couns. Manuel, Robertson, Saunders and Griffin, the latter taking the ground that it might not be advisable to transfer patients from the T. B. hospital to the Municipal Home.

Coun. Dunphy and Grant thought that a clean bill of health would be given before the patients were admitted to the Home.

Coun. Robertson said that disposition of a convalescent T. B. patient was considerable of a problem. Nobody seemed to want them. It might not be advisable to remove patients to the Municipal Home where there were young children. Patients should remain at the T. B. Hospital until such time as they are taught to take care of themselves without being a menace to others. He thought that somebody should be given the authority to remove convalescent patients from the T. B. Hospital.

Coun. Griffin said that it was right to remove a man from the T. B. Hos-

pital when it was proper to do so, but the problem was to know what to do with him.

On motion of Coun. Grant, it was decided to hear the views of the secretary-treasurer on the subject.

County Solicitor McNair in reference to the case of a transient visitor at McAdam who was taken ill and sent to the hospital, expressed the opinion that the Parish having agreed to the admittance was liable for the expense incurred. If the man had a legal settlement in the province however, the case might be dealt with under the poor act.

Secretary Treasurer Scott was heard in regard to T. B. Patients undergoing treatment at the Saint John County Hospital. He read a report from the River Glade hospital on a man named Peacock, belonging to Douglas whose condition was described as good, but at his home surroundings were bad it was recommended that he be transferred to the Municipal Home. He explained that if the man came back he would be a charge on the Parish of Douglas; at present he was a charge on the whole county. Mr. Scott thought authority should be granted the secretary-treasurer to procure he discharge of convalescent patients and have them returned to the parish where they were domiciled. He went on to say that another patient from York County who could be discharged from the Saint John County Hospital but had no home to which he could be returned. It now cost \$14 a week for his upkeep and if sent to the Municipal Home the cost would be \$1.15 per week.

Mr. Scott at the request of Coun. Doherty read a list of fourteen T. B. patients now being supported by the County at the Saint John and River Glade Hospitals. He said that the rate at the Saint John County Hospital was \$2 per day and at River Glade \$1.50, but it depended on the condition of the patient as to which hospital he or she should be sent to.

The list of parish officers for the parish of McAdam, Douglas, New Maryland and Bright were approved.

Coun. Ebbett announced a meeting of the Committee on assessment at 2.30 o'clock.

Coun. Gaynor announced a meeting of the Committee on assessment at noon today.

Victoria Hospital

The Warden read a communication from the Victoria Public Hospital, an-

MUSSOLINI AND SIR JOHN SIMON IN AGREEMENT

Will Abandon Disarmament Proposals Incapable of Being Put Into Effect.

Rome, Jan. 4—Premier Mussolini and Sir John Simon, the British secretary for foreign affairs, reached full abandoning disarmament proposals incapable of being put into effect now.

An official communique said the two statesmen favored abandonment of such measures and adoption of others that offered practical fulfillment.

The communique was issued after a banquet and reception given for Sir Duce and Sir John by Sir Eric Drummond, British ambassador for Italy.

"I Duce and Sir John Simon are in complete accord," said the statement, "in recognizing that it is absolutely indispensable that disarmament discussions come to a conclusion quickly.

"All ideals and proposals that do not embody elements that are practical and capable of prompt realization should be abandoned.

"The discussions should be guided toward those objectives that can be considered no was mature in international public opinion and which would be likely to meet the approval of interested states."

Talk Alone

The premier and Sir John in continued efforts to find a solution to the Franco-German disarmament impasse talked alone for an hour and a quarter this afternoon, carrying a step further the conversations on international problems begun yesterday.

On the subject of reforming the League of Nations, which the Italian Fascist viewpoint holds necessary the communique merely said Sir Duce outlined to Sir John his ideas to assure "better efficiency" at Geneva and to enable the League to "fulfill its purposes."

The statement added that Sir John will return to London to place the result of the conferences before the government.

There was no mention of any definite plan for either League reform or disarmament having been discussed by the two. The meetings were described as more in the nature of exchanges of opinion.

Hon. J. E. Michaud, M. P. of Edmundston was a visitor to the city yesterday.

Announcing that a copy of the financial report for 1932 had been forwarded to members of the council. Attention was called to some features of the statement, appertaining to the county of York. The Council was thanked for its annual grant of \$500 and the hope was expressed that it would be increased. Attention was called to a balance of \$2,000 due from the county, and it was suggested that the amount be liquidated in monthly payments. The new X-ray equipment lately installed was referred to and it was stated that the X-ray department was one of which any institution should be proud.

On motion of Coun. Doherty it was resolved that Coun. Cameron be continued as a trustee.

The following was appointed a printing Committee: Couns. Fisher, Manuel and Young.

Couns. Everett Gould and Malone were appointed bonding committee.

On motion of Coun. Nason, Council adjourned until 2.30.

DR. WYNEKOOP MAKING PLANS FOR DEFENCE

Chicago Murder Has Proved a Baffling Mystery

IMPOUND EVIDENCE
Attorneys For Defence Are Seeking Court Orders

Chicago, Ills., Jan. 5—Attorneys for Dr. Alice W. Wynekoop, the once-prominent physician, who now awaits trial on murder charges in one of the country's most baffling mysteries moved swiftly today to shape a formidable defence for their client.

The attorneys, W. W. Smith and Frank J. Tyrell, sought court orders to impound all evidence taken from the Wynekoop mansion, where discovery of the body of Rheta Wynekoop on an operating table opened one of the most intriguing murder cases in modern criminal history.

If granted by Judge Joseph B. David, the defence petition will give Dr. Wynekoop's lawyers access to all evidence to be used by the state. Further, the physician's lawyers sought a court ruling to suppress any evidence unlawfully obtained.

Prosecutor Charles S. Dougherty is expected to resist the defence motions as well as any effort to delay the trial after January 11. The case was originally scheduled to go to trial today.

R. J. POTTS IS AGAIN MAYOR OF HARTLAND

Hartland, Carleton Co., Jan. 4—R. J. Potts will serve as Hartland's mayor for another one-year term, being re-elected by acclamation, and there will be but one change on the council board, nomination day proceedings reveal. K. W. Keith replaces Alderman Frank Hagerman, whose term has expired, and the other two retiring aldermen, H. J. Aiton and W. D. McLeod, Leod, were re-elected without opposition. An election, therefore, will not be necessary. The newcomer to the council, Mr. Keith, is one of the town's prominent business men.

Both Sides Are Satisfied With the Settlement of Case

The sudden collapse of the Lee will case in the Probate Court here yesterday provided the sensation of the week. It was announced that a satisfactory settlement had been reached and accordingly the will was proved in solemn form, and the case taken out of court. Various reports are in circulation as to the terms of agreement.

G. Walter Kitchen, nephew of the testatrix, who instituted the proceedings, refused to discuss the matter this morning, but smiled and said that he was well satisfied with the terms of the settlement. It is said that the executor under the will, who started negotiations for a settlement, is also satisfied with the arrangements made. The heirs will now receive the legacies set forth in Mrs. Lee's will of October, 1932, and the costs of the legal proceedings before Judge McInerney will be borne by the estate.

R. B. Hanson, K.C., and C. L. Dougherty conducted the case for G. Walter Kitchen and P. J. Hughes, K.C., and C. F. Inches represented the executor of the estate.

CONDITION IMPROVED

The condition of Mrs. Albert Barker, wife of Patrolman Barker of this city, is somewhat improved today. Mrs. Barker has been critically ill at her home on Argyle Street.

Speed Records Being Broken by The U.S. Congress

Swing Into Legislative Action Without Even Waiting for the President's Budget Message; Members Are Determined To Make It a Short Snappy Session.

WASHINGTON, D.C., Jan. 5—Congress yesterday broke speed records and upset tradition in true Rooseveltian style, swinging into legislative work on the second day of the session without even waiting for the reading of the President's budget message.

Long before the tensely awaited budget document was received, committees on both sides of the Capitol set to work as though determined to live up to the predictions of leaders for a short, snappy session ending by May.

Both Senate and House hummed with reactions to Mr. Roosevelt's personally delivered, general outline yesterday of a broadened new deal. The big Democratic majority remained warm in praise. In some Republican quarters the complaint persisted that Mr. Roosevelt had not given details of "where we are going from here."

Congressional leaders looked forward to a series of special presidential messages, filling in yesterday's outline. Word reached the Capitol that Mr. Roosevelt had before him recommendations from his Executive Commercial Policy Committee for a widely different tariff policy.

CRIME DRIVE IS LAUNCHED IN NEW YORK

New York, Jan. 4—One hundred and forty-three gangsters paraded into police headquarters today—herded together in a quiet-all-night drive on known criminals as Commissioner John F. O'Ryan's administration began to function.

Under the glaring lights of the police lineup 64 of them passed, the first group taken as the police responded to their new leader's demand to "clean up or get out."

The city was excited, the underworld worried as the news of the drive spread, but Commissioner O'Ryan, war time commander of the 27th Division, regarded it as routine.

"It just shows the men are on the job," said the commissioner, who has announced the department will not relax until known criminals are behind the bars or driven out of the city.

The drive started before midnight and lasted until dawn.

Into the speakeasies—which O'Ryan has promised to eliminate when licensing is completed—cafes, nightclubs and known gang hangouts the police went to make arrests for offences ranging from extortion to narcotic addiction.

PUSSYFOOT DEMANDS LOW TAX ON LIQUOR

Binghamton, New York, Jan. 5—The wets will have a lot of explaining to do in the next few years, William E. (Pussyfoot) Johnson, widely known prohibitionist, declared on a visit here.

"We dries have been doing the explaining for 14 years," he said. "Now it is the wets' turn to wear that well-worn shine and do a little explaining."

John favored a 50 cent per gallon maximum tax on whiskey to prevent bootlegging.

UNITED STATES DEFICIT IS A LARGE ONE

Pres. Roosevelt Asks Congress For An Enormous Sum For a Two-Year Program.

Roosevelt today asked Congress to approve the biggest peace-time spending program in United States history and, despite some head-wagging, it was soon apparent that his recommendations would be enacted in much the same form as he submitted them.

Some Democrats were surprised at the size of the figures proposed, while the Republicans expressed amazement and a few of them concern. The president's party with its huge majority rallied staunchly around him, however, and support, or at least no intention of opposing the program, was indicated by some members of the minority.

Reduced to simplest terms, the budget for the fiscal year ending June 30, 1935, and estimates for the remainder of the current year foresaw:

Government borrowing of \$10,000,000,000 in the next six months.

Expenditures for the two years totaling \$16,529,805,667 receipts aggregating \$7,234,604,234, a deficit for the two years combined of \$9,295,000,000 and a consequent increase in the public debt to \$31,834,000,000, the highest point it ever has reached.

Of these disbursements, \$5,017,488,417 were listed as general outlays for the ordinary expenses of the government and the remainder, \$11,512,317,200 was set down as emergency spending intended to further the recovery program.

"Furthermore the government during the balance of this calendar year should plan to bring its 1935 expenditures, including recovery and relief within the revenues expected in the fiscal year 1936."

R. J. Potts, mayor of Hartland was in the city yesterday.

Premier Tilley returned to Saint John last evening.
