COMMUNITY HALL

Several citizens of Fredericton are considering the advisability of promoting a community hall, where an auditorium would be available for gatherings, such as the Rotary and Gyro clubs, the Board of Trade, Home and School Associations, and the different women's organizations. This building could be put up and be made to pay for itself if the proper plan was worked out. All it needs is for some public spirited citizens to make a start. If the members of all the organizations got together they could put this over and have a meeting place for all without trouble.

Rev. Dr. Wightman who has since his arrival in this city taken an active interest in community affairs, has a plan to build a combined library, museum and community hall. His suggestion is that it be on Brunswick Street at the end of Carleton Street, adjoining the entrance to the old cemetery. He has suggested that the building be built directly in front of the Carleton Street entrance, and that an arcade through the centre of the building be used by the public instead of passing through the path as at present in other words the building would be the entrance to the path. Upstairs would be the community hall. It seems like a good idea.

ORIGIN OF AMERICA'S CUP

The America's Cup, ewer-shaped vessel in rococo style, has an intrinsic value of \$41. It was originally, in a sense, a consolation cup.

In 1851 "America", a 170-ton yacht, crossed the Atlantic but failed to compete for the Queen's Cup at Cowes as her owner declined to concede the usual time allowance for difference of size.

Members of the Royal Yacht Squadron, not wishing to risk the reproach of denying the visitor a fair race, put up the cup as a prize for a race around the Isle of Wight without any time allowance for size.

"America" entered and competed against 15 other vessels of various types. The three most dangerous competitors being put out through accidents, "America" came in 18 minutes ahead and won the cup.

In 1887 the sole surviving owner of the cup, George L. S. Schuyler, presented the cup to the New York Yacht Club as a challenge cup, with a deed of gift which set forth the conditions under which all races for the cup must take place.

SEEK GULF STREAM FARTHER NORTH

The Soviet government has in view an Arctic expedition, which will search for evidence that the Gulf Stream has continuity in far northern waters.

The theory is based on the alleged fact that there is warmer water, free of ice, farther north than is to be found farther to the south along the Russian coast, where other expeditions found no trace of this warmth.

A better route is expected to be found farther north, based on the belief that it is the Gulf stream which keeps the northerly ports of furmansk ice-free the year round. This arm water is said to find an exit to the north of Spitsbergen, after encountering obstacles in the shape of unknown islands and shallow waters, that it is diverted southward of the islands of New Siberia, tempering the cold of the whole region.

WHERE THERE IS NO UNEMPLOYMENT

There is one place where there is no unemployment and which boasts a balanced budget and no debt. It is the state of Sarawak, a strip of territory 450 miles long by 40 to 120 miles wide, comprising an area of 50,000 square miles along the northwest coast of Borneo and which has a population of 475,000 made up of Malays,

Dyaks and Chinese. The ruling Rajas exclude foreign capital and encourage the development of the state's resources by the natives. The principal exports are rubber, kerosene, fuel oil, pepper, gold, sago flour, native crops such as jelutong, timber, copra, rattan and tuba root. Imports reach Sarawak through the port of Singapore. Imports in 1933 consisted of biscuits, confectionery, cycles and motorcycles and accessories, electrical goods and apparatus, dried salt fish, tinned fish, flour, ham and bacon, leather, macaroni and vermicelli, condensed and sterilized milk, motor lorries and accessories, paper.

SNAPSHOTS

The local sport who dropped the bottle of Scotch on Queen Street yesterday afternoon did not know that his wife was standing in the Post office watching him.

The local taxi man who does not like our editorial regarding the Fredericton-Devon taxi service should either make an effort to have a better service or go away back and sit down.

Found the world over—fault.

Gets around quite a lot—the belt-line.

To make sure of your friends, make them sure of you.

The successful gardener knows how to mind his peas and cucumbers.

If your business is to write upon matters of opinion, you can't be care-free.

When you tell Junior to act like a man, you mean like the man you wish you were.

Note on advertising: Paul Revere made the famous ride, but Longfellow made the ride famous.

The final test of friendship is to call on the friend and tell him just how he is spoiling that child of his.

TRIO OF SISTERS HAD 56 CHILDREN

Believe It Is Canadian Record For Large Families

Bridgewater, N. S., Oct. 2—Three Annapolis County sisters who have given birth to 56 children believe if they have not established a Canadian record for large families they are not far behind.

Mrs. Vidito, Bridgetown, leads with 21 and Mrs. Wells Rynhard, Bridgetown, comes next with 19. Their sister Mrs. Nichol Sabine, Arlington, gave birth to 16.

FRENCHMEN WILL NOT EAT COOKED OYSTERS

The French will never cook an oyster. In France they are always eaten raw and drowned in white wine. The oyster of France differs from that of Canada in that it is jade green and pearl colored, while that of Canada is grayish in color. The oyster has displaced the frog in the favor of French gastronomic epicures. The French oyster comes from the French and Portuguese coasts. Some of Canada's best oysters come from the waters of the Strait of Northumberland which separates Prince Edward Island from New Brunswick and Nova Scotia, states the Natural Resources Department of the Canadian National Railways.

SULTAN HAD 1,000 WIVES

BUFFALO, N. Y., Oct. 2—A sultan who didn't have at least 1,000 wives was a piker, according to Murat Bey, who served three sultans as personal secretary before 1922. Murat Bey, on a visit here, said any one who even tried to strike up an acquaintance with the sultan's wives or who attempted to invade the harem's private sanctums, met with "great harm."

GRIEF-STRICKEN DOG STARVING TO DEATH

Won't Leave Grave of His Airedale Friend

MORGAN HILL, Calif., Oct. 2—Canine grief of the sort read about but seldom seen is being displayed by a young hound here, the property of T. E. Ryser, who fears his dog may starve to death as it mourns on the grave of an Airedale friend.

The Airedale died and was buried in the Ryser garden. The hound at first attempted to dig up the body of his friend, then refused to move off the grave or to eat food offered him.

PARTY RALLY WAS HELD AT ANNAPOLIS

Annapolis Royal, N. S., Oct. 1—The annual rally of the Liberal-Conservative Party was held here recently with the president of the Annapolis-Digby organization, J. Eugene Morse, in the chair. Resolutions of confidence were moved by George E. Corbett and W. G. B. Eaton, seconded by Charles LeBrun and J. C. Phinney.

The declaration of H. B. Short, M. P., Digby, that he would not again be a candidate, was received with deep regret.

The nominating committee were W. G. B. Eaton, Middleton; G. LeCain, Round Hill; Frank V. Dittmars, Deep Brook; Roy Schafner, Granville Ferry.

J. E. Morse was re-elected president; W. G. B. Eaton, vice-president, and Kenneth S. Smith, secretary. Addresses were given by W. G. Ernst, Bridgewater, and George Nowlan Wolfville.

QUADRUPLTS DIE 20 MINUTES AFTER BIRTH

New York, Oct. 2—Quadruplets were born to Mrs. Mary Spinelli, 35, of the Bronx, but they all died within 20 minutes of each other Saturday. Their hearts beat freely for a few minutes, and then as each was born the preceding one died.

Mrs. Spinelli's husband, Joseph, recently obtained relief work after being out of employment for a year. The mother, her husband said, had continued her housework almost until the hour of the four births.

Scarcity of funds, Spinelli said prevented his wife from receiving necessary medical attention during the past few weeks.

CALL POLICE AS NURSES

Salt Lake City, October 2—Taking care of children while parents attend moving picture shows is not one of the duties of Salt Lake City policemen, Patrolmen P. O. Brady and W. S. Lazenby informed a certain father and mother. Responding to a call from a residence, they found two little girls, eight and three years of age, respectively, who had been left at home while their elders attended the "movies". They had been told, according to their story, to call the police if they got lonesome.

ANAGWAKADE CHAPTER MET

The Anagwakade Chapter of the I.O.D.E. held its regular monthly meeting last evening at the home of Mrs. Harmon, Brunswick street. The regent, Mrs. D. W. Griffith, occupied the chair. Among other things ways and means of raising money for fall work were discussed and it was decided to serve luncheon at the Cover Dog Trials to be held at Petersville this month. Mrs. Harmon was joint hostess with Miss Louise Kinghorn.

People in the background of a photographed group of notabilities make the best and most natural poses because they don't pose at all.

The difference between a mere man and a he-man is that a mere man need not be coarse and ill-bred to prove he is one.

OCTOGENARIANS DISAGREE

One Thinks Abstaining Did It—Other Is Opposite in View

QUINCY, Mass., Oct. 2—Dr. Walter G. Kendall, sportsman-horticulturist, and John Ramsdell, historian-author, are neighbors here.

Recently they observed their 80th birthday anniversaries.

Dr. Kendall attributed his longevity to lifelong use of hard liquor and tobacco.

Ramsdell said he thought total abstinence made him feel so well as an octogenarian.

Pastors for Disbanding of School Cadet Corps

(Continued from page 1)
the United States of America, wrote to a correspondent as follows:

"I am pleased to inform you that the National Defense Act does not make military training compulsory at any of the institutions which receive the benefits authorized by the act. So far as the War Department is concerned it is optional with the authorities of the school, college or university, whether military training shall be on elective or a compulsory course in the curriculum."

And Whereas this statement was reinforced by a similar statement by Hubert Work, then Secretary of the Interior, dated May 14, 1927 and by a lengthy opinion by William D. Mitchell, then United States Attorney-General, dated June 20, 1930:

And Whereas it appears that the superintending school committee of the City of Bangor, Maine, has signed an agreement with the War Department of the United States of America, stipulating that a Reserved Officers' Training Corps shall be sustained in the Bangor High School, in which military training shall be compulsory for all male students in said school over fourteen years of age, unless excused because of physical unfitness:

And Whereas it further appears that there are but twenty-eight such compulsory Reserve Officers Training Corps units in high schools in the United States of America, but two in New England and none other in the State of Maine;

And Whereas it further appears that such military training in our high schools is of questionable physical benefit; but does tend to build in the minds of our youth a belief in the necessity and efficacy of militarism, which we submit, is in direct contradiction to the spirit and intent of the Kellogg-Briand Pact, by signing which our country and more than fifty other nations have renounced war as an instrument of national policy and have pledged themselves never to seek the settlement of international disputes except by pacific means.

And Whereas the physical and mental benefits claimed for such military training can be obtained and are obtained in other high schools by other means without the detrimental features inherent in military training:

Therefore, be it Resolved; that we, the Bangor-Brewer Ministerial Association, herewith memorialize our superintending school committee to cancel such agreement with the War Department of the United States of America. Respectfully submitted.

BUS SERVICE IS NOW UNDER NEW CONTROL

Hopewell Hill, Albert Co., Oct. 2—The Moncton-Albert bus service, operated for the last two years by Gordon M. Tingley, has changed hands, the new concern, Humphreys and Palmer, Moncton, taking over the business today. The transfer includes, besides the franchise, one passenger bus and two cars. The purchase price was not announced. The route covered by the service, Albert to Moncton, is 34 miles. Mr. Tingley purchased the business from W. A. MacDougall, Hopewell Cape, two years ago.

ALLEGED FOUR MEN ABDUCTED GIRL

Sidney, N. Y., Oct. 2—Four men, alleged to have abducted 17-year-old Gertrude Bender of Middleburg yesterday after binding John Hutchins, her companion, and throwing him from his automobile, were arrested today at Waverly, N. Y., it was announced at state police barracks.

The girl was released by her captors early this morning at Binghamton. She said she was not harmed by the men.

LATE FLASHES

VIENNA, Oct. 2—A death sentence passed by a court-martial today on Peter Pfister, Nazi shoemaker, was commuted to 15 years' imprisonment.

LITTLE AMERICA, Antarctic, Oct. 2—The Byrd Antarctic expedition's autogiro crashed shortly after taking off for an aerological flight, injuring the youthful pilot, William McCormick, of Lansdowne, Pa.

WINNIPEG, Oct. 2—Three armed men today entered the River Heights branch of the Bank of Toronto here, held up two employees and a woman customer at gunpoint, and escaped with \$2,000 cash.
