### OF INTEREST TO WOMEN

#### BEAUTY HINTS.

Every woman should learn to rest if she wishes to preserve her good looks. Should she lead a very busy life she must acquire the habit of availing herself of every few moments for this purpose. Analyze her art of relaxation.

Hang the arms loosely at the sides and then begin to move them slowly backward and forward from side to side. Then open the fingers wide and shake the hands loosely from wrists, and after this practice the same exercise with the legs and feet.

One beauty expert considers too many hot baths tend to destroy beauty and advocates a tepid bath every day. Exercise can be indulged in to the point of fatigue, and taken in excess does more harm than good.

Should the feet ache or burn, use cooling lotions such as alum and water in which to bathe them.

Or, if there are any cracked surfaces between the toes or under the feet powder them well with fuller's earth or heal them with zinc ointment.

#### BRAIDING FOR TRIMMING.

Braided designs are so much in vogue for trimming dresses that the needlewoman should gain some very satisfactory results from modifying the designs shown in shops. A white net frock which catches the eye because of its simplicity, it has a skirt made plain and gathered at the waistline.

At the bottom of the dress white moire ribbon about four inches wide is stitched without any fullness, and then three inches above the ribbon hem narrower white ribbon is put on with fullness to form a ruffle. A girdle of the ribbon balances that used at the bottom of the skirt.

The use of ribbon as well as braid should not be overlooked.

they are two things that can easily be made use of by the home sewer to stamp a frock as being strictly up to date.

Down the front and back are aprons of net about twelve inches wide. At the bottom of each apron white braid has been cleverly used to follow out a scroll design. The same design and material is used to trim the front of the bodice.

### Slants of Humor

#### A WEE BIT SANE

While a certain Scotch minister was conducting religious services in an asylum for the insane one of the inmates cried out wildly:

"I say, have we got to listen to this?"  
The minister, surprised and confused, turned to the keeper and said:  
"Shall I stop speaking?"  
The keeper replied:  
"No, no; gang along, gang along; that will not happen again. That man only has one lucid moment every seven years."

#### HE WAS NOT IN

The following is an example of the reluctance of the canny Scot to part with gratuitous or unasked-for information.

An Englishman, chancing to be in Aberdeen, decided to call on a granite merchant with whom he had done business some years previous, but whom he had not seen since. Proceeding to his stone-yard, and observing an old mason polishing a slab of granite, he inquired:

"Is Mr. Macpherson in?"  
The old man replied: "Mr. Macpherson's no' in."

"Ah, well, I'll call again."  
Returning in half an hour, he again asked: "Is Mr. Macpherson in?"

"Mr. Macpherson's no' in."  
"Then I'll call again this afternoon, and perhaps find him."

Once more the visit was repeated and the same question asked: "Is Mr. Macpherson in?"

"Mr. Macpherson's no' in."  
"Do you think he will soon be in?"

"I think he'll be in soon."  
"What makes you think so?"

"He's dead."

It will soon be Johnnie's hour  
To go off in the morning dour,  
And come back bursting through the door  
With shouts of glee at half-past four.

#### VERY STRANGE

Dr. Charles H. Parkhurst still continues his ineffectual campaign against cosmetics. At a dinner in Brooklyn a lady entered with three tall and prepossessing daughters.

"How pretty those Bernard girls are!" another lady murmured to Dr. Parkhurst.  
"But it's strange they don't go off."  
"It is indeed," Dr. Parkhurst answered, "for they certainly use enough powder."

When pain is severe and doctors distant, you are fortunate if you have a bottle of wonderful soothing, healing and penetrating

### VICKERS MAXIMUM LTD. MAY BUILD SHIPS

Montreal, Nov. 1.—While the officials neither deny nor confirm the report, it is understood that the firm of Vickers, Limited, of Montreal, has secured a contract from Norway to build two ships of 7,500 tons each.

Similar orders have recently been given to Toronto and Pacific coast firms from the same source. The loss of merchant ships in Scandinavian waters by German submarines has created a pressing demand for new boats and these are being constructed as fast as the builders can work.

#### EXPERTS WILL INSPECT SUB.

Washington, Nov. 1.—A board of navy experts probably will be directed to inspect the submarine Deutschland at New London, to make certain that no war equipment has been placed on board the submersible during her stay in Germany, thus altering her status as a merchant carrier established to the satisfaction of the State Department when she visited Baltimore some few months ago.

## We Want Everybody to See the Enterprise Perfect Double High Oven Range

The Range that appeals to every woman. No more stove-bake or cook.

It has two large ovens that can be used at the same time with the same fuel, a great saving in fuel. Both ovens are at the right height to work with, and are fitted with thermometers to drop down with oven bottoms, and the oven is fitted with a glass door so contents can be seen at a glance without opening. The warming rack set is double the usual size.

The cooking surface is surrounded with Porcelain Enamel, keeping it beautifully clean.

It is full of labor-saving devices, and for comfort, convenience and ease of management surpasses anything ever produced.

We cordially invite everyone, whether considering a purchase or not, to come in and look carefully over this splendid specimen of the Stove Makers' skill.

It's something we are proud of and anxious to show. Let us demonstrate it to you. If you cannot call, send for circular.

Enterprise Stoves always give satisfaction.
