

ST. JOHN STANDARD APOLOGIZES TO F. B. CARVELL, M. P.

(St. John Standard.)

As long as F. B. Carvell continues in political life and his course does not meet the approval of The Standard, this newspaper will not hesitate to fight him, but at the same time we have no desire to resort to unfair weapons. For that reason, and for that reason alone, The Standard herewith withdraws statements published in this newspaper which we are now assured were without foundation.

On Tuesday and Wednesday mornings of this week, The Standard published despatches received in the ordinary course of news from our Ottawa correspondent dealing with Mr. Carvell's trip to New York, and the engagement by him of a legal firm in that city to secure evidence in connection with matters now under investigation by the Meredith-Duff Commission. Those despatches were received from what The Standard had every reason to believe was a reliable source, and were published just as they were received, and in good faith. Being now assured that they conveyed an unfounded insinuation to the effect that Mr. Carvell might have given information of value to German sympathizers, this newspaper is quite willing to withdraw them. Having no desire to be unfair, we regret their publication. The Standard believes Mr. Carvell to be a bitterly partisan politician, but has no wish to make any unwarranted charge or allegation against him.

HE UNDERSTOOD.

A certain Church of England bishop, desirous of affecting economy, was travelling in a third-class carriage, with a rather rough-looking workman. The latter exhibited surprise at such superior company and consumed by curiosity, inquired:

"I suppose you are a poor curate, sir?"

"Erno," weakly replied the bishop, "not exactly—but—but I was once a curate."

"I see," commented the other, "that 'orrid drink again!'"

How You May Throw Away Your Glasses

The statement is made that thousands wear eyeglasses who do not really need them. If you are one of these unfortunate, then these glasses may be ruining your eyes instead of helping them. Thousands who wear these "windows" may prove for themselves that they can dispense with glasses if they will get the following prescription filled at once: Go to any active drug store and get a bottle of Bon-Opto tablets. Dissolve one Bon-Opto tablet in ¼ glass of water. With this harmless liquid solution bathe the eyes two to four times daily, and you are likely to be astonished at the results right from the start. Many who have been told that they have astigmatism, eye-strain, cataract, sore eyelids, weak eyes, conjunctivitis and other eye disorders, report wonderful benefits from the use of this prescription. Get this prescription filled and use it; you may so strengthen your eyes that glasses will not be necessary. Thousands who are blind, or nearly so, or who wear glasses might never have required them if they had cared for their eyes in time. Save your eyes before it is too late! Do not become one of these victims of neglect. Eyeglasses are only like crutches and will do few years they must be changed to fit the ever-increasing weakened condition, so better see if you can, like many others, get clear, healthy, strong magnetic eyes through the prescription here given. The Valmas Drug Co., of Toronto, will fill the above prescription by mail, if your druggist cannot.

Important City Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eye specialists and widely prescribed by them. It can be obtained from any good druggist and is one of the very few preparations I feel should be kept on hand for regular use in almost every family."

FOR OVERSEAS CONSTRUCTION

GIGANTIC steam shovels weighing sixty-five tons each, capable of eating up the earth at the rate of 150 to 200 cubic yards an hour, and self propelling extension track pile drivers, are part of the equipment recently purchased by the Government for Col. C. W. P. Ramsay, of the Canadian Overseas Railway Construction Corps. This plant was selected by Col. Ramsay's colleagues in the Engineering Department of the Canadian Pacific Railway and is being prepared by that company at the request of the Government for shipment abroad. The Canadian Overseas Railway Construction Corps has already built many miles of track at strategic points and is all the while engaged in surveys for further construction. The work has often to be done under fire, and though there have been so many narrow escapes there have been no serious casualties. Out of the non-commissioned officers and sappers that enlisted on the foundation of the Corps 18 have already received commissions in the Royal Engineers, a remarkable tribute to their efficiency, while Col. Ramsay and Major Harvey have been mentioned in dispatches. The splendid work of these Canadian engineers has been highly appreciated by the allied commanders.
