

SPECIAL SESSION FOR TRAFFIC REGULATIONS

Public Will be Asked to Make Suggestions
To City Council in That Connection--
Big Increase in Tax Collections For
September.

The monthly meeting of the City Council last night was very brief. Discussion of the proposed traffic by-laws was postponed until a meeting in committee is held, at which the public will be given an opportunity of expressing its views on the suggested changes. Tax collections for September, 1916, were reported to be greatly in excess of collections in the corresponding month of 1915.

Auditor's Report.

The Auditor's report on expenditures for the month was passed, as follows:

Water	\$1,250.71
Water construction	616.32
Sewerage	6.25
House connections	279.83
Roads and streets	2,408.32
Street lighting	\$16.62
Administration of justice	129.47
Canada Temperance Act	21.65
Municipal Home	101.00
Fire	128.11
City Hall	146.25
Contingencies	87.63
Market	9.00
Total	\$6,001.15

The Municipal Home.

Ald. Baxter, for the Municipal Home Committee, reported a monthly expenditure of \$196.84, of which \$132.06 was for the maintenance of the Home and \$64.78 for outdoor relief. Five inmates of the home, according to his report, are paying their board. On his motion, a cheque for \$175 was ordered to issue in favor of Commissioner T. A. Niles.

Tax Collections.

Ald. Reid, for the Finance Committee, reported as follows on tax collections:

September, 1916	\$4,001.70
September 1915	1,565.05

Changes at City Hall.

Ald. Shea reported that further changes had been made in the layout of City Hall, the Mayors Office being

allotted to the City Clerk and the Clerk's office to the Mayor. The new Mayor's Office had been completely renovated.

Ald. Lemont, for the Music Committee, reported that five band concerts had been played during September, completing the full series by the Fredericton Brass Band, to which the full grant of \$500 had been paid.

Traffic By-laws.

Ald. McLellan, for the Roads and Streets Committee, reported concerning the proposed traffic regulations, asking for further time before presenting a full report. He had learned that the powers given by the city charter were wider than he had thought. He had found among other powers that of making jail prisoners work on the streets.

His Worship said that several citizens had approached him and expressed a wish to appear before the Council when the traffic regulations should be under consideration.

Ald. McLellan said the suggestion was an excellent one. A special session in connection with delegations in attendance, he thought, would be the proper method of consideration.

Ald. Walker asked if the regulations would contain sections providing for the dimming of lights on motor cars.

Ald. McLellan said there were not, but that provision would have to be made in that connection.

Ald. Lemont suggested that there be an entirely distinct by-law relating to motor vehicles.

Ald. McLellan said that a separate set of regulations would be awkward on account of their being so many things in common to all vehicles.

It finally was decided that the matter of new traffic regulations would be considered at a meeting of the Council in committee, to be held at the call of His Worship the Mayor.

The Council then adjourned.

THE WORLD'S PROGRESS.

In 20 generations every person has had 131,076 direct ancestors.

Japanese have built a factory in China to make paper from rice straw.

Among the coin-in-the-slot novelties is an electric fan for public places.

Of Chile's 187,000,000 acres of land only about 23,000,000 can be cultivated.

The anthracite mines of Pennsylvania contain more than 7,000 miles of tunnels.

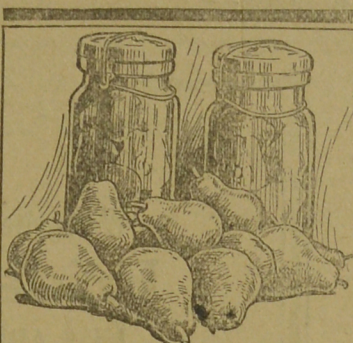

The Japanese make a waterproof leather with many uses from the hides of sea lions.

Easily detached casters have been patented to aid in moving washing machines.

Cocoa shells are being fed to cattle in a course of experiments by French dairymen.

A skate strap with a pad for the top of the foot, to relieve the pressure has been patented.

Manufacturers of Argentina are now planning to establish the first paper plant in that country.

CANADA'S WAR LOAN OVER SUBSCRIBED

Subscriptions of Banks Will be Eliminated--Small Investors to be Looked After

Ottawa, Oct. 3.—According to a statement issued by the Finance Department today, the allotment of the subscriptions to the Dominion War Loan will be made on a graduated percentage scale, preference being given to the subscriptions for the smaller amounts.

Out of total subscriptions amounting to some \$200,000,000, the banks total of \$50,000,000 will be eliminated altogether. This amount is being used in another way by being drawn upon by arrangement with the banks to afford a further credit of \$50,000,000 in Canada to finance British war orders placed in the Dominion.

All subscriptions of \$25,000 or under will be allotted in full.

Subscriptions of amounts from \$25,000 to \$100,000 will be allotted on the basis of the first \$25,000 in full and 30 per cent. of the remainder.

Subscriptions of amounts from \$100,000 to \$1,000,000 will be allotted according to the same basis for the first \$100,000 and 30 per cent. for the remainder.

Subscriptions in excess of \$1,000,000 will be allotted according to the basis adopted as above for \$1,000,000 subscriptions, and 26 per cent. of the remainder accepted.

This principle of allotment will result in subscriptions from \$25,000 to \$100,000 being allotted on an average of 57.7-10 per cent. of the sum subscribed. Subscriptions from \$100,000 to \$1,000,000 an average of 40 per cent. of the sum subscribed; subscriptions over \$1,000,000 an average of 31.2-5 per cent. of the sum subscribed.

Don't think for a minute that actors and actresses kiss every time they make up.

EFFICIENCY OF WORK MAKES APPEAL

New York Banker Marvels at What
is Being Done for the Relief
of the Belgians.

"My visit to Belgium gave me my first opportunity to see for myself the actual working of the relief system. It is a marvel of efficiency and devotion," says A. J. Hemphill, the New York Banker.

"All Americans admire the magnificent generosity with which the British Empire, despite the many other calls upon its benevolence and resources, has contributed, through the National Committee or Relief in Belgium, to the support of the relief work.

"After seeing that work for myself, I venture to say that it is the duty of every humane individual to help these helpless civilians in Belgium—especially the children—who for nearly two years have endured sorrows and privations that would dry the soul of any nation in the world, yet still remain heroically true to those traditions of liberty and freedom which they have inherited through centuries."

The same spirit which Mr. Hemphill found in the work in Belgium is surrounding the efforts of the Belgian Relief Committee in Canada. Its offices at 59 St. Peter street, Montreal, are the daily scene of indefatigable work on the part of some of Canada's most prominent men, who are giving time worth hundreds of dollars to them and charging not a cent.

This committee asks all Canadians to enter into the great work to save Belgium. Two dollars and fifty cents will feed one of these children Mr. Hemphill refers to until Christmas.

Will you let them starve?

Sitting down and thinking it over never yet put anything over. Get busy. Steel and copper are a great pair, and just now they are going for the world's financial altitude record.
