CANADIANS WANTED FOR IMPERIAL NAVY

Men Are to be Recruited in Volunteer
Reserve, on Canadian
Pay.

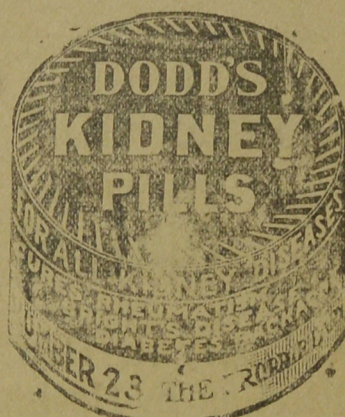

Ottawa, Aug. 17.—The Department of Naval Service wants recruits for the Royal Canadian Volunteer Reserve for service on Imperial ships in the European war. This is the result of the negotiations which Hon. Rupert Guinness has been carrying on for the past three months in Canada on behalf of the Admiralty.

Capt. Guinness wanted to recruit men for the British navy in Canada, but struck a difficulty when the question of pay came up. The British pay is somewhere in the neighborhood of a shilling a day, and it was obvious that such a rate would not attract many recruits here. The question of the Dominion government supplementing it was then discussed with the following result:

It is proposed to enlist the men in the Canadian Navy Volunteer Reserve, giving them Canadian pay, and then to place them at the disposal of the Admiralty. No officers will be enlisted. Men for the various ship ratings only will be recruited.

Those who already have experience as sailors, stokers, etc., will be given preference, but those without experience will also be taken, and will be trained at the English training depots. Canada will pay the expense.

It is believed that many men who desire to do their bit, but who prefer the salt sea to mother earth, will find the new opportunity an inducement.

A prude is generally some woman who goes around looking for something to get shocked at.

Public Schools Notice.

FOR the special benefit of pupils who are unable to complete the common school course, the Trustees will open a pre-vocational department in the York Street School building. Applicants for admission to this department will file their names with the Secretary and obtain an admission certificate.

In accordance with the Compulsory Schools Act, all children from six to fourteen years of age must be in attendance at school. In every case the reason for non-attendance must be given to the Board of School Trustees by the parent or guardian of the child.

In pursuance of Sec. 73 of the Schools Act, the Secretary is required in every case to demand a physicians' certificate or other evidence of recent successful vaccination before a permit may be issued.

All the schools will be re-opened on Monday, 28th inst., at 9 o'clock, a.m., and permits may be obtained at the office on York street during the previous week. Applicants for admission to the Model School, whose names have been registered, will apply for permits on Friday, 25th inst.

By order,
CHAS. A. SAMPSON,
8-12 121 Secretary.

Plumbing a House

This work demands something more than skilful hands. Technical knowledge, experience and a clear head are also necessary.

Our work—and there's much of it in this town—proves that we possess all these qualifications. Besides this, we have a full line of Plumbers' Supplies and can do all ordinary or extraordinary jobs promptly and well.

BIG WHEAT YIELD IN UNITED STATES

(Boston Record.)

The average wheat yield in the United States during the past five years has been 727,000,000 bushels.

The winter crop of 1916, now in, amounts to 455,000,000 bushels, and the spring crop is expected to add 200,000,000 bushels, bringing the total to just about 35,000,000 bushels in excess of ordinary home needs, but falling more than 345,000,000 bushels short of the yield of a year ago. This two-thirds crop comes at a time when there is a world shortage, so that to keep at home the 620,000,000 bushels which we ordinarily eat, we shall have to bid against the pressing needs of many million foreigners. That can have but one meaning—higher prices. And this meaning has already been discounted in part by the so-called speculative advances, which are simply forecasts of the inevitable.

Much outcry is heard against the speculators, but when demand outruns supply, there is no practicable escape from extortion—at least none short of public seizure and distribution, the remedy for which few Americans are ready.

But in spite of wet weather (in the Green Belt) our corn crop promises to

be fair; and corn is a good substitute for wheat. We are likely to see more of the corn pone.

THE ELECTIONS IN GREECE.

Strong Precautions Being Taken by the Military Authorities.

Athens, Aug. 21.—The Royalist party in Greece is taking extraordinary precautions preparatory to the coming elections. King Constantine is constantly guarded and visits the capital only on rare occasions.

On these journeys a cordon of soldiers, constituting a brigade, guards every approach to the road between the King's summer villa at Tatoi and Athens.

No one is allowed to pass without a permit.

ALLIES ADVANCE AT DOIRAN.

New York, Aug. 21.—The Journal today has the following from Saloniki: "On the Doiran front, during the night, we advanced 2,000 yards and occupied these new positions without encountering resistance."

"Our troops took the work at Fera-cheval, south of Doldzali, after serious resistance from Bulgarians."

Even the man who admits that he caught only one fish may lie about its weight.

VIENNA ORDERS METAL CAMPAIGN

Individuals Must Turn Over to the Government Everything They

Vienna, Aug. 21.—By far the most comprehensive campaign for the collection of metal that Vienna has known since the beginning of the war has been ordered. Not only must individuals turn over to the government practically all the metal they possess, but manufacturers, dealers, inn-keepers, restaurateurs, bakeries, sugar refineries, associations of all kinds, cloisters, hospitals, sanatoria and convalescent homes, bathing resorts, schools and educational institutions and countless similar organizations are going to surrender a large variety of materials.

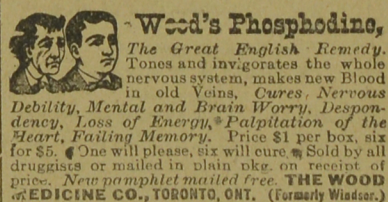

The list of things that have to be turned in includes:

1. Cooking utensils—pots, pans, casseroles, plates, cups, saucers, lamps and similar objects that are made of copper or of metals of which copper is a component. Knives, forks and spoons are exempt.
2. Soup tureens, pots, saucepans, etc., made of pure nickel.
3. Kitchen utensils, cups, lamps, etc., made of brass.
4. Wash boilers, kettles, tongs, bath tubs and the like made of copper or of metal of which copper is an alloy.
5. Vessels for boiling fruit made of copper or nickel.
6. Boilers or parts of stoves consisting of brass, copper, bronze or tombac.
7. Weights for scales weighing more than one pound.
8. Curtain rods and rug or carpet holders and such other rods used in ordinary households, made of brass, and easily removed.

Manufacturers of and dealers in any of the articles enumerated are required for the time being to turn over only one-third of their supply on hand, reckoned by weight rather than value. All other possessors of metal are required to turn over everything they own unless they can prove to a commission that this or that article is indispensable. Heavy penalties are provided for those who conceal anything.

No less than 91 commissions for receiving metal articles have been created to handle the task of collecting all the available metal in Vienna.

The city will specify days of surrender for all persons in alphabetical order. In case the owner of metal utensils cannot afford in advance to purchase substitutes, they will be purchased for him and their price deducted from the amount allowed him for his copper or nickel things, etc.

Most young lawyers spend more time practicing economy than law. There are but few unhappy marriages. The unhappiness shows up later.

WHERE COURTESY AND QUALITY GO HAND-IN-HAND

Belgians are Starving While Canadians Have Plenty

Our Heroic Allies Deserve
More Help than We are Giving

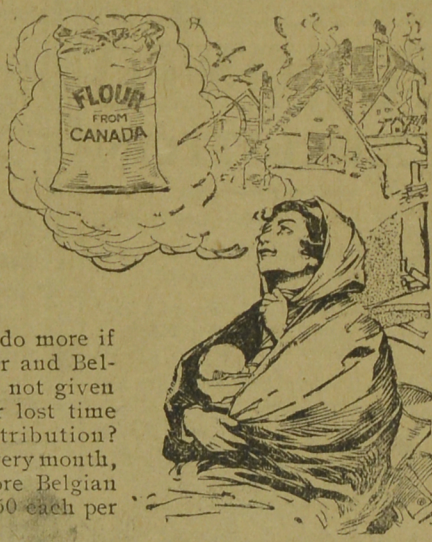

An accident of geography, and the fortunes of war, have subjected Belgium to the cold-blooded, calculated cruelty and attempted starvation of the German conquerors—while we in Canada, secure from danger, are making money out of the War.

Legitimate though our profits are, we surely owe a substantial share of them to our Allies, who are destitute because they dared stand up for their rights and defy the enemy.

We have given much—but barely enough to help keep the Belgians alive. More of them every week are calling for help, as their own resources are exhausted, and every one of the millions should have something more than the three slices of bread and the pint of soup which is all the Relief Commission can supply out of present contributions.

If you have been helping, do more if you can till the war is over and Belgium is free. If you have not given yet, will you make up for lost time with a substantial contribution? Better still, will you give, every month, enough to feed one or more Belgian families, at the rate of \$2.50 each per month?

Whatever you can afford to give, send your subscription weekly, monthly, or in one lump sum to Local or Provincial Committees, or

Belgian Relief Fund

59 St. Peter St., Montreal.
