When you build your new cottage or bungalow or fix up the old one-even if it's nothing more than a job in the attic-it will pay you to look into Beaver Board.

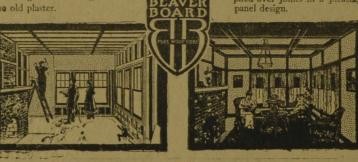

If you want better walls and ceilings warmer in winter, cooler in summer, sanitary, durable, beautiful in their decorative effects and free from cracks-nothing will satisfy you so well as the original, pure-woodfibre Beaver Board.

Be sure it's Beaver Board. Look for the Beaver trade-mark on the back of every panel.

In new work, Beaver Board is nailed direct to the studding, joists and "headers." In remodeling it is nailed right over the old plaster.

ished by painting, after the board is on the walls. Then decorative wood strips are ap-plied over joints in a pleasing panel design.
