

# SIR WILFRID LAURIER 75 YEARS OLD TODAY

SIR WILFRID LAURIER.

Sir Wilfrid Laurier is seventy-five years old today. He was born in St. Lin, Quebec, Nov. 20, 1841. He will be warmly congratulated by loyal Canadians today, irrespective of party. His course since the war began has been such as to win for him the high esteem of every son of Canada who places country before politics, and who hopes for the successful conclusion of the war. Canada is proud of Sir Wilfrid Laurier.

## CANADIANS CAPTURE THE REGINA TRENCH

London, Nov. 18.—The following official communiqué issued by the Canadian War records, is published today:

"After the admirable achievements on Oct. 23 of the Canadian battalions which fought and won what would have formerly ranked as a great battle, there still remained in the enemy's hands the extreme right sector of the bitterly contested Regina trench.

"This position was valuable to the enemy and a thorn in the side to us. About midnight, Nov. 10-11, by a well planned and smartly executed operation, we gained the coveted line and established ourselves there securely before daybreak.

The ground captured is about 500 yards in depth with a semi-circle of about 1,000 yards of trench around where the Regina ends in a farmer's road, and thence on down that ditch of wire to its termination in the Dysk

road, so unfavorably known among the Tommies as Death Valley.

The victory was a very smart and complete one, well rounded off, with no ragged edges to give trouble afterwards, and securing to us a desired post of vantage.

"Moreover, it was gained and held at relatively small cost. The number of unwounded prisoners was small, something over fifty, but included three officers. They all belonged to the Saxons or the Prussian Guards."

### WORLDLY WISDOM.

Nothing is calculated to give the self-made citizen a harder jolt than a bill of fare in French.

If a man is unable to make good on his own account, he usually points with pride to his ancestors.

A woman is always ready to admit a man's superior intelligence if he'll admit that she knows more than he does.

Strength of will never kept a man from falling in love, any more than a strong constitution kept him from catching a fever.

## TAKE "CASCARETS" IF HEADACHY, BILIOUS, AND CONSTIPATED

Best for the Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue, it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a ten cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

## CONTRACTOR KELLY SENT TO PRISON

Winnipeg, Nov. 18.—Contractor T. Kelly was sentenced today to two and a half years in Stony Mountain penitentiary for stealing about \$1,000,000 from the Manitoba government in connection with his contract for the construction of the parliament buildings here.

### A HARD FIGHT FOR THE RIGHT

So German Naval Critic Calls Submarine Controversy with U. S.

Berlin, via London, Nov. 18.—Capt. Persius, the German naval critic, says in the Berlin Tageblatt that the German government has published a white book containing copies of the correspondence between Berlin and Washington on the question of submarine warfare.

Capt. Persius describes the controversy as a hard fight for the right, and expresses the hope that a similar correspondence will not occur again.

## Moose in Northern Ontario

(1) Moose Hunting Party in Camp. (2) A Trophy. (3) Calling the Moose.

THOUGH perhaps not so famous for its big game as British Columbia or New Brunswick, Ontario possesses many valuable wild animals, which the hunter loves to pursue in the fall and early winter. None of the game of this province is more interesting than the moose. He is to be found in many haunts, but his favorite resorts seem to be in the Timagami district, around Desbarats, Bisco, Missanabie, and White River, and is often to be seen in the region stretching from Port William to Wabigoon Lake.

This season the hunters in Northern Ontario are sure to have an exceptionally good time, for the great forest fires that have recently occurred there have driven the big

game from their secure homes in the recesses of the vast woods, and now they are forced to shelter themselves under scantier cover than would satisfy them formerly. Furthermore, the season has been extended from November 15 to the end of the month.

Not long ago, the delightful sport of hunting big game was confined to the male sex, but now it is quite fashionable to see ladies with rifles in hand out on the hunting grounds, and often their aim is steady as that of some of the members of the sterner sex. Just as there is something of an accomplishment about a skilled fisherman, there is also something of an accomplishment about a competent moose hunter.

There are two methods of hunting the moose—the "calling" and the "still hunting." The "calling" is done early in the season, and in fine falls.

In the cold weather the "still hunting" is adopted. The details of these methods, and particulars as to how the moose feed "down wind" and how the hunters pursue their prey "up wind" should be learned by many novices in the bracing and healthful atmosphere of the woods of Northern Ontario during the present hunting season.
