WANT CLEANER POLITICS.

"I believe that we have arrived at a time when the people of Canada want cleaner politics. I have never believed it necessary to be dishonest in public life, while being honest in private life. I believe the people of Canada are looking for better things, and are expecting service from the public men, men who occupy positions of trust in the different. And never in the history of Canada has there been a more opportune season than while this struggle is on. Let us have cleaner politics and more honest business in the conduct of our public affairs."—Premier Norris, of Manitoba, at London, Ont.

MESSAGE TO YOUNG MEN.

"After a long life I shall remind you that already many problems rise before you; problems of race division, problems of creed differences, problems of economic conflict, problems of national duty and national aspiration. Let me tell you that for the solution of these problems you have a safe guide, an unfailing light, if you remember that faith is better than doubt, and love is better than hate.

"Banish doubt and hate from your life. Let your souls be ever open to the strong promptings of faith and the gentle influence of brotherly love. Be adamant against the haughty; be gentle and kind to the weak. Let your aim and your purpose, in good report or in ill, in victory or in defeat, be so to live, so to strive, so to serve as to do your part to raise the standard of life to higher and better spheres."—Sir Wilfrid Laurier at London, Ont.

THE LOYALTY CRY.

Some very foolish and unwarranted statements made by a couple of small-bore Toronto politicians named McNaught and McBrien at a ward meeting in that city a short time ago have aroused a feeling of resentment among Liberals all over Canada. Time was when barn-stormers and office seekers of the Tory stripe could cast reflections upon the loyalty of the great Liberal party and get away with it; but that day has gone past. It is proposed in future to meet these base slanders against the loyalty of one half of the people by organized reprisals, whatever the consequences may be. Recently the Montreal Reform Club, the most powerful political organization in Canada, had its attention called to some slanderous utterances of a Toronto gentleman named McNaught, who is one of a large family of honorary colonels appointed by Sir Sam Hughes, and adopted the following resolution, which is being published in all parts of Canada:

The members of the Montreal Reform Club, in meeting assembled, unanimously record in the strongest possible terms their condemnation of the unwarranted, malicious, mischievous and foul statements of such as Hon. Col. W. K. McNaught, of Toronto, who stated in a public address last week that the bulk of the fighting in France is being done by Conservatives, and that the people of Canada do well to be suspicious of the loyalty of the leaders of the Liberal party.

We denounce this foul calumny and aspersion upon the character of the Liberals everywhere who have died or have given their sons to die for the preservation of liberty and freedom throughout the world.

Taking cognizance of the threat of various Conservative leaders that if the Liberals of the country, in the exercise of their constitutional rights, put the fortunes of the Conservative party in danger, that we will be met with the race, creed and loyalty cry, we strongly urge on Liberals everywhere, individually and collectively, the following course of action:

(1) That whenever in any public gathering any individual attempts to raise the cry of loyalty against any party, the audience immediately protest and prevent any public discussion proceeding until such time as such statements are withdrawn.

(2) That whenever any such statements as those of Hon. Col. W. K. McNaught are made, let Liberals, individually and collectively, pursue such individual fiercely and relentlessly, and make his life miserable.

(3) That we urge Liberals everywhere that they wire and write the Hon. W. K. McNaught and demand that he withdraw his remarks and apologize abjectly, and humbly give assurance that he will never offend in like manner in future.

(4) That the Liberals of Canada serve notice upon the Conservative leaders that we have reached the limit of endurance, and that they will countenance this campaign at their peril.

(5) That copies of this resolution be sent to Sir R. L. Borden and all the members of his government, to the leading newspapers throughout Canada and to Liberal Clubs and Associations

everywhere in the country.

Strange to say, the party whose prototypes burned the parliament buildings in Montreal and rotten-egged a Governor General, have always made use of the loyalty cry in political campaigns. In the contest of four years ago their favorite slogan was "Keep both hands on the Union Jack." This cry caught many timid voters who have long since no doubt discovered how meaningless it was and how grossly they were deceived. The Liberals of Canada seem to be taking most effective steps to put the loyalty cry out of business as a vote getter for the Tories in future elections.

Chatham Gazette: The World and other journals which declare the government can do nothing to regulate prices of food, should read the Montreal Star, which declares (and shows photographs too) that hundreds of freight cars loaded with potatoes are kept standing for weeks in the Montreal yards until the price should mount still higher. The profits are so great when the market is thus cornered that they could afford to let hundreds of barrels freeze during the recent cold snap, rather than sell them at a moderate figure. It is not the John Gordons the government needs to get after, but the wholesale companies and dealers who practically buy up a product, working in combine, and then proceed to set the price soaring. They make immense profits at the expense of the rest of the people, some of whom cannot afford it.

Quite a rumpus has been kicked up of late in civic circles over matters appertaining to the water works pumping station. It is alleged in some quarters that there has been gross extravagance in the use of chemicals for filtration purposes, and that the chief engineer is incompetent. There may or may not be any foundation for the reports in circulation; but nevertheless it is the duty of the Water Committee and City Council to go into the matter thoroughly. The Water Department is an important one, and in the interests of the city should be administered in an efficient and economical manner. The citizens expect the Council to grapple with the matter in a business like way.

Windsor Record: Rural school fairs are growing in popularity. In 1912 the department started out with 25 school fairs. In 1915 there were 234 school fairs conducted through Ontario, embracing 2,291 schools, practically one-half the rural schools of Ontario, taking in 48,386 pupils who grew their grain and vegetables on over 51,000 plots, and among them the department distributed some 6,868 settings of eggs, aggregating over 75,000 eggs altogether.

Toronto Globe: The opponents of food taxes, who were almost mobbed in Toronto five years ago for proposing that they be abolished, have the satisfaction of reading that a Toronto mass meeting—largely Tory—has called on the Government by unanimous vote to "remove the tariff barriers on food required in Canada."

Winnipeg Tribune: What answer would Sir Robert Borden have made to Mr. Taft in New York last Saturday if the latter had asked the Premier if he really believed a single one of the knighted "loyalty shouters" really believe there was any danger of annexation in the reciprocity treaty?

The most effective way to clip the wings of the food monopolists would be to remove the duty on foodstuffs. With a Liberal government in power at Ottawa at the present time the high costers would get a short shrift.

Cure Your Bad Cough By Breathing "Catarrhozone"

Usually it comes with a cold. Being slight, it is neglected—but the seed is sown for a dangerous harvest, perhaps consumption. To cure it once, inhale Catarrhozone. It destroys the germs of Catarrh, clears away mucous, cleanses the passage of the nose and throat. The hacking cough and sneezing cold soon disappear and health is yours again. Nothing known for colds, catarrh and throat trouble that is so curative as Catarrhozone. It cures by a new method that never yet failed. The one dollar outfit includes the inhaler and is guaranteed to cure. Smaller sizes, 25c. and 50c., sold everywhere.

HAD BRONCHITIS FOR YEARS

Bronchitis comes from a neglected cold, and it, if neglected, will surely turn into pneumonia. The first symptom is a short, painful, dry cough, accompanied with rapid wheezing and a feeling of oppression or tightness through the chest.

The phlegm raised from the bronchial tubes is at first of a light color, but as the disease progresses it becomes of a yellowish or greenish color and is very often hard to raise.

Dr. Wood's Norway is just the remedy you require, as it loosens the phlegm and heals the lungs and the bronchial tubes.

Mrs. Chas. Brean, Amherst, N. S., writes: "I was troubled for years with bronchitis, and could not find any relief. I was especially bad on a damp day. I went to a druggist and asked him for something to stop the constant tickling in my throat. He gave me a bottle of Dr. Wood's Norway Pine Syrup, which I found gave me instant relief. I think it is the best medicine for bronchitis I know of. I now take care that I always have a bottle on hand."

"Dr. Wood's" is the genuine, put up in a yellow wrapper, three pine trees the trade mark, price 25c. and 50c.

Urge Wilson to Arrange Armistice

New York, Dec. 2.—Resolutions urging President Wilson to do all in his power to arrange an armistice between the warring powers of Europe before Christmas, were passed last night by the Central Federal Labor Union, with 500,000 members in the Metropolitan district.

Another resolution called upon all the unions in the United States to take similar action.

TEA ADVANCES IN PRICE.

Owing to the continued increase in the cost of teas and the heavy advances in marine freight and insurance rates, we have regretfully been compelled to advance our selling prices 5 cents per pound, but the consumer will still be getting in "Salada" packets, tea of incomparable quality and value.

Most men hug the delusion that sooner or later they will invent something that will make them rich.

The modern gowns, they say, date back to 350 B. C. which is getting dangerously close to Eve's time, when they printed the fashion plates on a pinhead.

"Grandma," in the Waterbury American asks: "Are men today blinded to a virtuous woman's real worth—is that why they don't marry?" Nope, Grandma, they're just double-sighted as to coal bills and grocery prices.
