

Dr. E. A. Smith Won Great Victory in Westmorland

The People of the Noble County Voted to "Turn the Rascals Out"—The Government Boodle Brigade, Routed Horse, Foot and Artillery—The Opposition Candidate Carried the County by a Majority of 83 in the Face of Tremendous Odds.

"HOW IS THIS FOR A COME BACK!"

Moncton, May 30.—The electors of Westmorland did their duty today by electing Dr. E. A. Smith, the Opposition candidate.

They served notice upon New Brunswick and all Canada that their public conscience is alive to what is right and what is wrong in government methods. They did a greater thing in refusing to endorse the present corrupt administration of New Brunswick by refusing to elect the new Minister of Public Works.

The contest today was not between two men as individuals; it was between right and wrong as represented by Dr. Smith and P. G. Mahoney. The result—a majority of over 80 for Dr. Smith, the Opposition candidate—was achieved in the face of unreasonable odds. There were simply oceans of money and liquor in the Government interest.

At times the Opposition forces were in despair at the fearful odds against them, but the candidate and the executive held firmly to their decision not to buy a vote or do anything illegal.

Messrs. Woods and Price, M. P.'s, stood at the Salisbury poll and used all the forces and influence possible, and were beaten by 22 votes.

Dr. Burke, the member for Kent, did the same at Memramcook, and was beaten by 132 votes.

W. F. Humphrey and F. W. Sumner stood at the Moncton parish poll and were beaten 192 votes.

The forces at Shediac were buttressed by Dr. Landry and Speaker Melanson, and were beaten fifteen votes in that parish.

Had "Money to Burn."

"They had money to burn," said the workers tonight. There is consequently great rejoicing among those who fought against the graft and dishonest methods employed. It was the unbought vote of Westmorland that triumphed today. Yet it was not P. G. Mahoney who was defeated; it was the Government, and particularly Mr.

ray, Baxter and Landry, that were on trial, and that went down to defeat and disgrace.

Had the people been permitted to go to the polls without being influenced, Smith would have won by a thousand votes.

The government has been served with a notice to quit. A majority of 500 in 1912 has been overturned, and the Opposition candidate given a respectable majority.

They Have Their Answer.

The campaign of the Government press, intensely personal against Carvell, Carter and Veniot, has its answer.

The question tonight is: What will the Government do?

Dr. Smith arrived from Shediac tonight, and there was an immense crowd around the Brunswick Hotel, Organizer Carter's headquarters.

There was a brass band and speeches and a general jollification.

For the first time in the history of New Brunswick a Speaker of the House of Assembly worked at the polls, and was in fact challenged and sworn before he voted.

The Parish Majorities.

The following are the majorities in the different parishes in the county:

	Majority
SMITH—	
Moncton	192
Dorchester	132
Salisbury	22
Shediac	15
Total	361
MAHONEY—	
Sackville	183
Botsford	81
Westmorland	14
Total	278

Majority for Smith .. 83

Great Rejoicing.

About 9 o'clock the band arrived in front of the Brunswick Hotel, and an immense crowd stood in the rain while Dr. Smith, E. S. Carter and P. J. Veniot addressed them. The speeches

were short but were cheered to the echo. Dr. Smith was cordial in his thanks to the workers, to the campaign speakers and organizers, and promised to carry out the provisions of his card to the electors as soon as he had the opportunity.

E. S. Carter told the crowd that all Canada was waiting for the result in Westmorland, and the good old county had, in spite of all influences, given its notice to the grafters, and particularly to those members of the Government, Baxter, Murray and Landry, who had come into the constituency in defence of their methods; and B. Frank Smith, too, had his answer from the people of Westmorland, and Titus Carter, H. W. Woods and all others who had come into the county to challenge the good sense of the opinion of Westmorland. As for the slanders of the Standard and Moncton Times upon himself and Veniot, those newspapers had carried on that campaign for years now and they cared nothing for it so long as the people of Westmorland had given such a verdict.

Mr. Veniot spoke in English and then in French, thanking the electors for the warm reception given to him wherever he had spoken. Westmorland had given its answer to the scurrilous attacks of the Times and Standard against Mr. Carter and himself, and set the pace for the rest of the province against the grafters. He felt particularly proud to see that his French compatriots had joined the march against corruption. He also felt that Dr. Landry had received an answer that would be a lesson to him.

Hon. C. W. Robinson introduced the speakers, and addressed the crowd himself. His popularity is evident whenever he appears and whenever he speaks. J. T. Hawke, the vigorous, alert and eloquent editor of the Transcript, which had done such signal service in this campaign, also made some terse remarks upon the victory and situation, and James McQueen and

DOUBT FAMILY OF 5 LIVES WEEK ON \$7.31

Might be Done. But Tight Squeeze, Says Expert of New York's Model Diet.

Boston, May 30.—Dr. Francis X. Mahoney, Boston's Health Commissioner, views with a great deal of skepticism the announcement made by the New York Health Department that \$7.31 will buy food enough for a family of five to last them a week.

The absurdity of the entire matter was shown by Dr. Mahoney in his office here with the aid of a series of tables showing the cost of foods and their caloric value. He declared, for instance, that individuals who stand at their work, such as bakers, dentists, car conductors, decorators and glass workers, require about 3,000 calories. If muscular labor be constant, more is required. The latter applies to the worker who is able to earn on an average from \$10 to \$14 a week.

The New York Health Department, in giving its figures of \$7.31, brings down the cost to \$1.06 per day for five, making an average of a little more than 20c. for each person.

Compare this with the statistics furnished by Dr. Mahoney.

Based on what one person could consume at a meal, the cost is as follows: 9½ ounces of steak, 17.38 cents; 3 slices of bread, 45 cents; 10 gms. of butter, .89 cents; 2½ oz. potatoes, .04 cents, at a total of 18.68 cents actual cost, where the greatest economy in purchasing power is practiced. The above also represents a cost of 55c. in a restaurant.

The above also represents only a caloric value of 1,300 and is but one meal. Three times the above, to get the full value of calories, would mean 58 cents worth of food and a little more than 3,000 calories, thus showing at once that the \$7.31 would be insufficient to meet the requirements of feeding five persons, be they adults or minors.

About the only food that would give the calories and come within the amount specified by the New York Health Department would be peanuts and water.

IF SLEEPLESS AND NERVOUS YOUR HEALTH WILL SOON GO

Two horrors crowded into one life—the product of poor digestion and a poisoned system. There is just one cure for this terrible condition—plenty of food—but, mind you, food properly digested; that's the difficulty, to improve the digestive power of the stomach. Get rich nutritious blood, strengthen the system and drive out poisons—then comes vitality, endurance, power. Ferrozane does all this and more, it makes sick people well, weak people strong, changes 'nerves' and insomnia into robust health. Take Ferrozane and health is yours. 50c. at all dealers.

With Awning Stripes

Awning stripes are one of the vogues of the season. They are used not only in clothes but for household furnishings as well. They are striking, and with anything there is danger that the vogue will not last. But they are worth immediate consideration, nevertheless.

Awning striped skirts were worn with much effectiveness last summer. They are worn, naturally, for sport skirts and are really better when worn with a blouse, jacket or sweater of plain color—the color of one of the stripes. Sometimes the jacket is made of stripes and the skirt is of the plain material and this arrangement is equally effective.

There are hats covered with linen or silk in wide stripes that are decidedly striking worn with light frocks. The stripes are sometimes arranged, by means of pleats, to radiate from the crown; sometimes they run straight across crown and brim.

Dr. Murray made brief addresses.

It is interesting to note that in the last general provincial election the majorities in Westmorland were:

F. B. Black	3,550
P. G. Mahoney	3,539
W. F. Humphrey	3,501
O. M. Melanson	3,436
A. B. Copp	3,045
Fred Magee	2,992
Killam	2,976
Leger	2,923

The result yesterday was therefore a tremendous turnover, showing how completely the people of Westmorland are disgusted with graft and corruption.

HOLIDAY HATS

Special Hats for the 24th in good variety at Holiday Prices.

Every kind of Outing and Sports Hat may be found in our showrooms at Bargain Rates.

Misses and Childrens Hats included in this Holiday Sale.

MISS MORGAN 476 Queen St.

KODAKS

Time to think about one for the summer. No la Autographic Kodak Junior, rectangular pictures 2 1-2 x 4 1-4, price \$11.00 and \$13.00, is worth looking over. Simplicity marks it in every respect. Let us show you one.
