What I said November 9, I repeat now: "We shall never sheathe the sword, which we have not lightly drawn, until Belgium—and I will add Serbia—recover in full measure all and more than they have sacrificed; until France is adequately secured against aggression; until the rights of the small nations of Europe are based upon an unassailable foundation, and until the military domination of Prussia is wholly and finally destroyed."—Premier Asquith.

THE WAR PROFITEERS.

Evidence that Mr. Kyte established his case against the old Shell Committee last week was furnished by Sir Thomas White in his speech, on Tuesday in opposition to Sir Wilfrid Laurier's motion for an investigation. We find Sir Thomas stating that when Sir Sam Hughes ratified the notorious agreement which Mr. Kyte read in Parliament, he was acting in accordance with authority vested in him by His Britannic Majesty's Government, which means the Government of Great Britain. Sir Thomas admitted that contracts had been entered into with the International Arms and Fuse Co., and the American Ammunition Co., and that liberal cash advances had been made to these mushroom concerns. Thus we have the Finance Minister acknowledging the truth of the charge made by Mr. Carvell and repeated by Mr. Kyte. The following extracts from the agreement read in Parliament by Mr. Kyte will give an insight into the financial standing of the Yankee companies to which the Government advanced the enormous sum of three and one half millions of dollars:

"The maximum amount of the capital stock of the corporation shall be \$1,000,000, to be divided into shares of \$100 each, and consisting of 5,000 shares of preferred stock at \$100 per share, AND THE MINIMUM AMOUNT OF THE CAPITAL STOCK OF THE CORPORATION SHALL BE \$1,000, DIVIDED INTO TEN SHARES OF THE PAR VALUE OF \$100 EACH."

The above is an extract from the charter of the American Ammunition Company, which was ready to manufacture shells, fuses, etc., on a paid-up capital of \$1,000. This mushroom concern got an order from the Shell Committee for 2,500,000 fuses, and was advanced the sum of \$1,500,000 by the Canadian Government. This arrangement was approved of by Sir Sam Hughes on behalf of His Britannic Majesty's Government.

Then there is the agreement with the International Arms & Fuse Company, another Yankee mushroom concern promoted by the gallant Colonel John Wesley Allison, the man who, according to Sir Sam Hughes, has saved \$50,000,000 for the Empire. We are told in the document read by Mr. Kyte that—

(3) The amount of capital stock is one million five hundred thousand dollars (\$1,500,000).

(4) The number of shares of which the capital stock shall consist is fifteen thousand (15,000), of the par value of one hundred dollars (\$100) each, AND THE AMOUNT OF CAPITAL STOCK WITH WHICH SAID CORPORATION WILL BEGIN BUSINESS IS THREE THOUSAND DOLLARS.

This concern, with its paid-up capital of \$3,000 received a contract from the Canadian Shell Committee for \$10,000,000 worth of fuses. The companies had no buildings, no plant, no raw materials, yet the Shell Committee, acting for the British and Canadian governments, very complacently furnished them with the necessary cash to finance the undertaking.

Col. John Wesley Allison and his Yankee associates did not even take a sporting chance. They had a sure thing and stood to win, no matter which way the cat jumped. Is it any wonder that Sir Sam Hughes had a pressing engagement in the old country about the time that Mr. Carvell was due to bring this matter to the attention of Parliament? Is it any wonder that Col. John Wesley Allison Col. Sam's life long friend, has persistently ignored a standing invitation to appear before the Public Accounts Committee at Ottawa, and explain how he has been the means of saving millions to the Empire. Is it any wonder, in view of the facts disclosed in Parliament by Hon. Dr. Pugsley, Mr. Carvell and Mr. Kyte, that Premier Borden was compelled to back down and consent to an investigation into this miserable transaction.

THE DIFFERENCE.

The Manitoba Free Press says: "Those people who are so busily en-

gaged in trying to draw exact parallels between Manitoba happenings of a year ago and present-day developments in Saskatchewan, will no doubt pite, with displeasure, the success with which the Saskatchewan authorities have located the men who skipped across the line when the investigation into the highway charges began to get warm. When they disappeared the Saskatchewan attorney general got busy, with the result that all three were speedily apprehended—one in Chicago, one in Seattle, and one in far-off Texas. Our recollection is that the former attorney general of Manitoba was not quite so successful a year ago in locating missing people whose presence was desired in Winnipeg."

When the enquiry into the lumber land steal was about to start in New Brunswick, Mr. W. H. Berry, the superintendent of sealers and a material witness, hiked for the land of the free. Not the slightest effort was made by the Government to induce him to return, and consequently his testimony was not secured. They do things differently in the west.

The Ottawa government, when it handed out a \$22,000,000 war order to Yankee highbinders, seems to have forgotten all about the poor old N. P., which was to have done so much for the upbuilding of Canadian manufacturers.

A bill giving the Fredericton School Board authority to issue debentures was introduced in the Legislature by Hon. Mr. Baxter. Where are the members for the County of York?

KEEP CHILDREN WELL

To keep little ones well the bowels must be kept regular and the stomach sweet. Nine-tenths of childhood ailments are caused by derangements of these organs. Baby's Own Tablets never fail to regulate the stomach and bowels—that is why thousands of mothers would give no other medicine to their little ones. Concerning them Mrs. Chas. A. Turner, Marie Joseph, N.S., writes: "We have been using Baby's Own Tablets off and on for the past year and a half and have found nothing to equal them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville Ont.

DRIVING PROSPECT

(Continued from page eight.)

It ran for a short distance yesterday. Cold weather is thought to be the cause of this. With warmer weather the ice is expected to run out within a few days. It is not anticipated that there will be any damage from the ice-run as the sun has wasted it away to a marked degree.

Benjamin Draper Tells Why He is Recommending Dodd's Kidney Pills to Every Man Who Has Kidney Trouble.

Sedley, Sask., April 3—(Special)—"I would not be without Dodd's Kidney Pills." These are the words of Mr. Benjamin Draper, an old and esteemed resident of this place. And Mr. Draper is always ready to tell just why he swears by the good old Canadian kidney remedy.

"My trouble came from hard work when I was young," Mr. Draper says "My joints got stiff, my muscles cramped and I suffered terribly from a sore back.

"I had a bitter taste in my mouth, especially in the morning, and I was depressed and low spirited. I was always thirsty and had flashes of light before my eyes. I had rheumatism and heart flutterings. My appetite was fitful, my memory was failing me and I was troubled with shortness of breath.

"I was in bad shape all round when I started to take Dodd's Kidney Pills. Four boxes of them made me a different man. I hope every man that has any trouble will use Dodd's Kidney Pills."

Mr. Draper had a lot of troubles. Any or all of them spells kidney trouble. If you have any of them you will soon get the others unless you cure your kidneys. Dodd's Kidney Pills cure kidney troubles.
