Gibson lost a close game to the 104th Battalion team last night. The score was 3 to 2. Gibson claims that they scored a goal in the first period which was not allowed by Goal Judge Flanagan. Spectators who were standing near the goal say the puck went right through the net at the bottom. The goal judges' decision was final, however.

The ice was in good condition and the play fast. A handful of spectators saw the game which was not advertised. The teams were evenly matched and put up an interesting game.

The teams were as follows:

FRED MITCHELL
HAS BEGUN WORK
WITH HARVARD TEAM

Old Time St. John Player Coaching at Boston--Addressed the Harvard Players on Monday.

Fred Mitchell, the old time pitcher of the St. John teams of eighteen years ago, is now coaching Harvard. Mitchell, after entering the big leagues, became a catcher. Tuesday's Boston Globe has the following about Mitchell and his squad:

"Harvard baseball candidates had their first view yesterday of the newly appointed baseball coach, Fred Mitchell, who is to guide Harvard's baseball destinies the coming year. In addition to Coach Mitchell, Capt. Henry L. Nash and Dr. E. H. Nichols '84, addressed the gathering. Coach Mitchell spoke a few words on the National pastime in general and gave an outline of his plans. Capt. Nash gave a few preliminary instructions to the candidates and Dr. Nichols followed with some well timed directions regarding training. The first practice of the year will take place tomorrow afternoon when all the battery men will report to Coach Mitchell in the baseball cage. Practice for the freshmen will not commence until March. A week from Wednesday the varsity infielders will report.

WARM PRAISE FOR
MR. J. D. PALMER

President of Hartt Shoe Company
A Man Who Goes Ahead And Does Things.

The January number of the Shoe and Leather Journal, under the caption "Shoe and Leather Captains," published as a frontispiece a large portrait of Mr. J. D. Palmer, president of the Hartt Boot and Shoe Company.

Concerning Mr. Palmer, it says:

"To the Hartt Boot & Shoe Co., in the person of Mr. J. D. Palmer, the President, belongs the credit of bringing the Maritime Provinces into 'first grade' in the school of shoe manufacturing. A few years ago the people down by the sea were content to follow in the race a good second or even a third in the production of modern footwear. Today the Hartt product is known from coast to coast as the equal of anything on the Canadian market in men's fine shoes. Their latest venture in putting out a shoe to retail at eight dollars is an evidence of their grit and go.

"J. D. Palmer is one of those men who think more than they talk. While others worry their necks over competition he goes ahead and gets out something that will put his business out of the struggle with the 'madding crowd.' He is not a believer in the new for the sake of the new, but is an enthusiast about shoes who believes that there is a paying amount of appreciation lying around for an effort to give the people a genuinely good thing.

Mr. Palmer is absorbed by his business to an extent that keeps him from meddling with politics or other distractions that are apt to take a man's mind off the race, but he is unselfish enough to give sufficient of his brains brawn and energy to enterprises that have for their end the uplift and benefit of his fellow citizens, especially those of his immediate neighborhood. He has taken a great interest in the Fredericton Board of Trade, of which he is president, and its efforts to build up and extend the trade of the city and

Suffered No End of Pain
FROM BACKACHES.

If a pain attacks you in the back you should stop and think what it is and what causes it.

If the kidneys are at fault—and in nine cases out of every ten they are—you should attend to them at once, as it is impossible to have a well, strong back unless the kidneys are performing their functions in a proper manner.

Anyone with a bad back should appreciate how to get a good one. It is a very simple matter. Use Doan's Kidney Pills. They regulate the kidneys, and there is no further excuse for any kidney trouble to exist.

Mrs. E. J. Graves, Oshawa, Ont., writes: "My complaint lies with my kidneys. I have suffered no end of pain with them, and with backache. I had tried everything, so I thought, until a friend advised me to try a box of Doan's Kidney Pills. I did try them, and one box helped me fine, so I got another, and now feel that I cannot recommend them too highly to anyone suffering with kidney trouble."

Doan's Kidney Pills are the original kidney pills. Do not accept any substitutes put up under similar names. Always see that our trade mark "The Maple Leaf" appears on the label and wrapper.

Doan's Kidney Pills are 50c per box, 3 boxes for \$1.25; at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

New Brunswick generally, and he has done much quiet work in this respect that is only known to his friends.

"He has also taken hold of the technical school question, on which he is an authority, having investigated some of the best institutions of this kind in this country and abroad. He has been a prime mover in seeking to have established in New Brunswick such an institution as will put the young men and women of the province in a position to begin the battle of industrial and commercial life fully equipped.

"J. D. Palmer is a whole-souled, genial man, who gives his entire attention to the thing in hand and has no patience with circumlocution or see-saw methods. He knows what he wants, and takes the most direct course to get there.

Familiar as he is both with the manufacturing and selling ends, he is able to keep his establishment in perfect touch with Canadian shoe requirements. Mr. Palmer is fortunate in having associated with him Mr. John A. Reid, admittedly one of the best shoe men in America, and together they make a great team."

Chalmers Motor Company

WM. C. BURTT, Local Dealer.

PERSONAL!

Effective March 1, the price of the Chalmers Six-40 in Canada will be \$1950. This is an increase of \$100 over the present price. It is made necessary by the sharp rise in cost of raw materials.

Aluminum, which sold for 19 cents a pound only a few months ago, now brings 53 cents.

Copper has risen from 14 cents to 24 cents.

Vanadium steel a year ago brought \$1.85 a pound. Now it sells for \$8.50.

High speed steel, formerly at \$1.05 a pound, now is worth \$3.25.

Leather formerly 20 cents a foot now brings 33 cents, and so on.

All told, it costs \$118.22 more in raw material to build the Six-40 than it did some months ago. As this amount is considerably in excess of our net profit per car, only two courses were open to us.

One was to raise the price.

The other was to lower the quality.

To follow the latter course meant a "oneyear" car. This kind of an automobile Chalmers has never built and never will build.

Therefore, rise in price was the only procedure possible.

We regret that an increase in price is necessary, but we feel that other manufacturers of automobiles will be forced either to increase the price or use a lower grade of materials.

For it is not possible to buy superior products in the open market at any less price than Chalmers pays.

We think it only fair to those who have planned to purchase the Six-40, and have been quoted the \$1850 price, to take this opportunity of saying that we will accept orders at that price up to midnight, February 29. Thereafter the price of \$1950 will prevail.
