THE RUSSIANS MAKING FURIOUS DRIVE AGAINST THE GERMANS

Russians Fiercly Attack Germans on Eastern Front

Battle Has Been Raging For Thirty-Six Hours Without Cessation---Bombardment as Violent as That on the Somme---British Occupy a Village.

LONDON, Oct. 6.—The Russian attacks on the eastern front are more violent than any known since the start of the war, according to a Copenhagen despatch to the Exchange Telegraph Company, quoting the eastern correspondent of the Berlin Lokal Anzeiger. The despatch says that near Karytruca and Zubilm, Russian infantry have attacked the German lines for the last thirty-six hours without cessation. This assault was on a front of fifty kilometres and the cannonade continued all night.

German officers who participated in the battle on the western front are quoted as saying that the Russian bombardment was nearly as violent as that on the Somme. The Russians are using thousands of cannons, and in a few days they fired 60,000 shells on a very small front.

LONDON, Oct. 6.—The British forces which recently crossed to the eastern bank of the Struma river on the Macedonian front have occupied the village of Nevoljen, it was announced officially today, as follows:

"On the Struma front yesterday and on the preceding night, the enemy showed no activity. Our troops have now consolidated all the ground gained. The total number of prisoners captured in the recent operations now amounts to three officers and 439 men.

"This morning our artillery commenced a bombardment of Nevoljen, but after a short time the enemy was seen evacuating the town, and it was occupied by us without loss."

Bulgarians Claim Successes Over Russians and Roumanians in an Official Statement

SOFIA, Oct. 5, via London, Oct. 6.—All efforts of the Russians and Roumanians to advance on the Dobrudja front have resulted in failure, according to an official announcement issued by the War Office today.

The text of the statement follows: "Between Presba Lake and the Vardar the situation is unchanged. At some points there was vigorous artillery activity. East of the Vardar there is quiet and the situation at the foot of the Belaschitz mountains is unchanged. Enemy artillery unsuccessfully shelled the station at Borob, but was soon silenced by our guns.

"On the Struma front attempts of an enemy battalion, under cover of artillery, infantry and machine gun fire, to advance from Orjak bridgehead toward Nevoljen village failed before our fire.

Say That the Roumanian Soldiers Who Crossed the Danube Have Been Repulsed

"On the Roumanian front there is quiet along the Danube. The enemy landing operations near Rahova village was completely repulsed. There is not a single Roumanian soldier on our side of the river.

"In the Dobrudja district all efforts of the enemy to advance toward our positions on the Karabodza-Pervele line were frustrated by our counter attack. Several night attacks also failed. On the remainder of the front there was vigorous artillery activity.

"On the Black Sea coast our seaplanes attacked an enemy kar vessel off Mangalia and forced it to beat a hasty retreat. There was quiet on the Aegean coast."

FRENCH WAR LOAN A SUCCESS.

PARIS, Oct. 6.—Reports from Paris and the provinces show that the second great war loan promises to be an even greater success than the first. In Paris rain kept many away on the morning of the opening day, but in the afternoon there were long waiting lines outside all places where subscriptions were taken. The banks state that a large number of persons paid for their stock in gold. At one window of the Bank of France alone 300,000 francs in gold were paid over in 2 hours.

RUSSIAN OFFENSIVE CONTINUED.

Official Announcement of the War Office Contains Good News---German Artillery is Active on the Verdun Front

The War Office also reports great activity on the part of the artillery on the Verdun front. The Germans are shelling Poivre Hill, east of the Meuse and north of Verdun.

On the Somme front the artillery was active during the night.

Efforts to Reconcile German Chancellor and His Opponents Have Proved Futile

BERLIN, Oct. 5, via London, Oct. 6.—Efforts to compose the differences between Chancellor Von Bethmann-Hollweg and his opponents in the Reichstag, which have been in progress since adjournment was taken after the Chancellor's speech, apparently have accomplished little.

The Chancellor's position, however, appears to be unshaken and such information as is obtainable indicates that the campaign for resumption of submarine activity on the old basis has met with no success.

CANADIAN TROOPS WERE IN THICK OF FIGHTING ON THE SOMME LAST WEEK

CANADIAN HEADQUARTERS IN FRANCE, via London, Oct. 6.—The Canadian communique of Sept. 28 to Oct. 3 says:

Severe fighting continued almost without cessation during the past week. The Germans brought up reinforcements and fresh troops and opposed at times a desperate resistance to our advance. Attacks were succeeded by counter attacks, and certain portions of the trenches were the scene of sanguinary hand-to-hand struggles.

The artillery duels and the artillery concentration upon infantry trenches was terrible. None the less, the endurance, courage and cheerfulness of our men were beyond praise, and their attacks were delivered with unabated fury.

In the east and north of Courcellette our line was materially advanced for the first time since the Canadians have participated in the war. Cavalry patrols were employed to maintain touch with the enemy. On the evening of Sept. 27 it was discovered that our advance had broken through the last immediate line of German resistance.

CANADIAN CAVALRY PATROL DID SPLENDID WORK IN THE DIRECTION OF LE SARS AND PYS

Some Canadian cavalry were ordered to patrol in the direction of Le Sars and Pys in order to establish the new location of the enemy forces. Two lieutenants and twenty-four of other ranks, all mounted, proceeded south of Courcellette along the Bapaume road from this point on the morning of Sept. 29. Five different patrols crossed our front line trenches and went forward into enemy territory.

Two patrols in the direction of LeSars located Germans in Destremont farm, over a mile beyond our lines. Here one of our men was killed and another wounded and two horses were killed. Another patrol penetrated northeast a distance of about 2500 yards, but were compelled to return by the enemy snipers.

A New Brunswick battalion advanced to the north of Courcellette and established a more advanced position to the south of the Regina trench.
