

SOME AMENDMENTS TO THE PROVINCIAL ELECTION LAW

In the Legislature on Wednesday Mr. Pelletier gave notice of enquiry regarding the following matters: As to the amount of the bonded debt and other liabilities of the Province; as to the bonds of the St. John & Quebec Railway Co.; as to whether A. R. Gould had any claim upon the province or the St. John & Quebec Railway, and if so its nature, and as to the preliminaries regarding the contract made by E. C. Colby on behalf of the Concrete Construction Company with the Province.

Mr. White, of Victoria, gave notice of motion in favor of an annual tax of not less than two cents per acre for educational purposes to be put on all granted lands outside of established school districts.

The House then went into committee with Mr. Munro in the chair, and agreed to the following bills:

An act relating to interest on provincial debentures which authorize the increase of the interest paid on such debentures from 4½ to 5 per cent.

The act respecting registration of provincial debentures.

An act to amend the act for the suppression of infectious and contagious diseases among bees.

An act to amend the act to provide for the inspection and registration of stallions.

An act to provide for the granting of land to certain persons serving His Majesty in the present war, was taken up and progress reported.

Hon. Mr. Morrissey presented a petition of the Bishop of Chatham in favor of a bill to authorize him to sell certain lands at Bathurst and Ludlow.

The Election Law.

The House again went into committee with Mr. Munro in the chair, and resumed the consideration of a bill respecting elections to the Legislative Assembly.

Mr. Lockhart wanted to know why it was thought necessary to disqualify ministers of religion from becoming candidates or members of the Legislature.

Hon. Mr. Morrissey—"This is no place for them, to begin with."

Hon. Mr. Baxter said it had been a rule almost from time immemorial that such gentlemen should not become members of any parliamentary body. He would not commit himself to any reason for it, but he thought perhaps a custom of so many years' standing

must have something to commend it, and he thought it was proper to let it remain.

Hon. Mr. Baxter said it would be noted that the old provision requiring the Sheriff to keep his court open from 12 o'clock till 2 to hear objections to any candidate nominated was dropped out of the present bill. There appeared to him to be no sound reason for its retention.

Mr. B. Frank Smith inquired if any provision was being made to meet the case of Bibles being stolen from the court house.

Hon. Mr. Morrissey—"We can't provide for all the irregularities which take place in your county."

The committee then took recess until 8 o'clock.

Evening Session.

On resuming at 8 o'clock the further consideration of the bill relating to the election law was resumed.

In reference to the remuneration to be paid to the Sheriff for posting notices, the bill allowing ten cents per mile travelled one way only, Mr. Slipp thought mileage should be allowed both ways, as frequently long distances had to be travelled and the sheriffs in most of the counties were but poorly paid in any case. Besides, most of them did the whole of the work themselves, and the amount they got for mileage was all the remuneration they got for that particular work.

Hon. Mr. Baxter did not think things were quite so bad as the hon. member for Queens thought, but he was willing to go to fifteen cents per mile one way, or the sum actually and reasonably paid.

Mr. Smith agreed with the views of the member for Queens, and said that in Carleton county the area to be covered was so large that the sheriff could not do it alone, and he had to pay for his assistance.

The bill was amended to allow mileage to be paid at the rate of ten cents per mile both ways. Progress was then reported.

Hon. Dr. Landry presented the annual report of the Miramichi Natural History Society for the past year. The House adjourned at 10.15.

MARVELLOUS PRODUCTION OF "UNDER COVER"

Primarily the story has to do with a nominal attempt of U. S. customs officers to run down certain expert diamond smugglers. Amy Cartwright has foolishly sold her sister, Ethel's, diamonds to satisfy a gambling debt and has collected their value from burglary insurance company. With this information in his power, Daniel Raylor, a deputy in the customs forces the refined and innocent Ethel, against her inclination, to enter the customs service as a spy to "get the goods" on Stephen Denby, a young society man, who in reality has smuggled a valuable pearl necklace on his recent return from Europe. The situation here is Ethel's embarrassing dilemma between love for her sister, threatened with imprisonment, and love for Stephen Denby, whom she has met in Paris and whom she must betray to the implacable Taylor. Her love for Stephen prompts her to efforts to prove his innocence, while pursuing her search for the pearl necklace. To this end she enters his room at night and being surprised, finds herself at the mercy of Stephen, who, heart-torn by her apparent treachery yet loving her threatens to compromise her by keeping her locked in his room all night unless she reveals her motive for spying upon him. Having forced a confession out of her, he turns his attention to Taylor and after a series of exciting events, bribes the customs house grafter with \$30,000 cash to permit him to escape. Then happens an astounding thing. In the presence of Taylor's own deputies, Stephen suddenly turns upon Taylor and exposes his corruption, his acceptance of the bribe and general unfitness to represent Uncle Sam as a trusted employe, and by way of a theatrical apotheosis, reveals himself as the famous "T. J." who is spoken of all through the play as the champion sleuth in the Government Secret Service. "Under Cover" will be the opening play of the Klark-Urban Company at the Opera House next Monday evening. Seats on sale at Ryan's Drug Store.

MY TERRIBLE HACKING AND SPLITTING COUGH

WAS ENTIRELY CURED BY DR. WOOD'S NORWAY PINE SYRUP.

Mrs. Clara Jackson, Huntsville, Ont., writes us under date of January 12th, 1915. "I take great pleasure in writing you concerning Dr. Wood's Norway Pine Syrup. Last winter I contracted a very bad cough which troubled me all through the summer. This winter I started to take Dr. Wood's Norway Pine Syrup, and after taking three bottles I can truthfully say that I felt like another woman."

"The terrible hacking and splitting cough, and the dry sensation in my throat is entirely cured. I would certainly recommend it to anyone troubled with bronchitis or lung trouble. I have not words too grateful to give you."

All obstinate coughs and colds yield quickly to the action of Dr. Wood's Norway Pine Syrup, combining as it does all the lung healing virtues of the Norway pine tree, and the soothing, healing and expectorant properties of other excellent herbs, roots and barks.

"Dr. Wood's" has been on the market for the past twenty-five years, and we claim that it is the best cure for a cough or cold that you can possibly procure. The thousands of testimonials we have received prove that our claim is right.

All we ask you is to see that you get "Dr. Wood's" when you ask for it, and don't accept some no-account substitute.

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price, 25c and 50c.

Did You Ever Think

WHAT A PRIVILEGE AND COMFORT IT WOULD

BE TO HAVE A

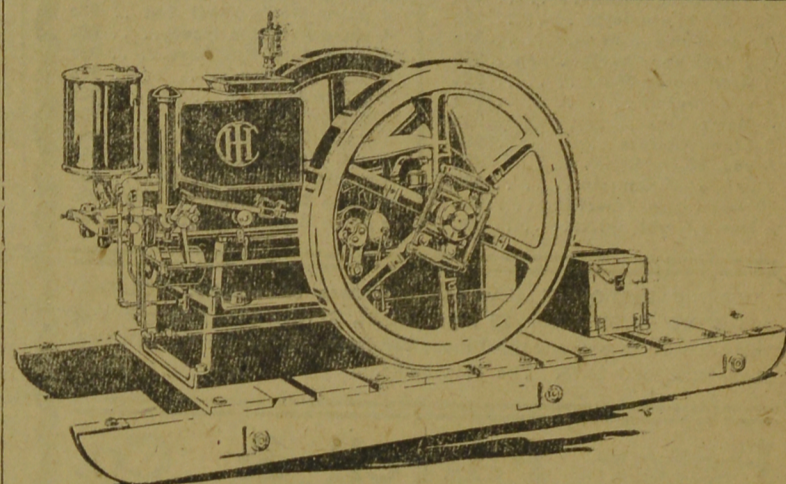

BATH ROOM

In your home? The cost is not so great that anyone in ordinary circumstances cannot afford it. We have installed several first class jobs in country homes. They can easily have a complete Bath Room put in, and no trouble with sewerage.

Information cheerfully given on this subject.

THE FIRST COST OF A

TITAN KEROSENE ENGINES

may be slightly more than some other gasoline engines, but the difference is far more than offset by the saving in fuel and batteries, the greater durability and power and the all around satisfaction in operating.

Kerosene costs 18½ cents by the barrel, Gasoline 33½ cents.

A gallon of Kerosene in a Titan gives as much power as a gallon of Gasoline. Figure out for yourself the saving in fuel alone and you will not buy anything but a Titan.

TITAN ENGINES are all equipped with a MAGNETO that does away entirely with the necessity of batteries.

TITAN ENGINES HAVE THROTTLE GOVERNOR, giving uniformity of speed.

The Printing and Publicity Specialist Talks To His Son

"Say, John, I feel quite sick today," said Mr. Blank. "Please visit the different doctors in town, and find out who will cure me for the least money. Get your quotations tabulated and then let me see them. Of course we will engage the doctor who charges the least."

"Why, I never heard of such a thing," said John. "The idea of getting quotations from a doctor; it's the asylum for you."

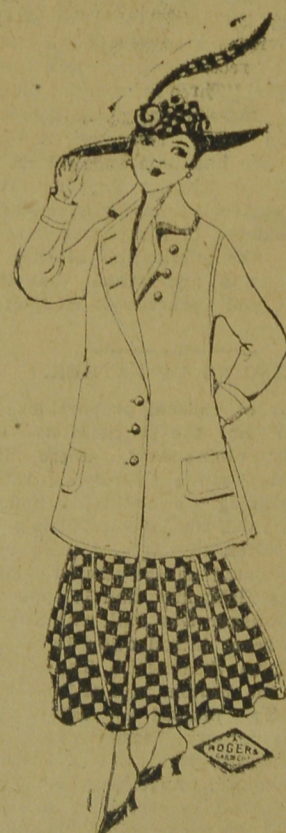

"Well now, why not? I am a specialist in printing and publicity. I study my business just as carefully as any doctor can do. If I do say it that shouldn't, I have just as much brains as the average doctor. I strive to give my customers the benefit of my knowledge, my artistic skill and judgement and my ideas on publicity. I give service as the term is understood in the Twentieth Century.

"When some people around here have a little printing to be done, they visit all the printing offices, get quotations from each one, and then give the work to the man who gives the lowest figures.

"The ordinary user of printing knows his own business, but he is no more a judge of the work of printing than he is a judge of what sort of medicine a doctor should give him for the cure of his ailment. If people ask me for quotations and pass me by if my price happens to be a little more than the other fellow, why shouldn't I apply the same method to the doctor, lawyer, dentist and painter? Why not? It's a mighty poor rule that won't work more than one way."
