WANT CLEANER POLITICS.

"I believe that we have arrived at a time when the people of Canada want cleaner politics. I have never believed it necessary to be dishonest in public life, while being honest in private life. I believe the people of Canada are looking for better things, and are expecting service from the public men, men who occupy positions of trust in the different. And never in the history of Canada has there been a more opportune season than while this struggle is on. Let us have cleaner politics and more honest business in the conduct of our public affairs."—Premier Norris, of Manitoba, at London, Ont.

MESSAGE TO YOUNG MEN.

"After a long life I shall remind you that already many problems rise before you; problems of race division, problems of creed differences, problems of economic conflict, problems of national duty and national aspiration. Let me tell you that for the solution of these problems you have a safe guide, an unfailing light, if you remember that faith is better than doubt, and love is better than hate.

"Banish doubt and hate from your life. Let your souls be ever open to the strong promptings of faith and the gentle influence of brotherly love. Be adamant against the haughty; be gentle and kind to the weak. Let your aim and your purpose, in good report or in ill, in victory or in defeat, be so to live, so to strive, so to serve as to do your part to raise the standard of life to higher and better spheres."—Sir Wilfrid Laurier at London, Ont.

LIBERALS AND THE WAR.

Mr. J. G. Turriff, Liberal M.P., whose only son was recently killed in action, contributes a letter to the Toronto Globe in which he replies effectively to some cheap talk about Tory loyalty which a small bore politician named McNaught recently got off at a Toronto gathering. Mr. Turriff in his letter says:

"In looking over the names of the members of the Opposition in the House of Commons occupying seats in the front rows, it is found that almost every man who has sons old enough to enlist has them at the front. Among them the following: Hon. Geo. P. Graham, only son at the front; Hon. Frank Oliver, both sons at the front; Hon. Dr. Beland, no sons, at front himself, a prisoner in Germany; E. M. Macdonald, M.P., only son at front; Robt. Bickerdike, M.P., son at front; E. B. Carvell, M.P., offered his services several times and refused, has no son, but his son-in-law at front; Fred Pardee, M.P., no son, brother at front; Dr. M. Clark, M.P., two sons and son-in-law at front; Wm. Power, M.P., his three sons at the front; H. H. McLean, M.P., both sons at front; W. S. Loggie, M.P., two sons at front and daughter, a nurse, at the front; Robt. Cruise, M.P., had two sons at front, one killed; Dr. Nelly, M.P., at front; W. F. Carroll, M.P., at front; J. G. Turriff, M.P., only son killed at the front. These names I give from memory and there are probably many other Liberal members who have sons and relatives on the firing line.

"As to the Senate, I am not so familiar, but remember that the Liberal leader, Senator Bostock, had a son killed in action. Senator Jas. H. Ross, Moose Jaw, had a son severely wounded in France. In view of these facts, what must respectable Conservatives think of the statements made by Mr. McNaught?"

IMPORTANCE OF PURE WATER.

A recent report by George A. Johnson, water supply expert, exposes some very interesting facts respecting water filtration. The great benefits and in many cases the urgent necessity of filtering the water supplied to communities is clearly recognized, but its vital importance can only be realized by a thorough investigation, supported by the convincing data contained in this paper.

The figures given are for the United States, but with due regard to proportion, apply with equal force to Canada. Mr. Johnson states that if the urban population of the United States were supplied with filtered or equally pure water 3,000 lives would be saved annually and 45,000 cases of typhoid fever prevented, representing in vital capital some \$22,500,000 annually, or the interest on an investment of \$375,000,000. In the United States an urban population of 30,000,000 persons is still supplied with unfiltered water; the cost of supplying filtered water to these, including fixed charges and operation of plants, would not be more than \$12,000,000 per year, or about one-half the present annual loss in vital capital due to non-filtration.

Twenty million people are now being supplied with filtered water at a cost not exceeding \$8,000,000, or 40c. per capita per year, and the results of water purification always show a big balance on the right side of the ledger.

In the United States, 300,000 persons suffer annually from typhoid fever and 20,000 die of it. Valuing the human lives lost at \$3,600 each, and allowing for lost wages and medical attention \$200 for each case of the disease, the annual toll from typhoid alone amounts to \$130,000,000.

Useful articles to have on the farm are buckets of water properly distributed around the barn. Fire buckets, with rounded bottoms, which, on account of their shape are inconvenient for general use, can be placed in a round hole cut in a shelf or bench; they should be covered and inspected regularly to assure their being kept full. To prevent freezing, two pounds of fused calcium chloride per pair may be used. The buckets should be painted red so that they will be more conspicuous, a constant reminder of the danger of fire.

The Winnipeg Free Press suggests that "now that Sir Robert has his pen in hand, why not write at least one more letter of dismissal?" The Free Press is longing for the return to the Prairie of its dear old friend, the "Honorable Bob."

King Alcohol is likely to have no end of trouble these days. William Jennings Bryan wants him shut out of the United States, while the Dominion Alliance would banish him from Canada. Even in Fredericton it looks as if the king was in for a strenuous winter.

New York World: It may run in the family. W. M. Hughes, of Australia, the Premier, was bumped by the vote against conscription. General Sir Sam Hughes of Canada is out.

Philadelphia North American: Mr. Hughes was right. He said that work would be scarce if Wilson won, and now he's out of a job himself.

New York World: It is said the Germans pay Belgians 8 cents a day for their work. Still the Belgians are better off than the Sing Sing convicts, who get only 1 cent a day.

Through Our Sieve

Awful slow work, savin' money for Christmas.

"To Find Where Money Went" It can't be done, Mamie, it can't be done.

Whaddya mean—do Christmas shopping early?—when the stores don't get down to business till nearly nine!

On account of it being leap year no one has yet complained of the high cost of loving.

It's no use—we gotta cut out this high-costa-livin' talk till we're done with Santa Claus.

Taking the advice of one's friends would be all right if the friends did not all advise different things.

It certainly looks as if one John Barleycorn and his exponents were in bad at police headquarters.

After a woman dreams that her shoe came off in a crowded street car and she had a hole in her stocking, she gets busy on the darnin' basket.

There are moments in every man's domestic career when he cannot decide whether she will be more pleased with a box of gloves or a pair of blue silk stockings.

The Belgians are being deported for their own salvation. If we remember rightly, it was to preserve them from the Allies that the Germans crossed the Meuse. Hard people to save, those Belgians.

PERSONAL

Senator Thompson is on a trip to New York.

Mr. and Mrs. William J. Scott returned this morning from a trip to St. John.

HAD INDIGESTION
Could Keep
Nothing on Stomach

Indigestion is one of the worst forms of stomach trouble. The stomach becomes upset and you have a raw, debilitated feeling in it.

After a meal you feel that you must get rid of that nasty, bilious, burning sensation; that souring and rising of the food which is so unpleasant and in many cases very painful.

It is not necessary for you to be troubled with indigestion when Burdock Blood Bitters may be so easily obtained. This old and well known remedy, which is a combination of nature's best roots, herbs, barks and berries, will cure indigestion and all stomach troubles.

Mr. Lazare Savoy, Pokemouche, N. B., writes: "About two years ago I was troubled with indigestion that had I could keep nothing on my stomach. I was sorely disappointed in everything I tried to relieve me. At last a friend advised me to try Burdock Blood Bitters. I took four bottles and can now eat anything that is set in front of me."

That grand old medicine, B.B.B., has been on the market for the past forty years, and we claim, without any fear of contradiction, that it is the best cure for all stomach troubles.

CANADIAN PARTICIPATE
IN IMPORTANT FIGHT

London, Nov. 21.—The following report has been issued by the Canadian War Records office:

Shortly after six on the morning of November 18, our guns opened a heavy barrage along the trenches opposite the Canadian positions and our troops went over the parapet.

The Germans promptly put up a counter barrage, but it proved comparatively weak and our men went through it with fewer casualties than were to be expected.

Our advance was on a front of about 3,500 yards. The movement was practically a swing forward of our left, pivoting on the right, and was everywhere successful.

In depth the gain varied from about 200 yards on the right to something under 1,000 yards on the left. The main or left portion of our objective was a strong line which our guns had been slashing heavily for several days before the attack.

The whole objective was quickly consolidated under the protection of our barrage, and was held securely except for a short stretch on the left of the point where the trench crosses the Pys road. At this point the line for several hundred yards passes over a knoll exposed to a destructive shell fire from the enemy's batteries.

The knoll proved to be a nest of machine guns. Our troops fell back beside the crest and established themselves.
