

WOMEN DOING THEIR BIT IN MAKING MUNITIONS

Big Output of Canadian Plants Largely Due to Their Cooperation---Loyal Women of Canada Assisting in a Great Cause---Lowest Wages Paid Them is \$2 per Day.

Montreal, Sept. 27.—An inspection of a number of big munitions plants here by some Ontario manufacturers under the guidance of the Imperial Munitions Board, proved a revelation, especially in reference to the great work being done by women.

That Canadian manufacturers are able to do as much as they are doing is due in a small measure to the manner in which the women have come forward and tackled work which ordinarily would be considered unsuitable for female labor.

And not only have they come forward in large numbers in a patriotic desire to assist in a great cause, but their work has proved amazingly efficient—so much so that in certain operations their labor is admittedly superior to that of the men.

It is believed that the output of many of the big plants would be materially increased if it was only realized to what an extent it is possible to utilize female labor. The work is not nearly so laborious as might be supposed, owing to the introduction of the most modern labor-saving machinery—and the remuneration is particularly good.

Good Wages Paid.

The lowest wages paid any of the women is \$2 per day, and many of them make as much as \$3.50 per day. After a certain minimum is reached the manufacturers pay a bonus, which stimulates the workers to put forth their best efforts.

At one plant visited yesterday some 200 women are engaged in various occupations on the heaviest shell now being made in Canada.

Care has been exercised in the classification of the women for the different operations, with the result that the large plant is running without any friction and the output is already going up. So much for the heavy work.

At another plant there are over 600 women and girls engaged upon lighter and more intricate work. Here, where the operations are more delicate and intricate, the more sensitive touch of the woman worker makes them admittedly superior to men, and their reliability from day to day is leading to good results.

Women Can be Utilized.

It was declared by several members

of the party that women could easily be utilized in munitions work if an adequate supply were forthcoming.

Time would have to be spent in organizing and in making the factory suitable for them to work in, as well as the training that would make them efficient not only in the handling of any particular machine or operation, but in making themselves familiar with workshop conditions, so that they would know the proper thing to do under all circumstances.

Increases Your Weight, Restores Lost Strength, Prevents Illness

Every day comes new converts to that great army of men and women who rejoice in new-found health that came to them through the use of that wonderful blood-renewing preparation called "FERROZONE." Very simple how it acts. All you have to do is to take two small chocolate coated tablets with a sip of water at the close of each meal.

Ferrozone is a marvel. It contains just what thin blood lacks—lots of iron, but mark you, the kind of iron your blood is able to absorb. Ferrozone puts life and vim into the blood. Makes it rich, red and nourishing. Naturally the body is better fed and it grows stronger day by day.

Of course digestion must be improved, and probably the stomach will require aid as well. Ferrozone serves the purpose admirably. Those who use it enjoy appetite and digestive powers far beyond the ordinary.

That tired feeling is replaced by the buoyant, joyous sensation of health and vigor. Day by day as your strength increases, you feel new energy surging through your veins, and know that a great tonic of great merit is at work.

No remedy more nourishing or uplifting, no treatment so sure to bring lasting health, good spirits and contentment. Ferrozone contains just what run-down folks need; it cures because it supplies more nutriment than you can get in any other way. 50c. per box or six for \$2.50, at all dealers, or by mail from The Catarrhozone Co., Kingston, Ont.

Some are judiciously silent; some are afraid to open their mouths; others keep still because they haven't anything to say and wouldn't know how to say it if they had. Each, in his way is wise.

There is no hope for the man who acts the hypocrite even when he is alone.

BOY BREAKS LAW

BY HIS 13TH

**Statutes of Two Nations Shattered---
Awarded Purse.**

(Boston Advertiser.)

There is a young man in East Boston, not yet two days old, who has started on the voyage of life under conditions which promise a full career and a fortunate one.

He has the distinction of having broken the law of two nations on the day he was born, and of being awarded \$50 for doing the same.

The lad was born to Mrs. Wallace Newell, of Cape Sable Island, N. S., as she was a passenger on the steamer Prince Arthur during the trip from Yarmouth to Boston. The boy was named Arthur in honor of the boat.

Before the steamer pulled out from Yarmouth the inspector declared that 700 persons were on board and not another person would be permitted to sail.

But some time around 2 a.m. Sunday the youngster arrived, making the 701st passenger.

The news spread among the passengers, and so enthusiastic were they over the event that a sum of \$50 was collected as a token of their esteem for the new arrival.

Upon the arrival of the steamer in port here Mrs. Newell and her son were taken to the new home on Falcon street, East Boston, which the husband had provided.

THE RACHEL OF BELGIUM.

One of the Most Tragic Figures of the Present Day.

A glimpse of Belgium's queen is found in a Scottish officer's letter to his mother. He was presented to "a little fair lady with a face full of soft womanliness and pale care," without knowing her identity, and found himself alone with her.

She only wanted to hear of two things—armies and soldiers. She talked of them with unassuming intimacy. She said that from the beginning of the war she had been moving about, always moving, never in one place. All the time I could see that she was repressing her feelings and was suffering brutally.

"Have you relations fighting, madame?" I asked, blunderingly. "All of my sons," she replied. "Those that have not already fallen."

"But, forgive me, madame, your sons must be children."

Her eyes filled. "My little ones are safe in England, but every Belgian, dead or fighting, is my son," she said. "I am Rachel, Monsieur le Capitaine, and I cannot be comforted. I can but try to comfort."

And then I stumbled on the truth that I was in the presence of the most tragic of living figures—Belgium's indomitable spirit incarnate in her brave little Queen. I think the sun got into my eyes then.

A PHILADELPHIA SENSATION.

Mystery Surrounds a Double Murder and Suicide in a Hotel.

Philadelphia, Sept. 27.—A score of detectives today were endeavoring to solve the mystery surrounding the sensational shooting of J. C. Graveur, president of the Alhambra Garage, New York, and his wife, in their apartment at a prominent hotel here early this morning by Mrs. J. C. Ledur, who afterwards committed suicide with the same revolver.

Graveur was killed and his wife is believed to be mortally wounded. No motive for the tragedy has yet been established.

BRITISH OFFICERS RELEASED.

Were Detained at Ellis Island by U. S. Immigration Authorities.

Washington, Sept. 27.—Release of Major Arthur S. Humphries and Lieut. Hugh Levick, jr., the British army officers detained at Ellis Island on their arrival from England, was ordered today by Commissioner General Minett of the Immigration Bureau.

SCHOONER IN COLLISION.

Was Bound From St. John to New York.

New Haven, Sept. 27.—Schooner Isiah K. Stetson, Capt. Hamilton, bound from St. John for New York, was towed into this port today waterlogged, having been in collision during last night on Long Island Sound, five miles east of Faulkner Island, with steamer Lexington of the Colonial Line.

A REVOLUTION IN CRETE.

Paris, Sept. 27.—Greek troops in Canea to the number of 4,000 have joined the revolution, according to a Radio Agency despatch from Athens. Only a colonel and a few other officers and 25 men are loyal to the government.

THAT MANY MEN OF

Military Age and Physically Fit ARE WANTED FOR THE

236th Overseas Batt. N. B. KILTIES (SIR SAM'S OWN)

WILL YOU BE ONE OF THE 1050?

To Surprise the lord of the household---

SERVE him a dish of the newest
food creation, NEW POST TOAST-
TIES for breakfast tomorrow.

It may be he hasn't cared for corn flakes; and you, too, may share in that belief from experience with the old-style, paper-thin kind.

But these new flakes are different. They don't depend on sugar and cream for their flavor. And they don't mush down when cream or milk is added.

NEW POST TOASTIES are made by a wonderful new process which brings out the true corn flavor. They bring you a new taste and a new breakfast delight.
