

## A CHILD'S TONGUE SHOWS IF LIVER OR BOWELS ARE ACTIVE

If Cross, Feverish, Sick, Bilious,  
Clean Little Liver And  
Bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without gripping.

When cross, irritable, feverish or reath is bad, stomach sour, look at the tongue, Mother! If coated, give a teaspoonful of this harmless "fruit laxative" and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach ache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters! said here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

## 3000 MEN LOST ON FRENCH TRANSPORT

London, March 3.—The Admiralty announces that the mine sweeper *Prima* was torpedoed and sunk on March 1 in the Eastern Mediterranean, while performing her usual duties.

All the officers and crew, except three men, were saved and landed at Port Said.

A German aeroplane returning from England was yesterday picked up by the French three miles north of Middelkerke Bank, off the Belgian coast, it was announced in an official statement issued this evening.

One of the observers of the machine was drowned and one was made prisoner. The seaplane dropped on Wednesday, the official statement adds.

### LOSS OF FRENCH LIVES.

Paris, March 3.—The following official communication was issued here today:

"A squadron of French aeroplanes at Saloniki were taken on board transports and afterward bombarded the cantonments and defensive works of the Turks at Bourouba and Bordorio, in the vicinity of Smyrna."

Paris, March 3.—It was announced at the French ministry of marine today that there were nearly four thousand men on board the French auxiliary cruiser *Provence* when she was sunk in the Mediterranean on February 28.

It was stated that on board the *Provence* were the staff of the Third Colonial Infantry Regiment, the Third Battalion, the Second Con-Second Machine Gun Company and party of the First Battalion, the one extra company, in all nearly four thousand men.

Perhaps the boy who plays marbles for keeps may be giving away libraries in after years.

An Ohio man is said to have invented a self-operating typewriter, but what most of us need is a machine that will do its own thinking.

It's always safe to name a baby boy William. If he becomes a good boy people may call him Willie, and if he doesn't they can call him Bill.

Spots on painted walls come off—easily—when you use

## "Chant Of Love" For Harvard

Cambridge, Feb. 28.—The current issue of the Harvard Illustrated Magazine contains a poem entitled the "Chant of Love," written by C. Hunt Jacobson, '16, which is a satire on the German "Hymn of Hate," written by Ernest Leissauer.

Jacobson is the same writer who was responsible for the poem published last spring at Harvard, "Gott mit Uns," which caused considerable comment in literary circles. The poem is as follows:

Dane and Bulgar they matter not;  
A smile for a smile, and a plot for a plot;  
We love them not, they love us not;  
We hold stern power their heads above.  
We have but one and only love,  
We hate as one, we love as one;  
We have one friend and one alone—  
—TURKEY.

He is known full well, he is known full well;  
He rules the Land of the Crimton Flood  
Rich in madness, in rage, in craft of hell,  
Cut by torrents of Christian blood  
Come, let us greet him, hand to hand,  
An oath to offer sublimely grand,  
An oath which consciences shall never shake,  
An oath which conscience shall never take.  
Come hear the word, repeat the word,  
Thru Kultur's citadels make it heard  
We will never repeat our love,  
We have all but a single love:  
We hate as one, we love as one,  
We have one friend and one alone—  
—TURKEY.

Take ye the robe of our God in pay  
With Kultur from Krupp your ram-  
parts lay;

Trample their towns to a Belgian slough;  
Ye are keen for the work, and we'll show you how.

Dane and Bulgar they matter not;  
A smile for a smile, and a plot for a plot;

We have fettered their arms with quill and steel,  
And the scars of our lash are slow to heal.

But you will we love with a kindred love  
We will never repeat our love.

Love in lying and treachery,  
Love of the cleaver and love of the Love in battle and butchery,

Love of a nation to hell brought down,  
We hate as one, we love as one,  
We have one friend and one alone—  
—TURKEY.

## ARE YOU PALE, ANAEMIC WHITE-LIPPED, THIN?

Anaemia means colorless blood—

means languor, blanched lips, faded cheeks. You grow dyspeptic, nervous, suffer functional irregularity.

This condition can't exist if there is plenty of healthy blood. Ferrozone makes good blood, rich nutritious blood—that's why it cures. In concentrated form Ferrozone contains

certain rare qualities that render it unailing in anaemia, languor, poor color and loss of weight. To build up—feel young and vigorous, nothing is better than Ferrozone. At all dealers in 50c. boxes.

IT DIDN'T WORK.

Member of the Touring Company—My good lady, the last place I stayed at the landlady went when I left.

Landlady—Oh, did she? Well, I ain't going to. I want my money in advance.

"Having a bum time?"  
"Bored to death."  
"So am I. Let's sneak away somewhere."  
"Can't. I'm the host."

## NEURASTHENIA THAT FOLLOWS LA GRIPPE

Rest and a Tonic is the Proper Treatment Distinguished Medical Authority Says.

There is a form of neurasthenia that follows la grippe. Doctors call it "post-grippal" neurasthenia.

One of the foremost medical authorities of New York City in a lecture in the international clinics, said:

"Broadly speaking, every victim of la grippe will suffer from post-grippal neurasthenia also. Lowering of nervous tone with increased irritability is the most striking effect of the disease, languor of mind and body, disturbed, fitful sleep and vague pains in the head and elsewhere. The treatment calls for rest and a tonic."

If you have had la grippe read those symptoms again: 'Languor of mind and body, disturbed, fitful sleep and vague pains in the head and elsewhere.' If you have any or all of them it means that you are still suffering from the effects of la grippe and that you will not be well and free from danger of relapse until

your blood is built up.

The treatment, says the distinguished physician quoted above, is rest and a tonic. Dr. Williams' Pink Pills, a non-alcoholic tonic, are particularly suited for building up the blood and strengthening the nerves after an attack of la grippe. The rich, red blood expels the lingering germs from the system and transforms despondent gripe victims into cheerful, healthy, happy men and women.

If you have had la grippe do not wait for a relapse or for the neurasthenia that so often follows gripe, but get a box of Dr. Williams' Pink Pills now from the nearest drug store and begin the treatment at once.

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail, at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## GOVERNMENT CAUGHT IN SHADY TRANSACTION

Mr. Turriff Charges That a Public Document Was Mutilated For Partizan Purposes.

Ottawa, March 3.—"When the Government undertakes a shady transaction of this kind, it should see to it that its tracks are covered up. The government made one mistake. It forgot to eliminate the index."

Such was the serious arraignment made against the administration by J. G. Turriff tonight. The member for Assiniboia charged that in order to injure F. B. Carvell and to assist Hon. Martin Burrell, Minister of Agriculture, who recently clashed in the House concerning hay contracts in New Brunswick, the government had recalled the issue of Dairy Commissioner Ruddicks' annual report and surreptitiously removed a page from it. This page, the member charged, commended the system and method of supplying hay at the time of the South African war, when Mr. Carvell, as a private citizen, was secretary-treasurer of a hay-purchasing company.

"This leaf has been deliberately cut out of the report and a new leaf put in," declared Mr. Turriff, who accused the Government of "mutilating a public document for partizan ends." But unfortunately for the government, the changing of the index was overlooked. Mr. Turriff reminded the House that when notices were first issued to the members that the original reports were issued, application at the distribution office was met by the strange and significant response that they were not yet available.

Hon. Mr. Hazen, acting Minister of Agriculture, replied that his information was that the page "contained references in connection with the war which it would be against government policy and the public interest to make public at the present time."

Mr. Turriff replied that he was not ready to accept the Minister's excuse. He was afraid the explanation given was not the right one. It was absurd to suggest that anything could have been put into the dairy commissioner's report that would give information to the enemy.

Mr. Carvell's Challenge.

Mr. Carvell declared that Hon. Mr. Hazen's silence was ominous. Mr. Turriff had put the proposition to him "pretty straight." "He has told the Minister that he does not believe the truth of the explanation he has given the House," commented Mr. Carvell. "Everyone knows that a man of the ability, knowledge and good judgment of the commissioner would not submit a report inimical to the interests of the country or of help to the enemy."

Mr. Carvell described the procedure as "garbling a public report and mutilating an official document." The New Brunswicker stated that he hoped to deal more fully with the matter of hay purchases in New Brunswick on the return to the House of the Minister of Agriculture, but he was glad to know that Hon. Mr. Hazen, who was primarily responsible for the situation in New Brunswick, found he "could not keep the lid on any longer," and had been forced by public opinion, even within his own party, to give a purchasing contract to another firm and thus provide fair competition.

As to the Minister of Agriculture's attack upon himself, Mr. Carvell said he would deal with it at the proper time. In the meantime, while he had pleased the Conservatives in the House by it, "he has made himself ridiculous in New Brunswick, where the facts are known."

Hon. Mr. Hazen stated that Mr. Carvell's discussion was out of order. As to the alleged garbling of the report, the Minister stated that he could say

that the suspicions of Mr. Turriff were unwarranted, and that the leaf taken from the report had nothing to do with contracts for hay.

"I make this statement," added Mr. Hazen, "on the information given me by officials of the department."

Liberal members from the Maritime Provinces have complained that although the embargo on potatoes going into the United States had been removed, the regulations regarding inspection at the American port of entry were so onerous that they almost constituted an embargo. Mr. Carvell also said that there was a lack of Canadian inspectors this year, while last year they were to be seen all over the country.

"It was a godsend to the small office hunters," he said. "If any man was kicking over the traces the party just appointed him a potato inspector. He got a good salary without any responsibility."

### On Experimental Farms.

Ottawa, March 3.—The Commons spent today in supply on the agricultural estimates, the discussion dealing mainly with the value of the work done at the experimental stations, and the illustration farms.

Frank B. Carvell said that the experimental station at Fredericton had cost \$100,000 altogether and this was comparatively out of proportion to the educational value to the farmers of the district. He said that not 500 farmers a year would come to get the benefit of the experimental work done there. Instead of squandering the money in the wrong place it should be spread out where it would do more good.

Hon. J. D. Hazen, acting Minister of Agriculture, in the absence of Hon. Martin Burrell, replied that the farm at Fredericton was well situated, contained some good land, was doing excellent work of an educational character.

A. B. Copp, Westmorland, complained that the expenses of running the experimental farms were greater than the revenue derived from them.

Hon. Mr. Hazen replied that the farms were not run for commercial purposes but for their educational value to the farmers.

## Grand Complexion Improver! Better Than Cosmetics

"When it's so easy to bring back the bloom of youth to faded cheeks, when skin disfigurements can be removed, isn't it foolish to plaster on cosmetics?"

Go to the root of the trouble—remove the cause—correct the condition that keeps you from looking as you ought to. Use Dr. Hamilton's Pills and very soon you'll have a complexion to be proud of. How much happier you'll feel—pimples gone, cheeks rosy again, eyes bright, spirits good, joyous health again returned. Never a failure with Dr. Hamilton's Pills, get a 25c. box today.

### POINTED PARAGRAPHS.

Moles and poor physicians are easily traced by the holes they leave in the ground.

The mechanical windmill is a worker—the human windmill isn't. That is the difference.

Children make sweet music in a home until they get big enough to take piano lessons.
