WAR BARONS
MUST GET OUT

London, Oct. 13. — Discussing the possibility of permanent peace after the war, Lord Robert Cecil, minister of blockade, told the Associated Press yesterday that Great Britain, France and the United States must find some way of exterminating the German "war baron" class which finds war a profitable business and spends its peace time energetically inciting war. "The central powers have been kept in the war so long," said Lord Robert, "not merely by the German military caste but also by the classes who get rich out of war—the vultures of commerce. The military caste of Germany we shall convince by force of arms, but the commercial vultures we must attack in their ports and teach them that war is not a profitable business."

"That is partly the business of blockade, but a blockade by itself will not do everything. We must go farther and cut off overseas branches of the war barons in the far east, South America and elsewhere."
