## RECRUITING IN UNITED STATES STILL PRODUCES RESULTS

**Lt. Col. Guthrie Expected Tonight--236th Pipe Band Will Not go on Tour in States--Depot Here To be Closed on the 15th inst--Draft went to Valcartier Last Night.**

Lt. Col. P. A. Guthrie, the Officer commanding the 236th Kilties Battalion will return to Fredericton this evening from the United States, where he has been carrying on such a successful campaign for his battalion. He is in St. John this afternoon conferring with General McLean. Recruits who had been enlisted in Boston came to Fredericton today. It was the smallest number that has arrived here in any one day in some weeks. This was due to a change that has been made in the location of the recruiting headquarters in Boston.

**Registration Aiding Recruiting.**  
There has been no lull in the recruiting for the British or Canadian forces in New England. Although work has been carried on for the past two weeks or more without a band or anything else in the way of an attraction, recruits were still coming forward at the rate of more than 50 per day. It is but natural that there should be a generous response to the call inasmuch as this was the first opportunity that had been given British subjects residing in the United States to enlist. The big results were no doubt due partly to the fact that it was generally known throughout the United States that details of a plan whereby all British subjects in America would be conscripted, was being put into effect.

**Pipe Band Not for Tour.**  
Yesterday Capt. J. D. Black, who had charge of the publicity and other outside work for the Kilties campaign in the United States, returned from Boston. He was accompanied by a party of sixty-five recruits. Capt. Black was asked as to plans for the proposed

recruiting trip to New York and Chicago, and stated that while application was made by the British Mission to have the 236th recruiters and pipe band spend most of the month of July on the proposed trip, it was understood that inasmuch as the Kilties' ranks would then be filled, Ottawa had decided to send the brass and pipe bands of the 48th Highlanders of Toronto on this tour instead of the Kilties.

**General McLean's Inspection.**  
Brigadier General McLean, General Officer Commanding Troops in New Brunswick, was in Fredericton yesterday inspecting the Kilties' depot here, and left for St. John last night. The General inspected the various barracks as well as the parties of recruits that had arrived during the past few days, and last evening he looked over the draft of one hundred men who left here fully equipped for Valcartier camp where the main body of the battalion is now in training.

**Change Announced.**  
Heretofore recruits have been coming to Fredericton for other units as well as the 236th, but after this date only recruits for the Kilties will come to Fredericton, as instructions have been issued that all others will go from Boston direct to Aldershot, Nova Scotia, via Yarmouth. It is expected that between now and the 10th inst. about 400 more recruits for the Kilties will arrive here. Expectations are that the depot in Fredericton can be closed about the 15th of this month. Another draft will go to Valcartier on Wednesday night, and a further draft will go forward Friday night.

## MUNICIPAL COUNCIL IN SEMI-ANNUAL SESSION

**Met This Morning and Adjourned Until 2 p. m.--Addressed by Rev. Dean Neales and Warden Neill--Vacancy in New Maryland's Representation on Account of Death of Coun. Alex. Haining.**

The semi-annual session of the County Council of the Municipality of York, opened here this morning with Warden A. B. Neill of Gibson, presiding. On account of the absence of several of the councillors who were to arrive at noon adjournment was made until two o'clock after prayers by Very Rev. Dean Neales and brief addresses by him and by Warden Neill.

**One Vacancy.**  
The County Council sits at this session with one vacancy, Coun. Alex. Haining of New Maryland having died since the last session. On account of the bi-ennial election taking place in September next it was not deemed advisable to hold a by-election.

This session also is the last for Coun. Hanford Sloat, who has represented the parish of Bright for four years. Coun. Sloat has purchased a farm at Richmond, Carleton county, and will reside there in future.

**Officials in Chamber.**  
The office of secretary-treasurer having been divided, Mrs. A. O. Glenn, the treasurer, and Mr. G. T. Feeney, secretary, each has a seat in the chamber in order that the business may be more rapidly transacted.

**Address by Dean Neales.**

On the council being called to order by Warden Neill, prayers were offered by Rev. Dean Neales. On the invitation of the Warden, the Dean delivered an address. He referred to the terrible

war now completing its third year, The entrance of the United States into the struggle he felt would in time have a decisive effect on the result. The members of the York County Council would continue to do their duty in the struggle as they had in the past. Let all hope and trust that the deliberations at Ottawa on the question of conscription would result in a knock-out blow for the enemy.

The question of food control was the most important in connection with the war. The food controller had sent out a message from Ottawa that economy must be practiced. Nothing could be of greater importance in New Brunswick than increased production of food. Perishable goods must be consumed or preserved in New Brunswick and the non-perishable shipped out.

The Dean said that if he had the pleasure of addressing the Council at another session in six months' time that the news of the war then would be of the most cheering nature.

**Warden Neill.**

Warden Neill extended his best wishes to the councillors. Dean Neales had referred to the situation in which the Dominion of Canada found itself. Hearts must bleed for those in the trenches.

It was regrettable that conditions similar to those existing in Quebec had come to pass. Members of the Parliament in that province had been

## THE COAL SHORTAGE

**T**HE anticipated shortage in hard coal affecting thousands of Canadian homes may become a reality next winter if consumers delay their orders to the dealers till fall.

This is the opinion of railway men who say that while they are doing everything possible to assist Mr. C. A. Magrath, Controller of Canadian Fuel Supply, the co-operation of the consumer also is necessary to meet an undoubtedly serious situation.

The hard coal used in the east for the average furnace is imported from the United States, and the problem of supply is largely a problem of transportation. Owing to the shortage of labor and a very hard winter, the Canadian Railways last year faced a severe congestion of traffic, which was accentuated during the winter months by the demand for furnace coal.

In order to prevent if possible a similar condition next season, the railways are concentrating every effort on the supply of coal-carrying equipment. The Canadian Pacific, for instance, has decided to adapt at once and concentrate a considerable portion of additional freight equipment for coal haulage, increasing its capacity during the next six months by cars capable of hauling over a million additional tons during that period. It is withdrawing a large number of cars from other services, is adapting other types of cars, and has just put into force a new rule under which every foreign coal car is at once returned empty to the mines.

for fresh coal instead of being delayed by loading with return freight, although this move means added expense.

Within a few days the coal merchants will thus have prospect of rapid deliveries, but unless consumers co-operate by giving their orders to the merchants now for their winter supplies, then unloading cars quickly, the congestion experienced last winter will be accentuated and prices may rise to unheard of heights. Consumers are also recommended to be exceptionally careful in the use of coal, avoiding waste and burning wood where possible. The merchants themselves are also being asked to co-operate by having cars loaded to the maximum capacity and by promptly unloading the cars as soon as received, thus releasing them for further service.

The situation apparently is more serious in the East than in the West, owing to the accepted use of box cars in the latter territory. The supply of the open cars required in the east is, however, limited, and unless deliveries are spread more than they have been over the summer months by the recommended co-operation of consumers, the approaching winter will come with tragic force upon the Canadians in Ontario, Quebec and the Maritime Provinces.

The coal, according to Mr. Magrath, is available. The cars, according to the railways are coming—but will carry the coal only if the orders are known before winter puts on the brakes.

threatened with the destruction of their lives and property if they would not vote against conscription. However there appeared to be a break in the clouds and the formation of a coalition government would no doubt carry Canada through these troubled times.

## POST MURTEM

(Continued from page 8.)  
Sunday, June 24th, Francis was at French Village with Robert Brooks, also of St. Mary's. Both were intoxicated. They wanted Isaac Paul, another Indian, to take them to St. Mary's in his motor boat but Paul refused as his boat was filled. The two were quarrelsome and Brooks struck at Paul who got away leaving Brooks and Francis to come in a flat bottomed boat. Sunday night Brooks was seen paddling the boat with his hand near the pumping station. He was alone and when brought ashore could not tell what had happened Francis. At the time it was thought that Francis had been drowned and search for him has been made since.

Relatives of the drowned man arrived from French Village today and wish to take the body back for burial.
