SHALE PRODUCTS PLANT AT CHIPMAN OPENED SATURDAY WITH APPROPRIATE CEREMONY

Chipman, Aug. 18—What was termed the dawning of a new era in the industrial life of Chipman and vicinity was ushered in here yesterday when the formal opening of the new shale products plant of L. E. Shaw, Ltd., took place. The opening was marked by the gathering here of representatives of the government and architects, builders and others interested in industrial matters. A feature was a banquet held on Saturday evening by the company to the visitors and its staff and employees.

During Saturday afternoon many availed themselves of an opportunity to inspect the plant and the opinion was expressed that it was one of the most modern of its kind. The various processes through which the shale passed until it became the finished product were explained by officials and followed with interest by the visitors.

In the evening about 100 were guests of the company at a banquet in Hay's Hall, which was marked by speeches of a laudatory character of the initiative shown by L. E. Shaw in promoting the plant. Mr. Shaw presided and a short address of welcome was made by R. B. Curry, publicity representative of the company. Among the out-of-town guests present were: Hon. C. D. Richards, Minister of Lands and Mines, Fredericton; Hon. George B. Jones, M. P., of Apohaqui; Garnet W. Wilson, architect, and Sheriff A. A. Wilson, Saint John; Fred Ryan & Co., Ltd., Fredericton and W. Minue, architect, of Fredericton; C. W. Stairs, managing director of the N. S. Clay Works, Halifax; H. W. Phinney and A. W. Robb of Halifax; Mr. and Mrs. F. E. Cox, of Middleton; and Mrs. Austin Huntley, of Hamilton, Ont., as well as various officials of the company.

Hon. C. D. Richards

The first speaker was Mr. Richards who said that there had been much talk about the new industries and they were meeting here today to join in the formal opening of a new industry. The province should feel grateful to Mr. Shaw and his organization that brought this industry into being. Several difficulties had been overcome and he felt the enterprise would now go on to success. It was something to take the shale which had been practically useless and turn out fine brick. He paid a tribute to D. Benton Evans, M. L. A., Minto, for the efforts he had made in having the plant established. While the lumber industry was not altogether gone, we must look to other fields and industries to take its place, he said.

In conclusion, he wished the company every success and said that the government would be glad to co-operate in any way that it could.

Hon. G. B. Jones

Hon. Mr. Jones, in a short address told of his early life in Chipman. He spoke of the advantages of Chipman as an industrial centre and said that the province needed more industries. Only a few years ago bricks were being brought in from Quebec. Now bricks from Chipman made out of shale were being used. More industries should be established and he said that the money spent on immigration should be used to aid industries so that the young men of the province would have plenty of opportunity and stay at home. He congratulated the people of Chipman on the new plant and wished the company every success. He also paid a tribute to the class of workmen at the plant.

H. W. Phinney, of Halifax, vice-president of the company spoke of his pleasant trip from Halifax and the beauty of New Brunswick scenery. He brought up the question of competition and said that they would work with other companies not as competitors but as associates.

Mr. Shaw, in introducing the next speaker, said that he was glad to see his fellow manufacturers present. He was not undertaking to interfere with established lines of trade. There would be plenty of business for his plant if architects would send their inquiries to Chipman instead of out of the province. There was a place in the Maritimes for all and he wanted to see Maritime dollars kept in the Maritimes.

Development Seen

The opening of the new plant would tend toward a really big development here, said Cyril W. Stairs of Halifax the new speaker. The manufacturers should get together as there was an enormous opportunity to develop the use of brick and tile and there would be reasonable profit for all. He predicted success for the new plant and all plants in this line of business. There was a new way of doing business now when a manufacturer invited his competitors to come and see his plant.

Mr. Mundle

F. S. Mundle expressed his pleasure at being present and spoke of the fine organization that had been built up of young men. He extended an invitation to those present to visit the Ryan plant at Fredericton. Fred Ryan spoke in similar vein. He wished the plant success and spoke in a laudatory manner. Esmond Alexander, manager of the King Lumber Co., spoke for the residents of Chipman. He told of the benefits of the plant to the community and extended to Mr. Shaw and his associates a welcoming hand to the industrial and social life of Chipman. A. W. Robb of the Halifax Herald, said that industry was the backbone of the province. A. G. Clinch, news representative of The Telegraph-Journal, also spoke briefly.

Mr. Evans

It was predicted by W. Benton Evans, M. L. A., that the new plant was only a start and more would come. He told of his efforts to have the shale tested for brick manufacture. People formerly would not become interested as they had not enough faith in the Maritimes. Today it was a different story and people had more faith in these provinces. He spoke of the possibility of other products beside brick and tile being made from shale. Tests had shown it suitable for pottery, terra cotta ware and other clay products. He hoped the present plant was only a beginning of what was to follow. He told of the industrial advantages of Chipman and Minto, with excellent transportation facilities. There was a lack of cheap electric power, but he expected this to be remedied before long.

In bringing the gathering to a close Mr. Shaw congratulated the Cinderella Club for the excellent catering. During the evening, vocal selections were given by David Staples of Fredericton, and piano and comic songs by Robert Rankine.

FOREST FIRE DANGER ALMOST MINIMUM

(Continued from page eight)

was a minor conflagration in Kent County. In general the north of the province is moist and reasonably safe but reports indicated a lowering of humidity, and rain is on one to plentiful.

The situation at present is almost analogous with conditions at a corresponding date last year. No fire of any proportions occurred after the 20th of August.

Died on Sunday

The death occurred yesterday morning at Burt's Corner of Annie Augusta Allen, aged 73 years at the home of her daughter, Mrs. Milton Jones, following a short illness. She is survived by one son, Milton Douglas; one daughter, Mrs. Welton Jones of Burt's Corner, with whom she resided; and one brother, Andrew Duplissea of Massachusetts. Deceased was very well known and highly respected by everyone who knew her. The funeral took place this afternoon from the late home at two o'clock and was attended by friends and relatives. Rev. H. A. Cooke conducted the service and was assisted by Rev. W. P. Stiles. Interment was made in the cemetery at Burt's Corner.

Mr and Mrs. Thomas Ackerley, Miss Margaret Howard, Ronald and Roy Black, all of St. John, spent Sunday in this city the guests of Mr. and Mrs. John Toner, Westmorland St.

Mr. and Mrs. F. E. Dyer of St. John are spending a few days here the guests of M. R. J. W. Briggs.

THE STOCK MARKET STILL VERY ACTIVE AND STRONG

Call Money in New York today continued at eight per cent and the market was bullish. Tel. and Tel. sold up to 298¼, C. P. R. to 233, Consolidated Gas to 180, Union Pacific to 289 and U. S. Steel to 242.

On the Montreal Exchange, Nickel was the market leader, selling up to 52½. Brazilian had a fractional decline, but Montreal Power and Shawinigan were steady.

Caught Fish by the Tail

Mr. Thomas W. Davidson, a well known local angler caught a six pound grilse by its tail at the Hart's Island pool, on Saturday afternoon. The fish rose to the fly and missed it, but it struck the line which formed a loop around the base of the tail and held fast. The fish started off with a rush, but its rudder being out of commission it soon fagged out and was brought to the gaff by Raymond Currie who chanced to be nearby. On examination it was found that the line was held in place by the fly and had cut into the flesh.

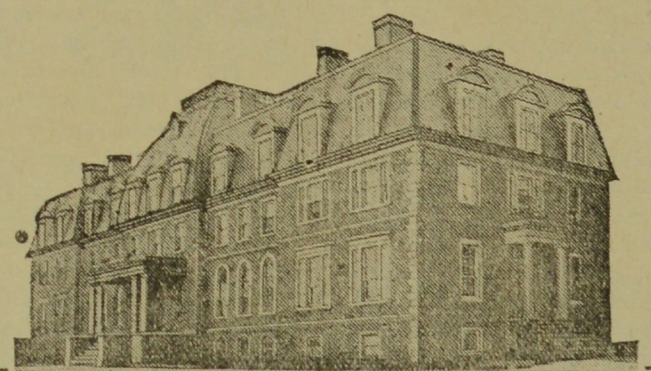

Twenty Days

Merritt Rollins, Minto man, was sentenced to twenty days in jail, when he appeared before the magistrate of that place on a charge of operating a motor vehicle while under the influence of liquor. Rollins was arrested in Minto by Provincial Police officers and brought here last night and taken back to Minto this morning for hearing.

Miss Burrill of Montral is the guest of Mr. and Mrs. J. S. Scott.

Fredericton Exhibition TENDERS!
