PROHIBITION IN N. S.

While the sister province of Nova Scotia is under prohibition the people of that province are not all prohibitionists. Evidence of this is furnished by the following extract from a letter which recently appeared in The Halifax Chronicle over the signature of D. R. Rafuse:

"Under this (prohibition) Act drinking all over Nova Scotia has increased 1000 p. c. You may take any community as an example. Before "Prohibition" those who wanted it, could get a drink, perhaps some could buy a bottle. Today the question is: "How many kegs." Before "Prohibition" some men drank, a few to excess. Today men, women and children are drinking, and to excess. There is no question about this. No use in arguing it. Everybody knows it. Dr. Grant, the clergymen, the W. C. T. U., Social Service, etc., move in narrow grooves. They do not come in contact with the people, or if they do, they see only one side. There is no doubt in the world that among Dr. Grant's most intimate friends and associates, are many bootleggers, rum runners, etc. There can be no doubt of this.

"I've known men intimately for years, had no suspicion of them, no reason for suspicion, and then suddenly found that they were deep in the game, and making a fortune at it. I am not blaming Dr. Grant or his Council, they simply do not know what they are up against.

"Dr. Grant must get the idea, the right one, that there is one thousand times more liquor drunk today than there was ten years ago, and that the N. S. T. A. is simply making criminals of 90 p. c. of our Nova Scotia people. The Act was put over in a period of thorough organization on the one side, and apathy on the other.

"If Dr. Grant really thinks that a minority of the people of this Province are violating the law, and that the majority believe as he does, let him submit it to another plebiscite. The bootlegger, rum runner, etc., will vote with the "Temperance" forces. Extremists is a better name, but even at this nefarious Act could not again be put over."

It would seem from the above that prohibition in Nova Scotia is as great a failure as it proved to be in New Brunswick and other provinces of Canada.

The York Municipal Council at its opening session unanimously elected Coun. J. G. Douglass of Stanley to the office of Warden. The retiring Warden, Coun. Fred Seymour of Douglas, gave close attention to his important duties and rendered the County good service, and in Warden Douglass he has a worthy successor. The Mail joins with the many friends of the new Warden throughout the County in extending hearty congratulations on the honor conferred upon him.

It has been said that he is twice a conqueror who conquers himself in the moment of victory. It takes brains as well as skill and prowess to win that sort of victory. It is so easy to gloat, to be patronizing, to be in some fashion immodest in the presence of victory. Gentlemen are as much indicated by their manner in victory as by their attitude in defeat.

A member of the Pittsburg police force believes that the stocking is still the woman's safest bank. She can't leave it lying on the counter or dangle it upon her arm. True. But does the present length of skirts make the stockings a hiding place? perhaps that consideration is not important. Money there would be inaccessible.

A sarcastic publicist says that women's idea of economy is to spend less money for food and more for clothes. Well, what about it? Any fair-minded doc whose ethics override his mercen

ary proclivities will tell you its good sense at that.

Winter vacations in the South are bringing into use a new slogan in substitute for Greeley's "Go West, Young Men," says a Georgia paper. The new one is, "Go South, Old Fellow."

Someone asks what John L. Sullivan ern girl is that she isn't afraid of anything. Oh she isn't, eh? Well, tell us, please, where is the one that isn't afraid of being out of style?

Persian brides are said to be ignorant on the fine points of house-keeping, but in what regard does that set them apart from brides in other parts of the world today?

A new invention, the golfometer, when attached to a golfer's wrist, records every stroke. The next problem is to get it attached to a golfer's wrist.

Someone asks why John L. Sullivan would think of Tunney's spats. He would probably borrow them, being himself one of the heaviest dressers of his time.

The girl who talked 92 hours in New York for a prize she didn't get is not married, so obviously she got her practice elsewhere.

"It costs \$3 a quart to send winter strawberries from the South by air mail," when they arrive you have winter strawberries.

No camera is fast enough to get a picture of some of those bathing beauties getting into the water at the Florida bathing beaches.

In regard to New Year's resolutions, the Office Cynic says he has no bad habits he would care to be without.

Annual warning: If you still wonder what the gift is, it is an incense burner.

Naturally the Princess who has been granted three patents is accustomed to receiving royalty.

What are we supposed to do at this time with a pocket book received at Christmas.

It is women who have the skin they love to touch up.

THE YORK MUNICIPAL COUNCIL

(Continued from page one) progress had been made in fighting the disease.

Praises Filtration Plant.

In referring to typhoid fever he said that the disease had been stamped out of Fredericton by the inauguration of a modern sewerage system and a filtration plant at the water works pumping station. The filtration plant he went on to say, was one of the finest in the Dominion and he hoped that members of the council would pay a visit to it. At present there was not a case of typhoid fever in the County of York. The Chinese method of keeping well was certainly being adopted in New Brunswick.

The doctor told of the steps taken by the Health department to stamp out venereal diseases and cited a case in Victoria County which had come under his notice where prompt action had been taken and the spread of the disease checked. Members of the Provincial Police force had cheerfully cooperated with him in carrying out the regulations to prevent the spread of venereal diseases.

In conclusion he reminded the council that the Board of Health had large powers and was thoroughly in earnest in its efforts to prevent and stamp out disease. The doctor's practical address was listened to with great interest.

The Doherty Case.

It was moved by Coun. Hanson and seconded that Coun. J. F. Doherty be granted leave of absence.

The motion was put by the Warden and declared carried after a few desultory nays.

On motion of Coun. Whipple the Council separated until two o'clock.

When a woman gets tired of talking to no one but her husband and neighbors she joins a club.

GOOD RADIO PROGRAM TO BE ON THE AIR

The following are the best features in Wednesday's radio program:

Palmolive Hour—WEAF network.
