ANTI SMUGGLING CONFERENCE NOW GOING ON AT OTTAWA; WOULD STOP BOOZE TRAFFIC

Ottawa, Jan. 8—Canadian delegates to the Canada-United States anti-smuggling conference at the initial meeting today intimated their intention to recommend to the Dominion Government rejection of a suggestion by the American representatives that Canada should refuse clearances to vessels carrying liquor to the United States. Official statements were issued tonight on today's proceedings by delegates of both countries. The conference is to be continued tomorrow morning.

In dealing with the proposal voiced by the United States representatives for the refusal of clearances to vessels conveying liquor to the American republic, the Canadian statement reads:

"In connection with the suggestion for the refusal of clearances to vessels carrying liquor, attention is called by some members of the Canadian delegation to certain administrative difficulties which might arise, particularly by the driving of the export of liquor under cover and diffusing it over wider border areas. A further exchange of concrete illustrations was given showing the length to which the people interested in the liquor traffic had gone to get their consignments.

Would Stop Traffic.

For the United States delegation,

Admiral F. C. Billard said the proposal to refuse clearances simply purported to provide "that Canada and the United States will refuse to allow their instrumentalities to be used by persons engaged in breaking the laws of one or the other two countries." If vessels of less than one hundred net tons, he proceeded, were prohibited from engaging in the transportation of liquor from ports in Canada to the United States probably the greater part of the traffic between the two countries would be suppressed.

Quotes Examples.

Other countries, Admiral Billard stated, by treaty or unilateral action refused to clear shipments of prohibited merchandise to the American republic without feeling that they had in any way assumed the burden of enforcing United States laws. For instance, Great Britain and Norway had agreed not to clear shipments of liquors to the United States; while restrictions on the export of alcoholic liquors had been imposed by several other countries.

The United States delegation, he continued, was not present to ask Canada to assist in the enforcement of American laws, but for a frank and informal discussion of the problem of commercial smuggling.

GUIDES LEAVE ON THURSDAY FOR BOSTON

(Continued From Page Eight.)

William T. Griffin of Cross Creek, W. H. Allen of Penniac, Arthur Pringle of Stanley, Raymond Currie of Fredericton, Jack Ogilvy of South Tilley, Burton S. Moore of Andover and Cornelius S. Imhoff of Bathurst. Mr. Griffin is President of the N. B. Guides' Association and specializes in salmon angling on the Miramichi. Mr. Currie also specializes in salmon angling on the Miramichi and St. John rivers. Mr. Allen is the lessee of Cain's River a noted salmon and trout stream. Mr. Pringle now holds first place in New Brunswick as a hunter of big game. Mr. Moore is not only a successful guide, but has achieved fame as a naturalist. His splendid collection of moving pictures depicting the fauna and wild life of the province will be exhibited at the show and will be an outstanding feature.

The show opens on January 16th and will continue for ten days.

FUSILIERS WON FROM SUSSEX 5-4

Sussex, Jan. 9—Climaxing two periods of brilliant hockey with a dogged 20 minutes of defensive work, the battered Saint John Fusiliers rode somewhat raggedly to a 5 to 4 victory over the Sussex Colts here tonight. Charles Wilson, Fusilier goalie extraordinary rose to the pinnacle of his hockey career to hold the desperately attacking Colts in the final hectic session, turning back shot after shot and holding the citadel intact in the face of a barrage of rubber that threatened to beat him into submission.

Referee Frank Brown was a storm centre on several occasions, his decisions arousing the ire of both teams. Each team had one disputed goal allowed and several times an otherwise thrilling game of hockey resolved itself into a long distance debating contest as the opposing aggregations gathered around the harassed official and poured their tale of woe into his ears.

A Liberal Gathering.

Mr. T. W. Caldwell, ex-M. P. for Carleton-Victoria, was the host at a supper tendered Liberal party workers and others at a local restaurant last evening. About forty persons were present including several members of the York Municipal Council. Mr. Caldwell spoke on organization work and there were short speeches by P. J. Hughes, K. C., C. R. Hawkins and others. It was a family gathering and with plenty to eat good feeling prevailed.

FLU MENACE EASED UP DURING PAST FEW DAYS

(Continued From Page Eight.)

of the inspection evidently is satisfactory. The board officials now are of the opinion that the epidemic has passed its peak and the coming of colder and more seasonable weather will probably aid in bearing out this prediction.

Should any further outbreak occur in the near future the Board of Health will take immediate steps to halt the spread, and the schools, the theatres and other places will be closed down until the epidemic has subsided. However, there seems little probability of such a renewed outbreak, and optimistic views are held with regard to the situation.

MAKES GREY HAIR BROWN

New York, Jan. 9—John Armstrong Chaloner, author of the famous phrase "Who's Looney Now?" was satisfied today that he had successfully demonstrated how to turn gray hair into brown.

Chaloner came to New York from his home in Virginia especially to demonstrate his discovery. This consists of gazing intently into a piece of black walnut while vigorously brushing the hair. He said he has been doing it for 15 years and that his hair remains brown for several hours after each treatment.

Here's how he explains it: The color of the wood enters the eyes and penetrates the skull and the roots of the hair, which becomes after a quarter of an hour of the treatment a dark brown.

Reporters before whom the demonstration was given have another explanation. They said the vigorous brushing causes the inner surfaces of the hair, which normally are darker, to cover the outer surfaces. But they admitted, to Chaloner's satisfaction, that his trick works. His hair at the conclusion of the test was a shade or two darker.

Chaloner gained wide publicity when after escaping from New York where he had been adjudged insane, he sent a telegram reading "Who's looney now?" to his brother, Bolen Chaloner, upon the latter's marriage to Lina Cavallieri, opera singer. Chaloner later was declared sane.

Mr. C. L. Sypher, secretary of the Fredericton Exhibition Limited, is confined to his home by illness.

Mr. Oscar Morehouse, who has been spending the holidays at his home at Upper Keswick, has returned to Montreal to resume his studies at McGill University.

BRAZILIAN AND NICKEL WERE ACTIVE IN MONTREAL TRADING

The stock market today displayed a little more strength on a heavy volume of trading although the bear element is still active. Radio was off to 363 in New York and General Motors to 197. Railway stocks displayed some strength, C. P. R. selling up to 238½ and Union Pacific to 219. In Montreal Brazilian and Nickel were the active leaders, the latter recovering some of yesterday's losses.

The Stock Quotations.

Quotations furnished by McDougall & Cowans, Members of the Montreal Stock Exchange, by special arrangement with their Saint John office.)

IN MONTREAL.

The Montreal stock market was rather sluggish yesterday, due to profit taking. Brazilian, however, continued an active issue selling up to 8034. Nickel was off two points.

STOCKS WERE OFF.

New York, Jan. 8—The sinking spell on the stock market was less acute today but bullish operations in a handful of issues failed to revive confidence, and weakness predominated at the close, although a few net gains of about three to 14 points were recorded.

Call money held at 7 per cent all day and although a rate of 4 per cent or lower has been normal at this time in recent years, bankers now look for an average of 7 per cent for sometime to come.

Goodyear sold up to 10 points, and closed more than seven points, leading a general upturn in the rubbers. Goodrich made an extreme gain of six points and U. S. Rubber made good headway. Commercial Investment Trust was also a strong point. General Electric made an extreme gain of 14 points.

Radio, old stock, sold off 14 points at one time. The new stock closed unchanged after rapid fluctuations.

No Market Today

The condition of the roads in this district, evidently kept the farmers from bringing in their produce for the usual midweek market this morning, for there were only three farmers in this morning and no buyers. One farmer, who drove his goods in with a truck claimed the roads were rather bare, although in some places long stretches of ice, permitted easy travel. But in the majority of places the roads are practically devoid of any ice and travelling sled is well nigh impossible. Eggs and apples were the only produce at the Phoenix Square the former selling for 55 cents per dozen and apples, both and eating varieties, from \$2 to \$4. per barrel.

SALESMAN WANTED

Wanted: By Procter & Gamble Co., an energetic well educated young man of good address to sell our soap products etc., to Retail Grocery Trade in Northern N. B. and Gaspe Coast territory. Age between 23 and 35 years. Good prospect of advancement for man not afraid of hard work. Application from men with, or without experience considered. Knowledge of French an asset. Resident of Fredericton preferred. Company furnishes car to work territory. State salary required and road experience. Give telephone and home address by letter in own handwriting.

Apply
W. W. STEWART,
Rothsay, N. B.
