CUBS ULTIMATE WIN IN NATIONAL POSTPONED BY LOSS

Brooklyn Robins Took Doubleheader Yesterday—
Pirates Won Again—Other Big League Con-
tests Yesterday.

New York, Sept. 17—The Pirates came from behind in the seventh inning at Pittsburgh today to score eight runs on four singles defeating the Phillies by 11 to 7 in the final game of the season between the two teams. The 22 engagements were evenly divided. The big Pirate seventh in addition to the four singles was made up of four passes, a fielder's choice and a wild pitch.

Brooklyn delayed Chicago's ultimate pennant victory by taking a doubleheader from the Cubs here today, both by late rallies. The Robins pulled out the opener by 8 to 7 and repeated in the nightcap by a score of 9 to 6 on Babe Herman's eighth inning homer with the bases filled.

Cuyler and Bissonette, in addition to Herman were home run hitters. John Frederick doubled in the first game, tying the National League record of 52 two-base hits made by Paul Waner last year.

American League

The Red Sox drove young Ed. Walsh from the box in the first inning and took today's game from the Chicago White Sox, 6 to 4. The win was the Bostonians' third out of four games in the series. Regan drove in three runs for Boston.

After Washington had taken the first game of a scheduled doubleheader from Detroit behind the steady pitching of Sam Jones 4 to 1, rain broke up the second contest. Page who was called to the mound for the Tigers in the seventh, did not allow a hit but passed five men. The Senators were leading 3 to 2, in the nightcap when the downpour came in the third inning.

WILL KNOW IN DUE TIME, SAYS THE PREMIER

St. John, Sept. 18—Hon. J. B. M. Baxter, Premier of New Brunswick, was silent when asked about a report from Fredericton that the provincial elections were to be held in October, refusing either to deny or confirm the report.

According to the report the date set for the election is October 28. It is said the information came from a source usually well informed on provincial political matters, but was without official confirmation.

When Hon. Mr. Baxter was asked if this date had been chosen for the next provincial appeal to the electors, he said he had nothing to say at present. In due time the people would find out whether the report was correct or not.

DIVOT DIGGERS ARE BLAMING THE MOLES

(New York Sun)

Keeping one's eyes on the mole instead of the ball and using a pitchfork instead of a mashie have become the sport this summer of many an enthusiastic divot digger of Nassau county, particularly in the vicinity of Rockville Center.

And the reason is not far to seek but according to experienced ones, powerful hard to find. For the members of the family Talpidae (c. f. Webster) have become as great a pest to the lawn makers of Rockville Center as the rabbits are reputed to be to Australian farmers.

The moles have ruined many a lawn by burrowing just beneath its surface in search of the earthworms and other small life which they crave. In spite of the best garden experts at Garden city, the nuisance continues unabated. Several remedies have been tried. One attempt was made in all seriousness by a hired exterminator who inoculated the succulent earthworms with some virulent poison and dropped them into the mole runs. But all was to no avail. And so it has been found that an eagle eyed householder armed with a pitchfork can wreak more vengeance on the marauders in the course of an afternoon than the toxic effect of several bushels of night-walkers.

SEA LEVEL NOT SO LEVEL IT IS FOUND

New York, Sept. 15—Though the position of the sea level as the earth's standard of levelness is not threatened, scientists have found that after all it is not so level. Its mean, or average level, formerly was believed to be uniform down to the fraction of an inch. But differences are found of from nearly an inch to as much as two inches are ascribed to contours of the coast lines. The facts are reported for the national research council by Prof. Douglas Johnson, of Columbia University.

DANDIES OF FUTURE

A New York clothier makes a fantastic prophecy regarding the character of masculine attire a century hence. He predicts legs will be bare from ankles to knee and that wide shorts will take the place of trousers for everyday business wear. Bright sandals will send shoes into the discard. And the conventional shirt and coat will be supplanted by a combination jacket and shirt open at the neck like a polo shirt.

This nightmare is explained by man's growing envy of woman because of her sensible and quite airy manner of dress. Nothing may come of that envy for the relief of over-dressed masculinity, but anything can happen in 100 years, even to reactionary man.

SUGGESTION

When love comes gnawing
There's little use
In trying to trick him
By sudden ruse.

Love comes nibbling
For all of that,
Wise as a witch
And soft as a cat

When love comes scratching
Lock all the doors
And pray he'll steal
No treasure of yours.

An Ontario paper says a nearby village collects \$50 a week from strangers who fail to stop at the "stop" sign, and these same strangers, leaving town, read the sign, "Good-bye; come again." And the strangers reply, "Sure I will. When the equator freezes over."

SURE OF IT

If happiness exists
I've found it—
A half melon
With a boy around it.

It is said that the Gibson girl, long-skirted and big-hipped, will be back with us "in eighteen months." Yeah? And what's to become of rumble seats, golf greens and tennis courts that women have been affecting the past few years? The Gibson girl return? Yeh, when daguerreotypes take the place of the snapshot.
