Mr. Dugal could speak upon French speaking people in the past few months. The gross misre presentations affecting their loyalty and their honor and the unfair criti cism to which they were subjected also was an allied factor. To these two factors should be added the circum stance that the Opposition candidates as a whole were men of greater ability and recognized public standing than those presented by the govern ment. Better Cake and Biscuits

In all recipes calling for Baking Powder use Royal Baking Powder. You will get better and finer food and insure its healthfulness.

Housewives arc sometimes led to use inferior baking powders because of apparent lower cost, but there is very little difference in practical use-about one cent for a whole cake or pan of biscuits-a mere trifle when you consider the vast difference in healthfulness in favor of food made with Royal Baking Powder.

Royal Baking Powder is made from cream of tartar, derived from grapes-a natural food product, as contrasted with alum, derived from mineral sources, and used in the manufacture of some baking powders because it is cheaper.

lot count on Saturday found twentythree Liberals elected and twenty-one Tories, the contest in Gloucester is expected to return a Liberal contingent of four. Even if the Tories carried the entire constituency it would give them only a majority of two, so that in any case the Government received its death blow on Saturday. The result is a most notable one and

once more shows how political current in Canada is running. Only two provinces are now held by the Tories, Ou tario and P. E. Island, the latter by only a majority of three, while in the case of the former, during the past two years they have either lost at every by-election or else only held the seat by greatly reduced majorities. The Liberal wave is rising.
