SAVAGE WASHER & DRYER

The NEW, Faster SAVAGE 20th Century Laborless Laundering Schedule

The shortest, easiest route from clothes hamper to clothes line! Just imagine loading your wringerless Savage with 10 lbs. of dry clothes (equivalent to 7 sheets) and ten minutes later handing out everything beautifully washed, blued, spin-rinsed and spin-dried! Better than this, imagine doing this entire job without putting a hand in water, without hand rinsing, feeding pieces through a wringer, or even handling wet heavy clothes from tub-to-tub. And after it's through, the Savage empties itself into sink or drain.

SPECIAL INTRODUCTORY OFFER

For a limited time we offer the new faster Savage at low terms, with a Free home trial. Call or phone

MADE COSTLY ERROR WITH GASOLINE

Eastport, Me., Jan. 25—Mistaking a can of gasoline for a can of kerosene proved costly for Joseph Mitchell engineer of the clam factory of the East Machias Packing Company in the north end of the town, who was badly burned early this morning when the gasoline exploded as he poured it in the fire box of the factory boiler. The burning liquid sprayed him and caused severe but not fatal burns.

Mitchell was starting his fire which had been banked all night, and as was his usual custom, heaved the liquid which he believed to be kerosene on the smouldering soft coal.

HIS FLORIDA HUNTING LODGE IS ELABORATE

Palm Beach, Fla., Jan. 26—A floating hunting lodge, probably the most elaborate craft of its nature in the waters of the United States, is nearing completion near here.

The boat is being built for Henry Carnegie Phipps and members of his family, who are winter residents of Palm Beach and the Gulf Stream section.

The lodge, built on a 60-foot barge, will be elaborate in its appointments. It is designed to take its owners and guests into shallow streams and lakes which are plentiful in this region, and to afford de luxe living quarters during extended hunting and fishing excursions.

Equipped with electric light and gas plants, the lodge, as yet unnamed is said by its builders to be the last word in comfort and convenience. It is to be towed into Lake Worth shortly after the formal opening of the Palm Beach season.

A NEW GENERATION WITH A NEW VISION IN THE MARITIMES, SAYS PREMIER J. B. M. BAXTER

Montreal, Que., Jan. 25—The Maritime Provinces have found a solution for their difficulties and a means of co-operating with the other provinces towards the development of the Dominion, was the opinion expressed by Premier J. B. M. Baxter, of New Brunswick, in an address at the meeting of the Canadian Pulp and Paper Association here tonight.

Other speakers at the gathering were Premier E. N. Rhodes, of Nova Scotia, Hon. J. L. Perron, Minister of Roads for the province of Quebec, and Hon. William Finlayson, Minister of Crown Lands for Ontario.

Antagonism Gone

"Something of those antagonisms which blocked the way of Confederation have been relegated to the limbo of forgotten things," Mr. Baxter said. "We realize that there is no longer any question of supremacy as between Halifax and St. John and in a combined effort we hope to make the world realize that St. John and Halifax are the only inlets and outlets to and from Canada by way of the Atlantic during the winter months. We are waiting in hope and in faith for the realization of our aims and a reconciliation of those aims with the common good of the country."

New Vision

"There is a rising interest in the Maritimes, a new generation with a new vision, a generation, which realizes that too much time has been wasted in the pursuit of political shibboleths. I am not here to preach of lost hopes and lost opportunities. The business of to-day is to bring the Maritimes, which have fallen behind, up to par with the rest of the Dominion, which has been forging ahead."

SPORTSMEN'S SHOW AT BOSTON CLOSING TONIGHT

(Continued from Page Eight.)

Lean, who has been in Boston since last Monday, returned home on the noon train today. His Honor played a very successful part in the work of boosting the province.

It is reported that an offer of \$1000 was made for the cow moose and three deer which were exhibited alive at the show. Just what disposition will be made of them has not been determined. Two years ago a moose taken from this province was presented to a park, but the surroundings there were not to its liking and its death was reported last summer.

ANOTHER LARGE SEIZURE IS MADE AT VAL DE AMOUR

near Caraquet. Fourteen carcasses of venison and a number of deer hides, as well as a cache of liquor were included in this big haul. Ralph Furlock, a farmer of that place was arrested in connection with the seizure and is now being prosecuted. The charges are illegal shooting of game in the closed season, and for being in illegal possession of liquor.

The police are doing everything possible to round up the offenders in that district and are at the present time prosecuting several for being connected with the seizures.

Weekly Market

The coming of snow this morning brought the farmers into the city market ground, though travelling was not very good. The coating of snow made the ice very slippery one farmer stated, and difficulty was experienced in holding the road. The majority of the farmers were in with wagons. Prices were quite reasonable, and similar to Wednesday. Eggs and Butter sold for 45 cents. Plenty of beef was on hand, selling for 10 and 14 cents. Pork went for 14 cents per pound. Other prices were: apples, \$2.50 to \$4. per barrel; potatoes, \$1 per barrel; wood, \$6 to \$10.

ion, which has been forging ahead.

Ready To Aid

"It is to be regretted that so great an industry should be in difficulties," said Premier Rhodes, in his brief speech. "The discovery of a solution should not be a task incapable of accomplishment," he continued. "To the measure of our opportunities we in Nova Scotia are prepared to co-operate in anything that will make for the prosperity of this great industry."

Hon. Mr. Rhodes referred to Nova Scotia's recent entry into the newsprint field, and he referred to himself as "a freshman in the newsprint school." In entering the newsprint field, he said, "Nova Scotia is not emulating the spirit of the times. Although this province is the latest to enter the field it possesses qualities that are not peculiar to any other province. It is convenient to tide-water and has all-year-round harbor facilities, harbors free of ice."

Many Advantages

Another advantage is that the manufactured product can be transported at the lowest rate for water-borne traffic, without the intervention of a rail haul. Our water powers are sufficient of our needs. An additional advantage consists in the proximity of the raw material to the mill. The export of pulpwood from this small province last year amounted to 200,000 cords, cut from a small portion of our timber area."

Premier Rhodes describes the system of reforestation which has been adopted in Nova Scotia and said it was the intention to maintain a perpetual timber supply adequate to the industrial needs of the province.

and it will be well towards the end of next week before the task is completed.

This morning permission was given to the F. B. Edgcombe Company to restore their goods to the shelves. The goods had been badly disarranged as a result of the fire and attendant confusion. The Edgcombe Company will likely stage a monster fire sale as soon as matters are straightened out.

Next week the Canadian Bank of Commerce will be doing business at the old stand in the Chestnut block. The large vault which the bank abandoned when it moved to new quarters is still intact and will once more be put into service. An architect from Toronto is expected to reach the city next week to inspect the ruins of the bank building and prepare plans for a new building. It is not yet certain that the Bank will rebuild on the old site. The land is leasehold belonging to the city and the bank's present interest in it is limited to the vault and safety deposit boxes. It is the intention of the bank to remove the large safe to the Chestnut building next week. An effort will be made to open the vault at the present time.

Childhood Ailments

Can Be Quickly Banished With Baby's Own Tablets.

The ailments of childhood are many but nine-tenths of them are due to one cause and one cause only—a disordered condition of the stomach and bowels. To quickly banish any of the minor ailments of babyhood and childhood the bowels must be made to work regular and the stomach must be sweetened.

No other medicine for little ones has had such success as has Baby's Own Tablets. They banish constipation and indigestion; break up colds and simple fevers; correct diarrhoea and colic and promote healthful sleep by regulating the functions of the stomach and bowels. Concerning them Mrs. L. M. Brown, Walton, N. S., writes:—"I cannot speak too highly of Baby's Own Tablets as I have found them excellent for childhood ailments."

Baby's Own Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.
