NOT A WEAKER SEX

It is quite the custom of public speakers, making addresses to audiences of women, to be condescending and patronizing. They appear to go on the assumption that it is strange that women should be interested in affairs that interest men of in anything other than cooking and sewing. Any public speaker with common sense or with the ability to get the psychological reaction from his audience, knows that the average group of women listen more intently and intelligently to a speech than the average group of men. Women have a right to be insulted by the attitude of many public speakers—an attitude that indicates that the speaker feels he is talking to children.

Only the superior courtesy of women keeps them from walking out on such a lecturer.

The Provincial government with a view of increasing the efficiency of the service has appointed Mr. Arthur Barbour to the post of Deputy Minister of Public Works and Mr. Kenneth Willis as superintendent of highway maintenance. Highway construction in New Brunswick has kept pace with the growth of motor traffic, but the problem of maintenance has become a serious one. The Minister of Public Works has been giving the matter careful consideration and it was on his recommendation that the position of Deputy Minister has been separated from that of Chief Highway Engineer. The duties which the new officials will be called upon to perform are of great importance and we feel sure that they will do their level best to give real service to the public.

Next Spring—announcement from Rome—Italy will announce her Fascist fashions. Mussolini has approved, a polite way of saying he has dictated, a "National Artistic Institute for Italian Fashions."

When the Dictator dictates what women must wear he either fails ingenuously or rises to the height of superman. The supreme test is before him.

Not much good in apology if it's a mere matter of soft and gentle words. To be sure, the form of apology is better than the form of continued anger, better than no gesture of sorrow. But apology which does not carry with it the conviction of a real intention to do better hereafter is only a bit of lubricant. No power resides in it.

An average oyster, according to a fisheries report, lays 16,000,000 eggs and a large one of real blooded stock may reach as high as 60,000,000. Paste that in your henneries, ye farmers, and shame 'em.

To Enjoy the climate where you are, think and talk less about the weather—if it is bad. To enjoy good health, think and talk less about your ailments—if any.

Forget yourself into a good day.

Convict in the Ohio penitentiary made \$7,000 last year writing short stories. The trouble with the general situation is, however, that there aren't enough persons writing short stories in the penitentiary.

Perhaps if it had cost anywhere from three to nine hundred dollars to go stockingless, it would have been more of a fad.

Happiness: A sufficiently quick change in the succession of one's troubles

The girls haven't gone in for the hatless fad probably because they want something left to take off.

The collegian today's not a bad kid—He drinks, we read, less than his Dad did.

Naturally, under a 13-month calendar, 10 tons of coal would last more months.

Chicago court has valued a husband's affections at one cent. A Daniel come to judgement.

* THROUGH OUR SIEVE *

When all is said there yet remains much to be done.

By the time spring arrives winter will be in need of many repairs.

In pugilism a man can lose by a knockout or its equivalent. In politics there is no equivalent.

Its worse to be poor now than in the days of our forefathers, when it required less to become rich.

Lima Beane thinks the violet rays said to be thrown off by the onion ought to be recognizable anywhere.

From what we read of modern breakfast nooks they are getting too small for a joke to turn around in.

Cincinnati university coeds have made a rule to kiss any boy friend they like when they feel like it. But they probably would anyway, without a rule.

Sam Hill says in the Cincinnati Enquirer: "If you catch flu germs by kissing we know a girl who must have a flock of them by this time." But Sam, is it nice to tell?

Hi Slocum says that speaking of Fog, there are the political editorials in the Gleaner. They are not to be recommended for the complexion either.

U. N. B. Won

The University of New Brunswick basketball team arrived home today from Woodstock, fresh from a 26-24 victory over the Woodstock Senators, last evening in the Woodstock gymnasium. The game was a hard one and both teams were quite evenly matched. The Senators were leading 24 to 22 until the closing minutes of the second half, when Stratton, Red and Black ace, snapped one into the Senators basket, tying the count. In the overtime, the University boys nosed out the home town, the final score being 26 to 24. The University team personnel follows: Forward, Stratton, Lockhart; center, Oldham; Guards, Barbour and woods; relief, McNally. Harry Estabrooks of Woodstock refereed the game.

Enjoyed Boston Visit.

His Honor Lieutenant Governor McLean, who is a visitor to the city today is enthusiastic over the great success of the Boston Sportsmen's Show and is confident that good results will accrue to the province from the splendid publicity obtained. His Honor is naturally much pleased over the hearty welcome extended to him as well as with the efficient manner in which the arrangements were carried out. His Honor is himself a sportsman, being a charter member of the Tobique Salmon Club, and naturally was much interested in the Sportsmen's Show.

Played Remarkably

A local hockey fan, who witnessed the St. John—Capitol game last night in the southern city, in a talk with a mail reporter, said that he never saw the local boys put up such a wonderful fight to win a game as they did last night. This red hot fan was firmly of the opinion that it was the best game they have played this winter, and everyone deserved the utmost credit for their glorious struggle, even though defeated. The score of 1 to 0, and the only score coming in the overtime period, shows that it surely was some battle.

A Busy Place

The big fire sale being staged by the F. B. Edgecombe Co., Limited, began at nine o'clock this morning under very favorable auspices. The Edgecombe store is the largest in the city, but it was scarcely large enough to provide even standing room for the immense throng which flocked to it this morning. The company is offering unheard of bargains on goods slightly damaged by the recent fire.

PROGRAM TO BE ON THE AIR ON SUNDAY

Following is the radio program for Sunday in Atlantic Standard time:
Reinold Werrenrath—WEAF network.
Atwater Kent Hour—WEAF network.

Large Market Today

The Phoenix Square market today was the biggest for a number of weeks, and probably the largest since Christmas. Practically every variety of produce was on hand, and one side of the City Hall was lined with teams loaded with wood. The travelling price of wood was from \$6. to \$10 per load. Other prices were as follows: eggs, 40 cents per dozen; butter, 42 cents per pound; apples, \$1.50 to \$2.50; parsnips, \$3 per barrel; potatoes, \$1 per barrel; pork, 17 cents per pound; beef, 14 cents per pound; carrots, \$2 per barrel; and turnips, \$1 per barrel.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child.

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child the Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Amour, R. R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NOWADAYS YOU PRESS A BUTTON

Or perhaps a switch, or some little gadget, and a lot of things happen around home that lighten labor and banish trouble.

A Whirling Fan brings a cooling breeze, and a little copper, dish-like affair throws out a sizzling blast that warms the room in no time.

Another button boils coffee, toasts bread and cooks waffles. Another does a better job than a broom. Another makes a happy laundress out of a dismal washwoman. Another one cools the ice-box. Another—but why go on?

Labor and time saving devices have come and are today within the reach of the humblest home.

And one of the chief reasons why they have come and why they are within the reach of the humblest home is the power of advertising.

Advertising has carried the news of these better ways of doing things to every home. It has created a desire to possess them, and countless thousands have purchased them, and live better because of them.

Reading advertising not only tells you about new, helpful mechanical devices for the home, but it is an unfailing guide to reliable products.

READ ADVERTISING REGULARLY. IT POINTS THE WAY TO BETTER LIVING.
