

# EGG PRODUCTION IS OF GREAT IMPORTANCE

Great Care Should be Exercised in Feeding Poultry at This Season of the Year ---Grain is High in Price---The Most Economical Foods to Use---Sprouted Oats Give Good Results.

(Experimental Farms Note.) The problem of economical production with feed at the present prices, is a question that has been worrying producers during the past few months. The question of what to feed is one that requires more careful consideration than ever before. Feed is high, therefore the flock should be culled closely and nothing but the most vigorous birds retained. They should not only be fed heavily, but should be fed such feeds as will give results. For this purpose it is necessary to supply cereal, animal, vegetable and mineral feeds.

that you get the maximum return for your money when you buy Zam-Buk, because Zam-Buk is all medicine—not 5% medicine and 95% animal fat as ordinary ointments are. The herbal extracts and vegetable oils of which Zam-Buk is composed are so wonderfully blended and refined that Zam-Buk possesses unusual power of penetration. Instead of remaining on the surface skin, as ordinary ointments do (owing to the amount of coarse animal fat they contain), Zam-Buk literally soaks through until it reaches the "root" of the disease, which is always in the underlying tissues. Then it cures from the "root" up, which is the only thorough and permanent way of curing skin troubles, and is why Zam-Buk succeeds when other treatments fail. Zam-Buk is best for eczema, pimples, blotches, psoriasis, chronic sores, blood-poisoning, teething rash, boils, piles, cuts, burns and scalds. ## Raising Live Stock In Western Canada

ACCORDING to a recent statement by Prof. W. L. Carlyle, late Dean of the Oklahoma State College of Agriculture, the live stock outlook in Alberta could hardly be excelled anywhere. Stockmen all over the country are looking to the Pacific slope sections for improvement in breeding, and Western Canada is admirably suited for raising stock. It is generally recognized that increase in live stock in future years must bring an improvement of the present breeding stock. The west was looked upon as the base of future supply for the eastern breeders. The live stock industry in the west was never better than it is to-day. A recent official report issued by the Minister of Agriculture for the Province of Saskatchewan by the Secretary of the Provincial Livestock Board shows that returns were never more satisfactory. The value of the live stock in Saskatchewan is estimated at \$173,207,848, and these returns deal with conditions only up to April 30th last. There has been a great increase since that date as farmers realizing the value of mixed farming have taken to raising stock. They find that the straw from the wheat can be utilized as a cattle feed in the winter time, consequently there are not so many straw fires to be seen burning in the extensive wheat fields along the C. P. R. as in former years. In Alberta the other week a carload of 20 three-year-old Aberdeen Angus steers was sold at Calgary to a Chicago firm at 12 cents a pound, or a total of \$3,427.20. Their average weight was 1,428 pounds. Recently one of the largest single cattle deals in Canada was closed in Edmonton, consisting of the purchase of 2,500 head of choice beef steers, weighing not less than 1,350 pounds each, the sum involved in the transaction being between \$300,000 and \$325,000, and it will require 140 C. P. R. cars to transport the animals to their destination. Summer feed is cheaply raised in great abundance.

ings or sprouted oats. Night. Full feed of scratch grains. The scratch grains should be a mixture such as lower grade wheat, oats and corn, barley, oats and corn, barley, oats and buckwheat, or whatever grains are cheapest at the time. So far this season, oats have been the cheapest grain food, so it is advisable to use them to as great an extent as possible. The present indications are that corn will be greatly reduced in price. When this happens it should be used extensively as, supplemented with a high protein feed such as sour milk or beef scrap, it is one of the most valuable of feeds. Besides the foregoing, a hopper of dry mash, such as ground buckwheat screenings three parts, blood flour or beef scrap one part, is kept constantly before the flock, also hoppers of oyster shell and beef scrap. If sour milk is available the beef scrap may be omitted or green cut bone may be supplied in place of either. A good time to supply this is at the noon feed when a mash made from the kitchen scraps in which is mixed the green cut bone, at the rate of about one-half ounce per bird and dried off with the meal mixture, may be fed.

## DIFFICULT FEAT.

The schoolgirl was sitting with her feet stretched far out into the aisle and was busily chewing gum, when the teacher espied her. "Mary!" called the teacher, sharply. "Yes, ma'am," replied the pupil. "Take that gum out of your mouth and put your feet in!"

## IN THE PEN.

"What is the name of that handsome prisoner?" asked the impressionable young woman. "No, 2206, miss," replied the guard. "How funny! But of course that is not his real name." "Oh, no miss, that's just his pen name."

## LEAD US NOT INTO—

A London taxi driver had an elderly lady as his fare the other day. On arriving at her home she gave him the legal fare—one shilling—along with a food pamphlet headed: "How to Live on Sixpence a Day." "Excuse me, ma'am," said he, handing back the pamphlet. "Couldn't think of taking this from you, because in the absence of the information it contains you might be tempted to live beyond your income."

## WHICH?

"This bulk tea is the best I could buy at the price, Mrs. Brown, but I believe you will like Red Rose better."

"We use Red Rose at home and like the rich flavor. My wife says it goes further."

Hundreds of grocers are making statements somewhat like this.

They have sold Red Rose Tea for many years and have found the quality so good that they use it in their homes.

Most grocers naturally like to make an extra profit on their bulk tea, but they cannot help recommending Red Rose Tea because they know it's worth the price.

They know it goes further because it consists chiefly of the teas from Assam in Northern India, the strongest, richest teas grown anywhere in the world.

Red Rose tastes better and goes further.

## THE AD. AND THE MAN.

By James J. Montague.

He saw the ad from day to day And muttered: "I've got it; The stuff may be just what they say, But I'm not going to buy it." As time wore on he made remarks It would not do to mention. For he was mad because that ad Was forced on his attention.

But in a week, or two, or three, He said: "There's no denying, The way that ad gets hold of me, The stuff may be worth trying" For just about a fortnight more He dared mere words to win him, And then the ad completely had Aroused the spender in him.

Next day he drifted in a store And quietly expended A few big iron dollars for The stuff the ad commended. He found it filled a long-felt need Its excellence surprised him, And now he's glad because the ad So deftly hypnotized him.
