Treaty Sets Vatican City Up as a Sovereign State

Has Emphasized Neutral Character of Holy See as a Spiritual Force in World Affairs—In Case of War Envoys of Foreign Powers Would Have Undisturbed Passage Through Italian Territory.

(Special to The Daily Mail by the British United Press.)

ROME, March 5—The neutral character of the Holy See as a moral and spiritual force in world affairs is emphasized in the settlement between the church and Italy, a study of the full text of the agreement shows.

The agreement, while it makes little actual physical change in the status of the Vatican sets the Vatican city up as a sovereign state to which, in case of war, envoys of foreign powers may have undisturbed passage through Italian territory.

The agreement is comprised in a treaty, a concordat and a financial convention, the main points of which have been summarized in various despatches.

"Our whole system of self-government will crumble either if officials elect what laws they will enforce or citizens elect what laws they will support."

The House passed a motion for the production of all correspondence exchanged between the Government of Canada and the British Federation of Industries dealing with the new regulation which calls for 50 per cent. Empire labor and materials in goods entitled to British preferential rates. The motion was made by M. N. Campbell, (U. F. A., Mackenzie).

Deposits Increase

Answers by Hon. P. J. Veniot, Postmaster-General, to questions placed on the order paper of the House of Commons by H. E. Spencer (U. F. In accordance with the Prime Minister's statement on Friday, this resolution will be disposed of before the budget debate commences. Consequently it will be discussed further tomorrow.
