A SHAKEUP IN THE FEDERAL CABINET IS FORECASTED; VENIOT MAY GET A SHIFT

Ottawa, Nov. 29.—Hon. Charles A. Dunning's transfer this week from the portfolio of Railways and Canals to Finance is believed to be the first step in a Cabinet reorganization that will not await the next general election for its completion and which will involve three or four Ministerial positions.

It is believed to be fairly certain that Hon. Thomas A. Crerar, former Progressive leader in the House, Minister of Agriculture in the Union Government and well known throughout Western Canada will succeed Mr. Dunning as Minister of Railways and Canals and that this change will be made early in January or late in December.

Quebec Representation

Owing to the death of Hon. James A. Robb, a key portfolio has been lost to the Province of Quebec, and it is believed that in an effort to adjust that situation the Prime Minister will select Hon. Fernand Rinfret, Secretary of State, probably for the position of Postmaster General, and transfer Hon. Peter J. Veniot, now in the Post Office portfolio to another Cabinet position. Even this projected change does not provide for recognition of the English-speaking minority in Quebec through the vacating of the seat of Chateauguay-Huntingdon. Whoever fills that seat, it is deemed certain, that choice for recognition at present lies between W. F. Kay, Bromfield, and Charles B. Howard, of Sherbrooke.

Forke To Senate

Still another change that is reported to be imminent is the appointment to the Senate of Hon. Robert Forke, Minister of Immigration and Colonization for the vacancy caused by the death of Hon. Robert Watson. It is unlikely that that portfolio will be permanently filled until the general election but that its duties will be assumed by Hon. Charles Stewart, Minister of Interior, who once before combined the two positions following the transfer of Hon. James Robb from Immigration to Trade and Commerce.

A reason for the appointment of Mr. Forke to the Senate at this time, instead of awaiting the general

election next year, is to make available a Manitoba seat for Mr. Crerar, so that the latter would, when chosen for the Cabinet, sit for Brandon. It had at first been reported that his seat would be Selkirk, now held by L. P. Bancroft and that the latter would receive an appointment as a Deputy Commissioner of the Grain Board.

Western Portfolio

It is believed that whatever choice Mr. Crerar is in a position to exercise lies with Railways and Canals, but it is possible, if not probable, that at the general election he would be transferred to a portfolio more distinctly Western, such as Immigration and Colonization, or Agriculture, chiefly because it is not regarded in some circles as polite to have portfolios, such as Finance and Railways and Canals, which have been traditionally Eastern, handed over simultaneously to the West.

For the present three names previously associated with projected changes in the Cabinet have disappeared from the picture, those of Hon. William D. Euler, Hon. J. L. Ralston and William H. Moore, chairman of the Tariff Board. They will bob up again next year on of the eve of the general election when further ministerial shuffles are projected. The name of George W. Stephens of Montreal, also seems to have been dropped from the despatches.

Manitoba's Interests

It is regarded as fitting that a Manitoba man should, temporarily at least, assume the portfolio of Railways and Canals in as much as that province as well as Saskatchewan, is vitally interested in the early competition and operation of the Hudson's Bay Railway and Mr. Crerar is believed to be a logical successor to Mr. Dunning.

For some time it has been urged that there might be a rearrangement of the work of the portfolio of Railways and Canals, the railway part of it going with the Minister of Finance, as much as that is financial, and the canals being attached to the Department of Marine. This proposal is not now generally favored and has been dropped.

EASY GLOVE RACKET FOR THE DEAR THINGS

(New York Sun)

"You always have such lovely gloves," one girl was overheard to say to another in the subway.

"It's easy when you know how," returned her friend. "I used to be a cashier in a theater, you know and it didn't take me long to get wise to the dozens of pairs of gloves that are lost and never reclaimed. Now, when I need new ones, I merely inquire at the lost and found department of one of the big movies for the color I want and claim the first likely looking pair they bring out in my size."

HANWELL MAN IN SERIOUS STATE AT HOSPITAL

(Continued from page eight)
that the aged man was propelled headlong forward and under the feet of the horses. In falling it is thought one of the horse's hoofs struck him, and then the heavy wheels of the wagon passed over his body.

The hospital ambulance was called his soon as the man was found which was only a few minutes later, and he was immediately rushed to the hospital, where an operation was performed to save the man's life. This afternoon at 2:30 o'clock his condition was still very serious.

Off Again, On Again

Ex-Ald. D. W. Olt, who was for some unaccountable reason dropped from the board of directors of the Fredericton Agricultural Society on Thursday is again a member of the board. Alonzo Staples, a veteran director, who has served as president has resigned and the board promptly elected Mr. Olt to fill the vacancy, thus pulling one over on those who engineered his removal. Mr. Olt has given freely of his time in aid of exhibitions, and so long as he is willing to work for nothing and find himself there is no reason why he should not continue a member of the board.

Successful Poultry Raiser

James Edmunds of Mungerville who some time ago retired from the teaching profession to engage in poultry raising is making a success of his new venture. He has two hundred laying pullets, which last week produced twenty six dozen eggs. He had stilled chickens in the market this morning, which dressed from four to six pounds.

Old Age Pensions

Judge Grimmer, who has been appointed chairman of the Royal Commission on old age pensions, was a visitor to the city today. Asked when the Royal Commission would enter upon its duties he replied that there would be no public sittings until the beginning of the new year. He added that he was now in quest of information as to the best method of procedure.

Last Day Hunting

Today is the last day of hunting in the province of New Brunswick November 30th, marking the end of the open season for both moose and deer as well as lesser game. The hunters now in the woods will be permitted ten more days to take their trophies and accoutrements from the woods. A number of local sportsmen have been in the forests for the last few days of hunting and several have issued out with deer. Moose appear to be scarce in the closing days of the season.

WILL HELP OUT THE COFFEE SITUATION

New York, Nov. 30.—Negotiations have been completed, it is announced here, for the granting of a short term credit of 2,000,000 pounds sterling (about \$10,000,000) to the state of Sao Paulo, Brazil, by a London banking syndicate, in which several United States houses will participate.

The credit is secured by treasury bills of the State of Sao Paulo, and, it was announced, the bankers have satisfied themselves that the Government has already taken steps to permit an increase in the daily entries into the port of Santos of coffee available for export totalling between 30,000 and 40,000 bags, and that the government is now working out a plan to deal with the present situation "with a view to facilitating the gradual liquidation of the large accumulation of coffee stocks in the interior."

The London syndicate is composed of J. Henry Schroder and Co., Baring Brothers Co., Ltd., and N. M. Rothschild Sons.

PUBLISHERS WILL FIGHT THE INCREASE

New York, Nov. 29.—With the object of pressing the fight against increased prices for newsprint a conference has been called of the American Newspaper Publishers for Monday, Dec. 9 with a view to united action. A curtailment of newsprint consumption is one course of action that has been suggested.

The conference will be held in New York City. The association resents the action of the premiers of Ontario and Quebec in advocating an increase for newsprint from \$55 to \$60 per ton. Premiers Ferguson and Taschereau of Ontario and Quebec have urged the increase on the ground that the present price does not give an adequate return to manufacture and to the people employed in the newsprint industry.

RHEUMATIC PAINS

Cannot be Rubbed Out—The Trouble
Must be Treated Through
the Blood.

The pain of rheumatism out. Every sufferer from rheumatism has been advised to rub this or that liniment or oil on the affected part, but after all the rubbing the pain remained. Thin blood and rheumatism came together and if they are properly treated will go together. Anaemia means thin blood, and thin blood is something that can be corrected, so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Rheumatism in any form shows improvement as the thin blood is built up, and when the poisons in the blood are overcome and driven out rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Novar, Ont., who says:—"For some years I was so badly troubled with rheumatism that I could hardly walk and suffered great pain. I had medical treatment but did not get much relief. Then I decided to try Dr. Williams' Pink Pills and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
