TRADES AND LABOR CONGRESS AT SAINT JOHN CONDEMN GOV'T FOR IMMIGRATION POLICY

Claim "Fair Wage Act" Improperly Interpreted—
Want Restricted Immigration—Great Heat
Shown in Discussion.

St. John, N. B., Aug. 28—An attack upon the Federal Department of Public Works, in not carrying out the "Fair Wage Act"; condemnation of the Department of Immigration and Colonization in connection with the bringing of foreigners into Canada to take the place of Canadians by an engraving company, of Toronto, in the face of the Alien Labor Act, framed to stop such a step; and disapproval of the present immigration laws of the country, featured yesterday afternoon's session of the 45th convention of the Trades and Labor Congress of Canada, in progress in the Admiral Beatty Hotel here. In the evening the delegates, upwards of 250 attended a banquet given by Saint John Lodge No. 1, B. M. & P. I. U. of America.

The attack against the Department of Public Works started with the presentation of a resolution from Montreal Lodge, No. 111, International Association of Machinists, Moncton Lodge No. 594, International Association of Machinists, Saint John Lodge No. 482, International Association of Machinists and the Montreal Trades and Labor Council, all complaining of

difficulties in getting the protection of the fair wage policy of the Dominion Government for workmen employed on contracts or other work paid for out of the public funds, claiming that it frequently happened that in government contracts for large works that while a fair wage was set for the main job, a good deal of the work is done in other localities where no fair wage is set, or where the prevailing rate is below the rate set in the locality where the large contract is to be carried out. The joint resolution asked that the incoming executive of the Congress be instructed to call a conference of accredited representatives of organizations interested to study this question of the fair wage policy of the Dominion Government and endeavor to formulate such changes as may seem desirable in the light of the general experience to improve its form and strengthen its operation.

The resolution was unanimously passed, but not before a period of general discussion gave vent to heated feelings.

* SPECIAL ATTRACTION *
* AT GAIETY THEATRE *

"Geraldine" is that Photo Play at the Gaiety for Wednesday and Thursday.

A picture depicting the thrill of youth, with bright comedy and a meed of whimsical humor, is "Geraldine." It is based on the Booth Tarkington story of the girl who desires to be transformed from a plain young person to a gay butterfly and is willing to take the advice of her boy friend to accomplish this feat of becoming the life of the party. There are numerous clever situations, ever if the story itself is not entirely new to screen devotees. It is decidedly enjoyable entertainment.

The leading roles are played by Ed die Quillan and Marion Nixon with vivacity and charm, while the other characters include Albert Gran and Gaston Glass.

A Comedy and Pathe News are also on the bill.

"The old-fashioned man who has just become reconciled to the movies," observes the Boston Transcript, "is now declaring the talkies are no good."

An inquirer writes the New York Telegram to ask, "What is an elixir?" Why, an elixir is a preparation put by a concern that gives away almanacs.

REGISTRATION WILL PROVE OWNERSHIP

(Continued from page eight)

prima facie evidence regarding such ownership."

Only recently a young woman was arrested by Provincial Police officers charged with being in possession of a rum laden auto. Upon investigation it was found that the automobile was registered under her name, upon which fact conviction was urged by the prosecution. However, the defence brought out that there was nothing in the act which stated that registration was prima facie evidence of ownership, and the girl was permitted her freedom. It is proper here to say that the prosecution appealed the case to a higher court.

On a similar case in one of the upper counties a police magistrate convicted the prisoner. Thus it was seen that a similarity in the law was required, as well as a clause inserted which would permit conviction on such a charge. The law as then existed would not bear of any conviction for a person in possession of a rum filled machine, as registration didn't prove ownership. This state of affairs would of necessity allow a promiscuity in bootleg activities which would be hard to check.
