TIME OF HOUSE TAKEN UP WITH TARIFF DISCUSSIONS, U. F. A. MEMBERS TAKE PART

Ottawa, April 12—Discussions of the tariff changes occupied most of the time of the House of Commons today. Frequently pointed interchanges enlivened the afternoon and evening sittings but on the whole the proceedings lacked the interesting developments which characterized the day before.

Members of the U. F. A. group tonight wanted to know whether the Canadian Automobile Producers who in 1926 promised to pass on to the consumer the benefit of the discontinuance of the five per cent. excise tax on Canadian made cars up to \$1,200 in value, were keeping their agreement.

Hon. J. A. Robb, Minister of Finance, tabled in the House replies he had received from a number of automobile firms, assuring him that purchasers were getting the advantage in the price of their cars. However, some of the firms had not replied.

Taken to Task.

G. G. Coote (U. F. A., MacLeod), and Robert Gardiner (U. F. A., Acadia), took the minister to task for not having reprimanded the firms who had done him the discourtesy of failing to reply to his inquiries. In view of the minister's promise to that group in 1926, they thought he should have made sure every firm was passing on the benefit to the consumers. The discussion came up when the House in committee of ways and means dealt with the tariff item respecting auto-

mobiles, which adds side cars of motorcycles to the advantages enjoyed under the tariff by other cars. The item was finally allowed to stand.

Makes Criticisms.

The item which placed steric acid on the free list when entering Canada for the manufacture of candles or crayons, brought on criticisms from Conservatives. A company manufacturing crayons, Hon. R. B. Bennett, Conservative leader, explained, had asked for increased protection on their products in order that they might compete successfully with firms in the United States. Instead of granting the increase, the Minister of Finance was allowing them to bring in one of the ingredients free of duty. "This is not mentioned in the hearing", Mr. Bennett said. "Is this method of compromise to be adopted? The amount involved is small, but the method is one of far-reaching consequences. It represents the difference between the Liberal party and the party with which I am associated." He claimed the Government was willing to make a compromise for power without regard to the welfare of Canadian industry.

The item to place platinum wire, platinum bars, strips, sheets or plates on the free list was also contested by Conservative speakers, who claimed that as Canada was one of the few countries producing this precious metal, encouragement should be given by means of protection to the refining of it in this country.

APPEAL COURT TO MEET AGAIN ON TUESDAY

The Appellate Division of the Supreme Court of New Brunswick after hearing in the final case on the King's Bench Division adjourned until Tuesday morning, when it is expected the remainder of the April docket will be completed before Friday of next week. The case of Thomas Elston vs J. C. Purdy and Charles Morse was concluded yesterday afternoon. J. F. H. Teed appeared for the defendants and moved that the court set aside the order of Mr. Justice Byrne entering a verdict for the plaintiff for \$600 for false arrest at St. John. The motion was opposed by Daniel Mullen, K. C., of St. John who appeared for the plaintiff. Court is considering in the matter. Hearing was commenced in the case of Mahoney vs the Dominion of Canada Guarantee and Accident Insurance Co., in which the company asks for reversal of the judgment of Mr. Justice Byrne.

LOCOMOTIVE WAS HURLED FROM TRACKS

(Special to THE DAILY MAIL by the British United Press)

Albany, N. Y., April 13—Incessant rain and melting snow along the Hudson river caused a landslide today near Schodack landing, hurling a New York Central locomotive from the tracks and injuring two members of the crew, according to reports reaching here.

Eggs Very Plentiful

Eggs and more eggs, were the rage in the Phoenix Square market place this morning, and nearly every farmer had eggs to sell. As a result the price dropped to its lowest point for a considerable time. The price ranged from 30 to 35 cents per dozen. Butter sold for 40 and 45 cents per pound. Maple products also were plentiful, the honey going for 45 cents per bottle, and the sugar for 35 and 40 cents per pound. Other prices were: Ham, 25 cents per pound; Veal, 10 cents per pound; Pork, 18 and 20 cents per pound; Beef, 8 and 10 cents; Apples \$2 to \$5 per barrel; Potatoes, \$1 per barrel; Turnips, \$1 per barrel.

THE STOCK MARKET WAS A LITTLE STRONGER TODAY

The stock markets today continued active and more strength was displayed by many issues. Brazilian sold up to 59½ and Nickel at 48½. Cement Common was active at 31 and Steel of Canada at 55.

ROADS CLOSED

On and after MONDAY, APRIL 15th.,
all roads in York County will be CLOSED
to motor vehicle traffic until further notice.

(Signed) B. H. KINGHORN,
Chief Highway Engineer.

This is the sixth of a series of
advertisements planned to place
the policies and services of the
New Brunswick Department of
Agriculture more clearly before
the people of the Province.

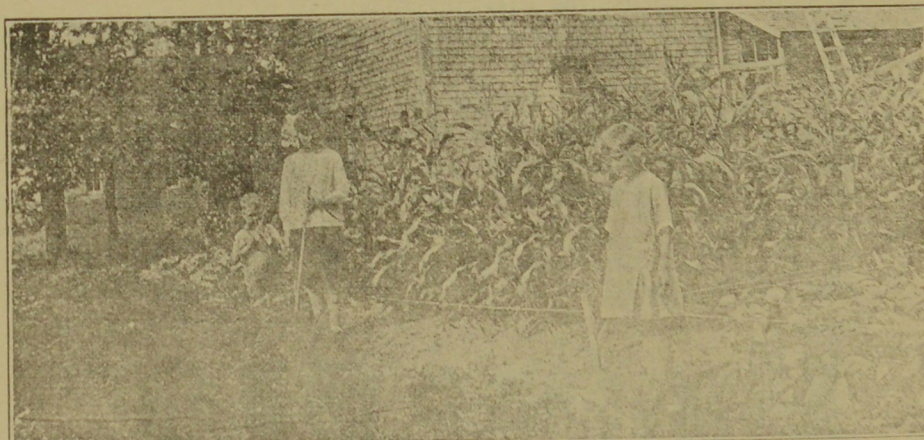

New Brunswick

"ELEMENTARY
AGRICULTURAL
EDUCATION."

Teachers of New Brunswick Rural Schools!

We should have more Boys and Girls interested in Home Plots,
Poultry Projects, School Fairs and School Gardens

A Typical Home Plot

TEACHERS to a greater extent than ever before, are making use of the Project Method in every phase of education. To secure interest is the first requisite of successful teaching. Boys and girls like to carry out projects. They want to be active and teachers should make use of this instinct which is so strong in the young. In such project work each pupil follows instructions and the parents are asked only to encourage and guide their children—not to do the work for them.

For information on these projects and on the distribution through the Public Schools of free seeds for Home and School Gardens and for settings of Barred Plymouth Rock eggs from pure bred, blood tested stock for School Poultry Clubs,—write to The Director of Elementary Agricultural Education, Sussex, N. B.
