Soviet Cavalry are Moving on City of Hailar, Manchuria

Ten Thousand Chinese Troops Evacuated the Place Yesterday—Advancing Troops Protected by Artillery—General Offensive Against the City Was Begun by the Soviets a Week Ago.

(Special to THE DAILY MAIL by the British United Press.)

HARBIN, MANCHURIA, Nov. 25—Thousands of Soviet cavalry protected by artillery advanced today on the Manchurian city of Hailar, which was evacuated yesterday by ten thousand Chinese troops.

In retreating from Hailar near the western limit of the Chinese Eastern Railway where the Soviets began a general offensive a week ago, Chinese officials claimed that the city had not yet fallen to the invaders. The citizens of Hailar were also leaving their homes.

Will Occupy Hailar

Tokio, Nov. 25—The Nippon Dampo News Agency correspondent at Harbin reported today that Soviet troops had occupied districts of Manchuria and established advance headquarters at Dailanor. The correspondent said it was anticipated that Hailar on the Chinese Eastern Railroad not far from the western border would be occupied tomorrow.

FUEL SUPPLY PROBLEM OF RED ARMY

Harbin, Manchuria, Nov. 25—Having filled their grain bins by raiding the Chinese stores on the lower Sungari river, the immediate plans of the Russians concern their winter fuel supply. One of their objectives is the Chinese coal mines northward in Heilungkiang from Kiamusze, a town on the Sungari midway between Fuchin and Sansing. A similar goal is the Mulin mines near Pogranichnaya. The Chalainor mines near Manchuli, on the western frontier, make a third possible prize.

With Kiamusze in view the Russians have established a base camp in the Siberian town of Pashkova, on the Amur, upstream from Lashasusa, where the Amur is nearest the Trans-Siberian railway.

MEETING WAS POSTPONED

The special meeting called of the shareholders of the Farmers Dairy Cooperative Co., Ltd., at the Court House on Saturday afternoon, though attended by more than seventy-five shareholders from all over the province, resulted in nothing specific, and after a short session the meeting was adjourned until December 14th, when matters will be thoroughly dealt with. The meeting was for the purpose of consideration of the proposition of consolidation with other Farmers' Dairies in New Brunswick under the name of "Consolidated Farmers' Dairies, Ltd." This plan of amalgamating the dairies into the one company will be considered at length when the meeting takes place on the fourteenth of next month.

The president, H. F. Dunphy of Durham Bridge occupied the chair.

NEW RECORD IN SAVINGS FOR XMAS

New York, Nov. 25—Within the next two weeks approximately 9,000,000 persons in the United States will receive an average of \$59.50 each in Christmas savings, the Christmas Club division of the National Bank Service Corporation announced today.

This means that about 8,000 banks will distribute a total of \$600,000,000 to members of Christmas savings clubs. The average was struck after a number of special accounts, running in some cases as high as \$25,000, had been removed from calculations.

The amount held a Christmas savings constitutes a record. It is 10 per cent greater than last year and five times the amount accumulated in 1920.

New York state will lead all others in the distribution of \$141,000,000 of the total; Massachusetts comes next with \$70,000,000; Pennsylvania, 65,000,000, and Illinois, \$56,000,000.

PARIS PARK IS ONLY FOR THE CHILDREN

Paris, Nov. 25—The municipality of Paris has decided to build a park for children, in the form of a flat world to teach them geography. Adults will be kept out of the playground.

In the square, the world will be outlined with the continents in profile. In Africa will be a sandpile at the place of the Sahara, so that children will associate the sand with the desert. In each of four corners will be fountains and statues depicting native life or fruit of America, Asia, Africa and Oceania, while Europe will be portrayed on the walls of a covered playground for rainy days.

MAKE CHANGES IN AUSTRALIAN BANKING SYSTEM

Treasurer Theodore Preparing a Bill to Make Better Use of Country's Gold Reserve.

(Special Cable to THE DAILY MAIL by the British United Press.)

Sydney, N. S. W., Nov. 25—The Federal treasurer, Mr. Theodore, has prepared a bill containing important changes in Australian banking affairs, the object of the bill being to make better use of the country's gold reserve. It proposes that the exchange rates between Australia and other countries be controlled by the Commonwealth Bank instead of by private banks and that the export of gold be prohibited without the consent of the federal treasurer, thus preventing depletion. Under Mr. Theodore's bill the treasurer would be required to satisfy himself as to the purpose for which the gold was to be exported. It is understood that most of the gold exported from Australia in the past was shipped to the purpose of maintaining credits in London at certain importing houses.

GERMAN BANKS GO TO THE WALL

(Special Cable to THE DAILY MAIL by the British United Press.)

Berlin, Nov. 25—Bank failures since July 1 reached a total of 83 today when two banks in Hanover closed.

Doing Good Work

Says a Lunenburg despatch to the Halifax Chronicle: Miss Faye Saunders of Fredericton, N. B., who has recently taken up duties as V. O. N. nurse here, is doing excellent work not only in regular nursing, but in examination of the children of the public school as well as in connection with public health. She has also organized two classes, a home nursing one for mothers, and a Little Mother's League for teen age girls, which teaches personal hygiene and care of young children; she also conducts a weekly well baby conference. Before coming to Lunenburg, Miss Saunders was a member of the Halifax V. O. N. staff.

A Strange Tale

It is announced that an article which lately appeared in an American periodical, recounts the strange tale of Coleman's frog at Fredericton. This would surely be a strange tale, so strange that many people here would be inclined to doubt it. Old timers will probably recollect that the late F. B. Coleman had in his mind the largest known frog in the world.

TORIES STRONG FOR IMPERIAL DEVELOPMENT

Baldwin Says they Must Look to Empire for Prosperity.

CHAMBERLAIN OF SAME MIND

The Empire Likely to Figure Strong in the Next Election.

(Special Cable to THE DAILY MAIL by the British United Press.)

London, Nov. 25—The Conservative party have gathered some of their old momentum since Right Hon. Stanley Baldwin, in praising Lord Beaverbrook, urged the Tories to look to the empire for the future prosperity of Britain. Neville Chamberlain, former Minister of Health and now the strongest man the party has next to Baldwin has endorsed the latter's view's and a succession of Tory members are urging that the greatest efforts should be made in imperial development. There is little doubt now that the Empire will figure at the head of the Tories election programme particularly if, as they anticipate, Right Hon. J. H. Thomas the Lord Privy Seal completely fails to make any appreciable reduction in unemployment.

N. B. FARMERS REPRESENTED IN WINNERS

Competition is very keen and the classes large at the Royal Winter Fair now in progress at Toronto, according to advices received here recently. M. L. McCarthy's Lonsdale Farm at Sussex Corner captured seventeen prizes, included being a first for Aged Cow Dry, and a first for 3 year old cow in milk. The reserve Senior and Reserve Grand Champion Bull also were won by the McCarthy Farm.

Ayresbires from the McIntyre Bros. of Sussex took thirteen of the prizes. Included was a first for Junior Yearling Heifer, which was in competition with twenty-two others from all over.

Tiger of France To be Buried in Native Vendee

France Paid the Old Warrior a Splendid Tribute by Granting His Last Request—Everything Done to Assist the Family in Making the Last Rites Simple and Private.

(Special to THE DAILY MAIL by the British United Press.)

PARIS, Nov. 25—France paid its greatest tribute to Ex-Premier Georges Clemenceau today by granting the Tiger of France his last request, a quiet and unostentatious burial in his native Vendee.

The government which had decided to give the fierce old warrior a great state funeral in keeping with his title of the "Saviour of France" acceded to Clemenceau's plea and did everything in its power to aid his family in making the last rites as private and simple as possible.

MARITIMERS DOING WELL AT THE ROYAL

Toronto, Nov. 24—Although only interested in a few departments of the Royal Winter Fair, especially those in connection with dairy cattle and foxes, Maritime exhibitors at the big show this year have carried off a large number of prizes and before the balance of the foxes are judged they will carry off many more.

In Holstein cattle, R. A. Proffitt, Freetown, P. E. I., carried off junior crampton bull award, while M. L. McCarthy, of Sussex, N. B., had reserve senior and reserve grand championship in both the males and females.

Both senior and grand championship in the Guernsey bull classes fell to L. Roper, of Charlottetown, while another Maritimer, F. W. Swindells, Princeport, N. S. had reserve junior. In addition to these championships these breeders captured many ribbons in the regular classes. In Ayresbires, Gaston Brothers, of Charlottetown; A. McRae & Sons, Frenchport, P. E. I.; McIntyre Brothers, Sussex, N. B., and George Boswell, Frenchport, P. E. I., scored wins, while C. Eric Boulden, Sunny Slope Farm, Windsor, N. S., carried off some of the Jersey winnings.

In the big creamery butter exhibits a second prize in the June salted 14-pound group went to the Yarmouth Creamery, of Dayton, N. S.

Angus McLean's (Bathurst, N. B.) five-gaiters, recently imported light horses from the southern states, have been holding their own against direct American competition in the horse show every night.

BOY SHOT BY DOG THIS TIME

Pleasantdale, Neb., Nov. 25—When a boy shoots a dog it isn't news, but when a dog shoots a boy it is!

Floyd Eisermann, 17, went hunting rabbits with his dog.

He placed the gun against a post while climbing a fence.

The dog placed his nose on the trigger and the gun was discharged, the bullet striking the youth in the arm.

The dog is being held under no ball pending the outcome of the boy's condition.

TO PUSH ISSUE OF SUBMARINES AT THE PARLEY

London, England, Nov. 25—The British admiralty intends taking up seriously the question of the size of submarines at the coming naval disarmament conference in London. Prime Minister MacDonald in his honest endeavor to insure world peace wanted submarines completely abolished. Since his return from the United States naval advisers have shown him for the time being that neither Italy nor France can agree to such a policy, but that much can be done if the size of undersea craft is substantially reduced.

At present it seems that the policy of the minor sea powers is to increase the tonnage of submarines to such an extent that they reach the size of small cruisers. This week France is launching the first vessel of thaa type.
