Is Disastrous For The Export Trade Of Great Britain

**President of British Board of Trade Explains
Britain's Insistence on the Necessity of Re-
ducing Reparations Deliveries — Enormous
Outlay of Public Funds in Six Years.**

(By HENRY WOOD, British United Press Staff Correspondent)

THE HAGUE, August 13—William Graham, President of the British Board of Trade, in explaining to the press today Britain's insistence on the necessity of reducing reparations deliveries in kind, asserted that between 1914 and 1920 England spent between £10,000,000,000 and £11,000,000,000 (approximately \$50,000,000,000 to \$55,000,000,000) of public funds which was more than she had spent during the preceding two and a half centuries.

"While the Young plan with its ten year limit for decrease and elimination of payments in kind, would seem to be an improvement over the Dawes plan, he said, "the fact remains that it just doubles the ten year period during which this system has continued to date, and which has been disastrous for British export trade."

TRIBUTES PAID TO THE LATE SIR EDWARD KEMP

**A Member of the Senate
and Ex-Cabinet Min-
ister Passes Away at
His Summer Home.**

Ottawa, August 12—Commenting on the death of Sir Edward Kemp today, Sir Robert Borden, Canada's wartime Prime Minister, said

"I am deeply grieved and shocked by the tidings that my friend and former colleague, Sir Edward Kemp, has passed away. We have been intimate friends for 30 years and I have a very happy and grateful memory of our association. During the years in which I led the Opposition, he gave me unflinching and loyal support; and after we came into power in 1911 he accepted membership without portfolio in the cabinet which I formed. After the outbreak of war he became Minister of Militia in 1916 and subsequently in 1917, Minister of the Overseas Military Forces of Canada. His service to our country in these capacities as well as in the chairmanship of the War Purchasing Commission during 1915 and 1916, was not only efficient but invaluable; and it is undoubtedly true that his excessive labors sapped to a considerable extent his health and vitality. I deeply mourn his loss as that of a true and tried friend and comrade."

Funeral services for the late Sir Edward Kemp, who died at his home near Bocaygeon today, will be held from his residence here Wednesday, August 14. Interment will be at Mount Pleasant cemetery.

The Army Worm

Sackville Post: While little has been heard of the army worm this season, a Middle Sackville man told the Post yesterday that a piece of hay ground from which he had taken 25 tons last year, had been overrun by the worm this year and practically ruined. On the other hand, he was taking a fair crop this season from the land that had been stripped of grass a year ago.

Mr. and Mrs. Clement T. White of Bangor, Me., are in the city today on a visit to relatives.

OPPOSITION HELD CONCLAVE AT ST. JOHN

Saint John, August 13—Reports showing organization progress in the ranks of the Liberal party in New Brunswick were presented at a lengthy meeting of the Provincial Executive of the Liberal Organization held here last evening, terminating shortly after one o'clock this morning. Those in attendance included the Provincial Executive, chairmen of the various county organizations, sitting party members of the provincial Legislature, candidates appointed, and Hon. Dr. P. J. Veniot, Postmaster-General.

No action was taken regarding the appointment of a leader for the party, which at the present time is headed by A. A. Dysart, M. L. A., Leader of the Provincial Opposition, and it was said following the meeting that no steps were taken with reference to the framing of a party platform, as such would have to be dealt with at a party convention.

Among those present from York and Sunbury were Hon. D. W. Mersereau, J. B. Dickson, P. S. Watson and W. H. McSheffrey.

MR. HOOVER MAY PAY VISIT TO MEXICO

(Special to THE DAILY MAIL by the British United Press.)

Mexico City, August 13—It was reported semi-officially here today that President Hoover would visit Mexico next December. The details of the Presidential tour, the report said, were still incomplete.

Will Take Course

Sergeant-Major Oliver, of the instructor of the physical training at the Provincial Normal School and assistant instructor of the crack Fredericton High School Cadet Corps, left today for the Royal Military Academy at Kingston, where he will study the latest twists in physical instruction methods. He will resume his duties here about the first of October.

THE LADY NELSON ARRIVES AT SAINT JOHN

**Montreal Party Greatly
Elated Over the Trip
to the Tropics — Had
Ideal Summer Holi-
day.**

(Special to the Mail)

St. John, N. B., August 13—"We have had a most delightful tour and I would certainly recommend it to anyone who desires a complete change and rest or as a holiday vacation," declared Miss M. Pitman, of Pitman Tours, Montreal, Que., who conducted a party from Montreal to Bermuda, the West Indies and British Guiana and who arrived here this morning on board the R. M. S. Lady Nelson, Canadian National Steamships. We left Montreal on the R. M. S. Lady Somers, and stopped for a while in Bermuda, proceeding from there on to St. Lucia and other islands of the West Indies group and from there to Demarara, British Guiana. The weather was most delightful and affords a splendid summer holiday trip for Canadians. Contrary to what is generally regarded as summer in the tropics, we found the weather most delightfully cool and enjoyed immensely the sea bathing. I would not hesitate to recommend a trip to the West Indies from Canada in the summer to any one. The sea voyage is one of the most enjoyable features of such a trip and the scenery is simply gorgeous. See the tropics would be a good slogan for Canadians to follow when seeking a departure from the usual holiday trip. Wherever we went we were most cordially received and made to feel we were part of the empire. The native life is very picturesque and the profusion of tropical fruits and manner of its growth is very intriguing to Canadians, who have not visited the tropics. I would not hesitate to advise anyone seeking a delightful summer vacation to make the trip.

TWO TOWNS MADE DARK BY BOY DRIVER'S CRASH

Modesta, Calif., Aug. 13—Max Denny, 16 years old, son of F. W. Denny, Modesto school teacher, got behind the wheel of an expensive sedan and this was the result:

Electric light service at Escalon and Riverbank out of commission one hour.

Oakdale and Knights Ferry plunged in darkness 30 minutes.

All fuses on a private telephone line of the Pacific Gas & Electric Co. serving these and other towns east of here burned out.

Seventeen thousand volt wires dangled from a shattered pole, imperiling lives of motorists and halting traffic.

The dealer's automobile wrecked. Young Denny suffered minor scratches and bruises.

The sequence of trouble came when Denny crashed into a high tension power line pole near here.

Alarm turns to chorales of glee when you, watching half a dozen able-bodied mosquitoes trying to get in through the screen, discover they can't make it.

THE CHINESE DELEGATES RETURNING

**Hope For a Settlement
of Railway Dispute
Have Dimmed.**

TROOPS ON THE BORDER

**Arson and Sabotage
Damages Now Run
Into Big Figures.**

(Special Cable to THE DAILY MAIL by the British United Press.)

London, August 13—All hope for an early settlement of the current dispute between Russia and China was considerably dimmed today with reports that the Chinese delegates, who had been sent to Maneruli to begin negotiations were returning to Harbin, according to the London Daily Mail correspondent in Manchuria.

The correspondent reported that the Russians continuing their intimidations along the border, where the Soviet and Chinese troops are concentrated. He said the intimidations included arson and sabotage damages from which already have been estimated to be \$10,000,000.

MORE BRIDGE CONTRACTS HAVE BEEN AWARDED

Two more contracts for new bridges on New Brunswick's highways have been awarded by Hon. D. A. Stewart, Minister of Public Works, both of the new structures to be concrete arch culverts.

The Vincent Box Concrete Arch Culvert and Roadway Embankment on the McLaughlin Road in the Parishes of St. Marys and St. Paul, Kent County, has been awarded to Denis LeBlanc, of Legerville, Kent County, the contract price being approximately \$2,000.00.

The Barnaby Brook Concrete Arch Culvert and Roadway Embankment on the road from Shella to Upper Shella, in the Parish of Saumarez, Gloucester County, has been awarded to Randolph Gammon, of Durham Bridge, York County, the contract price being approximately \$8,000.00.

Coincident with the awarding of these two contracts comes the announcement that tenders have been called for three more bridge contracts. One is the Ferguson Brook Concrete Arch Culvert and Roadway Embankment on the Lakeville Corner to Minto road in the Parish of Sheffield, Sunbury County, another is the Rankine Concrete Arch Culvert and Roadway Embankment on the East Side of Canaan River in the Parish of Johnston, Queens County, and the third is for the North Approach, Godfrey (Marven) Bridge, on the trunk road between Hillsborough and Hopewell, in the Parish of Hillsborough, Albert County. Tenders will close on Wednesday, August 21st.

Car Badly Damaged.

A Lincoln Roadster driven by a Saint John man met with a disaster last evening near Nashwaaksis when, it turned over in the loose gravel and landed in the ditch with its occupants. Those in the car were uninjured, but the car was damaged badly. A local garage wrecking car was sent to the scene of the accident and the machine was towed in for repairs.

Holiday Trip

Sergeant John Bird, of the New Brunswick Provincial Police, and Nunot Brewer and Clarence Burden, of the Fredericton High School teaching staff, left today for Montreal, where they will spend a few days.

Love, often said to be blind, isn't half as blind as Hate.

Britain May Take Steps to Control The Price of Food

**May Be a Matter For Legislation When Parlia-
ment Re-assembles — At Present the Food
Council Has No Power to Enforce Its Opin-
ions, But Submits Report.**

(By HERBERT BAILEY, British United Press Staff Correspondent.)

LONDON, August 13—Control of food prices in Britain is likely to become a matter for legislation when Parliament re-assembles, it was revealed today.

The food council, which functions under the jurisdiction of the Board of Trade, reports regularly whether rises in the price of food are justified, but it has no power to enforce its opinions and can only tell the public that they are being unfairly treated.

Today the milk trade of London defied the government, and in spite of an appeal by William Graham, President of the Board of Trade, refused to grant milk consumers any further reduction in the summer price of twelve cents a quart. The winter price is fourteen cents a quart.

CNRA RADIO STATION IN A BIG HOOKUP

Moncton, Aug. 12—The radio program from station CNRA for tonight is as follows:

8 p. m.-9 p. m. (A. S. T.)—C. N. R. A. Studio program by string orchestra and Halifax artists—Miss Madeline Newcombe, soprano; Mr. Gritz Schaeffer, baritone.

9 p. m.-10 p. m. (A. S. T.)—Canadian National chain program. French-Canadian hour of music from Montreal over stations CNRA, Moncton; CNRO, Quebec; CRNM, Montreal; CNRO, Ottawa. Holmody Paul, eminent violinist, Vancouver, will be heard in this part of the program.

10 p. m.-11 p. m. (A. S. T.)—Network program from Toronto, over stations CNRA, Moncton; CNRQ, Quebec; CNRM, Montreal; CNRO, Ottawa; CNRL, London; CNRT, Toronto.

WEATHER IS FAVORABLE FOR THE CROPS

Winnipeg, Aug 12—The weather in the prairie provinces during last week was more favorable for the crops. Light showers to several hours of rainfall occurred throughout the week and were very beneficial for the filling of latest grains and to crops intended for fodder. The crops are ripening fast, in fact too quickly in some localities, for proper filling. Considerable rye and barley cutting has been done as well as some wheat cutting, mostly in the southern areas, but cutting of wheat on a general scale will not begin until the middle of the month. In spite of the drought, wheat and course grain, sown on summer fallow ad newly broken ground, are standing up and filling surprisingly well.

Left the Hospital

Mrs. Gerald Bliss of Altoona, Penn., who was injured in an auto accident on the Woodstock road a few days ago, was able to leave the Victoria Public Hospital this morning. She was conveyed to the C. P. R. depot in the ambulance and left by the ten o'clock train for Amherst, N. S., where she will visit relatives. Her husband, Dr. Gerald Bliss, accompanied her.

HON. MR. FOSTER WILL STICK TO THE SENATE

Saint John, N. B., Aug. 12—The intimation that he might retire from his duties in the red chamber to become leader of the provincial Liberal party in the next provincial election, as published in a Fredericton newspaper, was denied today by Senator W. E. Foster.

"There is no truth in it," said the Senator.

After referring to the fact that no date has yet been set for a provincial convention of the party, the article continued to say that the chief purpose would be the selection of a party leader. With Hon. W. P. Jones, K. C., of Woodstock, out of the running for the leadership, according to the story, it was intimated that Senator Foster's name was likely to go before the provincial convention.

Meanwhile some 30 prominent Liberals from all sections of the province are due here today for a meeting of the executive of the party this evening. Among those who will attend is A. A. Dysart, leader of the opposition party in the Legislature.

P. E. I. POTATOES MUST NOW BE INSPECTOR

Ottawa, August 12—A recent ministerial order under the Root and Vegetables Act, made by Hon. W. R. Motherwell, Federal Minister of Agriculture, provides for the compulsory inspection of carload and carlot shipments of potatoes from the province of Prince Edward Island.

Prior to this order the regulations applied only to New Brunswick. Provision for this compulsory inspection in New Brunswick and Prince Edward Island has been made at the request of potato growers and shippers in the two provinces, and it is anticipated that as a result of this action there will be an increased demand for the potatoes grown in these two provinces from other provinces, and from importers in other countries.

Dr. John W. Holland: "Religion is as religion does." We blunder in with the suggestion that religion is an emotion, and that Christianity is the working member of the firm
