\$4500 In Cash Prizes For New Brunswick Farmers

In offering cash prizes through the Soils and Crops Division the New Brunswick Department of Agriculture seeks to encourage,—

1. The marketing of crops through live stock feeding which means increased stability and confidence in our farming.
2. The growing of root crops and soilage crops for supplementary dairy rations, and special pasture crops for pigs—in order to cheapen production and increase profits.
3. The growing of clover and grain for seed purposes.

CLOVER, ROOTS AND OATS ARE THREE HOME GROWN FEEDS THAT WILL SUPPORT STOCK RAISING ENTERPRISES AND INCREASE AND MAINTAIN SOIL FERTILITY.

\$2500.00 is offered as prizes for Root and Soilage Crops.
\$2000.00 is offered as prizes for Grain Crops for seed purposes.

For particulars write to the Soils and Crops Division.

SPICE CAKES

½ cup shortening
1 cup sugar
1 egg
1 teaspoon soda
2 cups flour
1 cup sour milk

½ teaspoon cloves
1 teaspoon cinnamon
Cream the butter or other shortening, if butter is not used, with a spoon. Gradually add the sugar, beating the mixture with a spoon. When it is light and creamy add the egg yolk, which has been beaten until it

is a light lemon color. Sift the flour, soda and spices together and add them alternately with the milk. Then fold in the stiffly beaten egg white. Bake in oiled muffin tins at 375 degrees F. for 20 minutes.

A self-winding watch has been invented. But won't it forget?

SCOUT NEWS

Come On Out!

With The Boy Scouts

The Gyro Troop with a full attendance in charge of the District Scoutmaster and Acting Asst-Scoutmaster A. Good left the city at 9.30 A. M. Saturday last and hiked to Doran's Field via Forest Hill, where dinner was cooked by Patrols. After dinner the Troop carried out a soft ball Inter Patrol competition in which four games were played, two games being played simultaneously. At 3.30 P. M. Dist. Commissioner Robt. Fitzrandolph and ten Scouts of the Cathedral Troop arrived and joined with the Gyro Troop in a Scouting game called "Pioneers and Indians." The whole party then cooked supper and returned to the city arriving home about 8 o'clock.

At the last meeting of the Cathedral Troop a very interesting talk was given at the Council Fire by Scout Jeff. Richard on "The Mineral Deposits of New Brunswick." Making fire by friction was practiced during the meeting, the Owl Patrol were most successful and gave the best demonstration. The meeting was in charge of Asst-Scoutmaster Harold Hoyt.

With The Wolf Cubs

On Saturday last Prov. Commissioner Bull and Cub Commissioner Pugh with a number of Wolf Cubs from the Cathedral Pack travelled by car to the covered Bridge on the Nashwaaksis on the Keswick Road. Here the mill was visited and the party hiked along the C. P. R. track where many interesting things in Nature Study were observed and discussed. The party stopped at a spot opposite the County Poor House, where a meal was cooked and where "fire-lighting and "fire placing making" was practiced. The party then hiked back to the covered bridge and arrived just in time to witness a spectacular break-up of the ice over the mill dam. On return to the city the graves of Bishop and Mrs. Kingdon were visited and interesting points of history of the city and Cathedral were afterwards related.

DEPARTMENTAL TROUBLE TO BE ENQUIRED INTO

(Continued from page two)

They remained another day and then came back to Ottawa. They made me familiar with the disciplinary end of this fracas between the officials.

"But I told them I did not want to hear further about any irregularities until I got back to the office."

Hanson Wants Copies

R. B. Hanson: "The offer made by the Postmaster-General is very satisfactory, so far as it goes, but it does seem to me to be a little narrow. He said we are to have an opportunity of examining the original file, but I failed to hear him say that he would have the privilege of making copies of any of the documents we might require. I should like to have that incorporated in the offer."

The Minister: "I may say to the hon. gentleman that in view of what took place yesterday I have had copies of the file made so there will be no difficulty in that regard."

IN CONFIDENCE

In confidence the tale was told And so, of course she must not tell A secret she was sure to hold, Forever and a day, but, well—Some can be trusted just a few And that is why the story flows And while this may be news to you It is what every woman knows.

Annie—Has Bob proposed yet?
Jennie—I think he's waiting till I get the rise the boss promised me.

"Oh Alice my patient has just proposed to me."

"Had another delirious spell did he?"

PEOPLE OF NEW BRUNSWICK URGED TO CO-OPERATE IN PROTECTING THE FORESTS

Hon. Charles D. Richards, Minister of Lands and Mines, today issued an appeal to the people of New Brunswick to co-operate with the Provincial Forest Service and other forest organizations in their effort towards protecting the forests of New Brunswick from fires during the 1929 season. He emphasized the growing importance of the forests in the economic life of the Province, pointing to the value of forests products in New Brunswick in 1928 having reached \$30,000,000 and he urged a realization by all citizens that one slight thoughtless act may result in almost incalculable loss.

Following is the complete text of Hon. Mr. Richards' appeal:

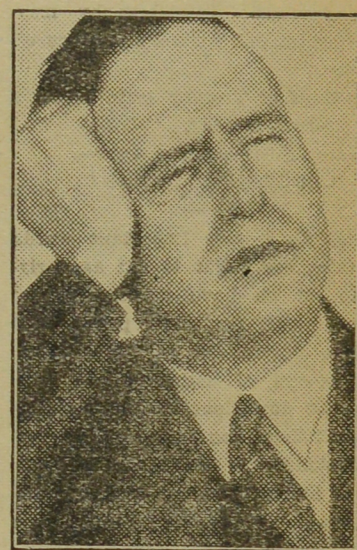

In New Brunswick, as in other provinces of Canada, we are again entering upon that period of the year when we are faced with one of the serious problems of our industrial and economic life, namely, the problem of Forest Fires. How vital is this problem will be appreciated when we realize that our forest areas constitute one of our greatest natural assets. The value of our forests products in this province for the year 1928 amounted to over \$30,000,000, ranking second only to agriculture. Upon the preservation of our forests depend also the preservation of the water supply for our hydro-electric developments, the existence of our fish and game, the continuance of that scenic beauty with which we are so greatly endowed, and the development of our tourist attractions. No one factor enters more largely into the economic life of the province.

It is very gratifying to those who have direct investments in our forest areas, and to those who are directly connected with the administration of those areas, to note the marked improvement in recent years in respect

to our forest fire losses and the greater recognition generally by our citizens as to the value of our forests and the importance of their preservation. But despite this fact, too many forest fires occur each year that are purely the result of carelessness. There is still opportunity for a greater "forest consciousness" a realization by all citizens that one slight thoughtless act may result in almost incalculable loss.

Organizations for fire prevention have done and may do much, but far and beyond the value of any organization of such a character is the need of every citizen to appreciate the rights of his fellow-citizen and his own responsibility with respect to those rights.

May I appeal to every citizen of this Province to recognize these rights and these responsibilities and to co-operate with the Provincial Forest Service and other forest organizations in their efforts towards preserving this great natural asset.
