OF INTEREST TO WOMEN.**MORE CANNING ADVICE.**Directions for Peas and Beans by the
U. S. Department of Agriculture.The season has been unusually good
for peas and beans. Either of these
can be readily canned with no other
home equipment than jars or cans and
a wash-boiler fitted with a false bot-
tom of slats to keep the jars from
resting on the bottom.Do not try to can peas or beans that
have been long off the vines—the
fresher the vegetables are the better
the product.Shell peas. In case of beans, string
and cut them as if for cooking.Put the prepared vegetables in a
cheesecloth bag or colander; blanch
in live steam from boiled water for
from five to ten minutes.

Next dip the blanched product in

"At first the call was for men, mun-
itions and money," says Food-Con-
troller Hanna. "Now the cry is for
men, munitions and food."cold water; dip quickly and remove
almost immediately.Pack the product immediately into
hot, scalded glass jars or tin cans.Fill containers completely with boil-
ing hot water to which has been add-
ed one level teaspoonful of salt per
quart. Place rubber rings on jars and
screw tops almost, but not complet-
ely tight. The water in the boiler will
not enter these partially closed jars.
Seal tin cans completely.Put the jars or cans in boiling water
in the wash boiler so that the tops are
partly or wholly covered. Sterilize for
180 minutes in boiling water, count-
ing from the time the water begins to
boil again.**RICE BREAD.**Half a cup of water or a mixture of
milk and water, or water in which rice
has been boiled; quarter cake yeast,
1 tablespoon sugar, 1 tablespoon of
shortening (if used), 1 teaspoon salt,
half cup uncooked rice, two and a halfcups wheat flour, water for cooking
the rice.Make a sponge with the half cup
of water, sugar, yeast, salt and one
cupful of the wheat flour. Let it rise
until it is light. Boil the rice in salt-
ed water until it is tender (about 20
minutes), drain and cool it until it is
lukewarm. This makes about 2 cups
of boiled rice. Add the rice and the
shortening to the light sponge. Add
the wheat flour gradually and knead
the dough thoroughly. Let the dough
rise until it has doubled its bulk and
make it into a loaf. When it has
doubled its bulk, bake.**Public Schools**Notice is hereby given that the pub-
lic schools of this city will reopen on
Monday, 27 inst., at 9 o'clock, a. m.
Permits may be obtained at the office,
York street, any day during the week
beginning 20th inst. Children must be
six years old and produce a physi-
cian's certificate of vaccination or fur-
nish satisfactory evidence of recent
vaccination.Extract from law: The Trustees of
any school are hereby authorized and
empowered to refuse admission to
such school to any child until its par-
ents or guardian shall furnish satis-
factory evidence that such child has
been successfully vaccinated within
three years prior to the time of such
request for admission, etc.Permits for admission to the Mis-
cellaneous School will also be obtain-
ed at the Secretary's Office.By order,
CHAS. A. SAMPSON,
Secretary

The Great Importance of Prohibition!

Hon. Nicholas Iserguine

Inspector of State Sav-
ings Banks of Russian
Empire states, in regard
to effect of Prohibition:
"We have about dou-
bled in less than
three years the amount
accumulated in seventy-
three years previous to
the outbreak of the war,
for our State banks are
about seventy-five years
old."**Former Attor.-Gen. Baxter**in introducing the Prohibition
Act said: "I do not think that
I need discuss the question of
whether Prohibition prohib-
its. That depends upon you and
me. If those in the community
who hold the moral forces under
their particular care—if they do
their duty—if they let petty
things go and if they stand
back of the men who live under
the law and persistently and
insistently urge these men to
respect the law—for without
respect the law becomes of no
value whatever—to respect this
law as they would any other
law, if the moral and social
leaders of our country will but
rise to the occasion and do their
duty, there is no fear but that
a prohibitory law, like any
other law, can be enforced
within the Province of New
Brunswick."**Premier Foster**as leader of the Opposition, in
speaking of Prohibition said:
"That in his opinion the Tem-
perance question is not a ques-
tion of party politics. Prohibition,
after all, affects everyone
directly or indirectly and is
therefore too big and broad a
matter to be dealt with politi-
cally. The law is to-day on the
Statute Books, and if we are
returned to power when May
1st comes the Prohibition bill
will be put into effect, and we
will enforce it as far as it lies
in our power to do so."In these critical days when governing bodies the
world over are imploring everyone to increase
production of food, when our armies are crying
for men, munitions, ships—when every resource,
however small, is a vital asset—waste is intolerable.New Brunswick stands second to none in her
loyalty to the vital cause of the Empire. Of her
sacrifices of precious boys, her wealth and
resources she is justly proud. With effective
Prohibition laws in force throughout the province,
she will tolerate no waste due to lax enforcement
of Prohibition. Her resolve, however, demands a
united public opinion in favor of strictest
enforcement.

Help to Enforce Prohibition

The "PIONEER" (published in Toronto) is authority for the statement that
in Canada the total value of foodstuffs destroyed by the liquor traffic in 1916
was approximately \$4,244,090.22. Add to this the immense loss of trans-
portation facilities, clogged and hindered by carrying the grain to
destruction, and again conveying the product of the breweries and distil-
leries to make precious men less efficient in this solemn hour!

Russia—

Some idea of the enormous effect
of Prohibition is afforded by the
wonderful example of Russia. The
whole country is "bone dry." The
people declare they never will back-
slide to vodka. In spite of the fact
that millions of producers have been
in the army the savings of the people
enormously increased. In 1912 and
1913 they were saving, per year,
about \$20,000,000. In the first five
months under Prohibition they saved
\$60,000,000. In 1915 the banks took
in \$265,000,000. For the first half
of 1916, the Russian people saved
\$300,000,000!The shortage of revenue from the
tax on vodka is gradually being
made up by increase in other
revenue, due to the savings and
greater efficiency of the people. In
spite of the ravages of war there is
less begging and misery. "With
vodka on her back, she could neverhave held the Germans back. Russia
has helped to save Europe."On May 1st 1917, the putting into
effect of the Prohibitory Act in New
Brunswick placed in our hands a
powerful instrument. The success
of Prohibition depends upon our
use of the instrument, just the same
as success in battle depends upon
the general's intelligent, vigorous
use of his forces.No matter where you live, whether
your district is under the Canada
Temperance Act or under the new
Prohibitory Act, you are urged to use
every legitimate means within your
power of support and aid the officers
of the law in their sworn duty of
enforcement.Use your influence to build up such
a weight of public opinion in favor
of strictest enforcement of both the
Scott Act and the Prohibitory Act
that the success of Province-wide
Prohibition will be permanent.
