War Time Economy COCOA versus TEA AND COFFEE

THE war is being fought in the kitchens of Canada, just as truly as it is in the trenches of France.

The housewife that is genuinely anxious to help the cause of our Empire will use Cocoa on her table in preference to tea and coffee, which—delightful as you may find them as mild stimulants—have no real food value, and hinder the proper digestion of starchy foods, bread, cakes and potatoes.

Saving at Home Serves in the Trenches

There is more nourishment in a cup of cocoa than in a cup of chicken soup, bouillon or beef extract. You require less of other foods when you drink cocoa. You save money on your table expenditures.

The money you save will enable you to purchase War Savings Certificates. For \$21.50

you can buy at your nearest bank or Post Office Certificate worth, in three years, \$25.00.

Cowan's Perfection Brand Cocoa for the table, and Cowan's Maple Buds or Milk Chocolate Bars for most delightful confections will be found at the stores of all dealers throughout Canada.

Ask for Cowan's ACTIVE SERVICE Chocolate, just what our Soldiers in the trenches appreciate. Specially manufactured to meet their needs.

The Peril of the Moderate Drinker

Like the contemptible German Spy who lived upon our friendship while all the while he was stabbing in the dark, Alcohol in moderate doses is **poison**. Of course you know that the lining of your stomach is just as sensitive as the ball of your eye. Just try putting a drop of whiskey in your eyeball—keep on doing it off and on for years—think of the result!

If you want to know what is going on in the system of the moderate drinker, look at a man who is dead drunk. Scientists say the only difference is that the drunkard reaches the climax quicker than the tippler. The effects are alike; the first thing Alcohol destroys is the mental power of defence against the appetite for drink. All drunkards begin as moderate drinkers.

Above the falls of Niagara there is a point in the current where each man's strength can yet take him back to safety. Beyond that invisible point he is lost. No man knows where lies that invisible line in his make-up, where ends his ability to say, "I can" or "I can't" stop drinking liquor.

After seventy-four years of investigation—economic, sociological, medical, ethical—the Insurance Companies ought to know. They declare that Alcohol, even in the smallest quantities, is a destructive **poison**. They turn away hundreds of thousands of dollars' worth of business on the strength of their knowledge. Taking two million policy-holders as a test they know that the teetotaler lives much longer than the moderate drinker; "the man who occasionally gets tight

suffers a death rate just one-half greater than strictly temperance men. Other men who drink more than that, but still not enough to bar them from insurance, show an appalling mortality of almost double that of men who were never introduced to John Barleycorn."

Every man and woman in this province shares the responsibility for the proper enforcement of Prohibition—not the officers of the law alone. **Your** duty is clear.

MODERATE DRINKERS
Life insurance men declare that MODERATE drinkers shorten life on an average from 10 to 13 years by their occasional alcoholic drink.

Help to Enforce Prohibition

No matter where you live, whether the Canada Temperance Act or the new Prohibitory Law operates in your district, you are urged to use every legitimate means within your power to heartily support and aid the officers in their sworn duty of enforcing the law.
