The Number of Peace Rumors Which The Censors Allow to Pass Commented on by London Press---Something Definite Soon Expected.

(Canadian Press direct wire.)

LONDON, Sept. 19.—The flood of so-called peace rumors which the German censor is permitting to sprout in leading German newspapers, convince the London press and public that Berlin is preparing home opinion for another adroit peace manoeuvre, which probably will take definite shape before the

First came the alleged British peace offer, which, despite official denial is still being commented upon excitedly in Germany. Now much fuel has been added to the agitation by the report that the German government has abandoned claims of supremacy and control over the territory and population of Belgium. In addition, there are all sorts of rumors regarding the German answer to the Pope.

REPORTS OF AN ALLEGED BRITISH PEACE OFFER WERE INDUSTRIOUSLY CIRCULATED BY HUNS

A strange thing about the whole affair is that the German censor appears to be permitting the newspapers to discuss the matter freely, but so far as is known, none of the discussions are founded on more substantial authority than the indefinite 'we understand," or "we have received information."

The fact remains, however, that the German government, as represented by the censor, does not object to these statemnts. A despatch to the Central News from Amsterdam says: 'A careful reading of the German papers leads to the belief that reports of a British peace offer were circulated simply with the object of making it easy for the German government to conform to the attitude of the Reichstag majority, and the whole thing is an adroit manoeuvre engineered by Dr. Von Kuehlmann, the German foreign secretary.

WANTS BELGIUM RESTORED.

AMSTERDAM, Sept. 49.—Vorwaerts, the socialist organ of Berlin, holding that the complete restoration of Belgium is in conformity with the Reichstag resolution, declares: "Whether the German government remains deaf thereto, it is not only a question of power or policy, but justice and conscience. No policy is truly wise that disagrees with the moral and legal factors in the life of nations. Despite the howling of the mailed fist by the politicians, we affirm that right is right, and that Belgium has the right to its independence."
