A HITCH IN THE SENATE OVER THE FRANCHISE BILL

Ottawa, Sept. 18. — A hitch which threatened to hold up prorogation and precipitate a bitter and long drawn-out fight extending possibly until parliament dies by the effluxion of time eighteen days hence, occurred in the senate today in connection with the franchise bill. A final high-handed attempt to make sure of stealing the election insofar as Nova Scotia was concerned at any rate, has been attempted by the government.

In the senate this afternoon Senator Ross of Halifax, moved an amendment providing that absolutely new lists shall be made up for Nova Scotia by the enumerators who would, of course, be partisan appointees, instead of keeping the present provincial lists as the basis, as promised in the commons by Premier Borden and Secretary of State Meighen. Liberal senators promptly objected, and it was intimated that if the government insisted on the amendment that fight would be a prolonged one in the senate and when the amendment went back to the commons for consideration there would be a further strenuous and spectacular fight there which might be carried to lengths not relished by the government, now anxious to secure immediate prorogation.

The situation developed quickly and seeing trouble ahead, the government leader in the senate adjourned the chamber to give time for a conference which might work out some compromise. This conference was held to-night between representative Liberal and Conservative members of the senate and commons, and although no final decision was reached, it is understood that a basis of compromise was suggested which may be agreed upon at a further conference to be held at noon tomorrow.

Compromise Arranged.

This compromise is in brief, that the provincial lists in Nova Scotia shall be used as the basis for the federal lists, but may be reopened to add or strike off any electors qualified or disqualified from April 1 last to September 1, the revision being done by revisors appointed by the district judges. Thus the preparation of the lists would not be left entirely to the enumerators whose only work would be to fill the same functions they have

in other provinces, namely to add the names of the women voters and to strike off those of alien enemy nationality. This compromise suggested by A. K. MacLean, M.P., will probably be accepted by the government in order to prevent the threatened last ditch stand of the incensed Liberals in both houses with its resultant effect on public opinion and the possibility of having the whole bill killed by being talked out in the upper chamber where closure does not yet apply.

There are several sinister features about the amendment proposed by Senator Ross. In his original notice of motion he included the province of New Brunswick as well as the province of Nova Scotia as coming under the scope of the amendment providing for entirely new enumerators' lists. This afternoon he made the amendment apply only to Nova Scotia. The reason for this is that the New Brunswick lists are those prepared under the late Murray-Flemming government and may naturally be presumed to be as favorable as could be obtained for the Tory interests. As for Nova Scotia, Senator Ross' contention was that the lists in that province are fully revised by the sheriffs who are all provincial government appointees and consequently he alleged the Tories had not got a square deal.

BORDEN STILL LOOKS FOR A UNION GOVT.

(Canadian Press direct wire.)

Vancouver, B. C., Sept. 19.—That it is both his purpose and his expectation to form a union government before the general election now imminent, but if that should prove impossible he will certainly do so if the electors return him to power, is the statement of Premier Borden in a letter addressed to S. E. P. Davis, K. C., a prominent Vancouver Liberal.

The letter, which is dated September 10th, is a reply to a communication from Mr. Davis, in which he asked the Premier if it is his intention to go to the country in the coming election on the principle of forming a union government if returned to power.

TRIP-LATCH CRIBS

To drop side of Crib, press latch with foot while holding baby with hands (as shown in picture above). Come in and see these Cribbs, the next time you are passing.
